Sports around the World [4 volumes] John Nauright, 2012-04-06 This multivolume set is much more than a collection of essays on sports and sporting cultures from around the world: it also details how and why sports are played wherever they exist, and examines key charismatic athletes from around the world who have transcended their sports. *Sports Around the World: History, Culture, and Practice* provides a unique, global overview of sports and sports cultures. Unlike most works of this type, this book provides both essays that examine general topics, such as globalization and sport, international relations and sport, and tourism and sport, as well as essays on sports history, culture, and practice in world regions—for example, Latin America and the Caribbean, the Middle East and North Africa, Europe, and Oceania—in order to provide a more global perspective. These essays are followed by entries on specific sports, world athletes, stadiums and arenas, famous games and matches, and major controversies. Spanning topics as varied as modern professional cycling to the fictional movie *Rocky* to the deadly ball game of the ancient Mayans, the first three volumes contain overview essays and entries for specific sports that have been and are currently practiced around the world. The fourth volume provides a compendium of information on the winners of major sporting competitions from around the world. Readers will gain invaluable insights into how sports have been enjoyed throughout all of human culture, and more fully comprehend their cultural contexts. The entries provide suggestions for further reading on each topic—helpful to general readers, students with school projects, university students and academics alike. Additionally, the four-volume *Sports Around the World* spotlights key charismatic athletes who have changed a sport or become more than just an outstanding player.

The Tao of Sport: Reflecting on Purpose, Passion, and Growth from a Hotbed of High Performance Duff Gibson, 2021-09-14 Duff Gibson has spent the better part of three decades in a hotbed of Olympic sport. As an athlete, Duff was a provincial champion speed skater, a national champion and national team member in bobsleigh, and then a world and Olympic gold medallist in the sport of skeleton. As a coach he led six different athletes to podium finishes at a world level. Competing against, working with, and learning from numerous world-leading athletes and coaches has provided Duff a breadth and depth of experience few others have had. Despite its mischaracterization in popular culture, the mental side of sport is perhaps the most significant aspect, and what very often makes the difference between success and failure, in particular at the highest level. *The Tao of Sport* explores the commonality amongst elite performers relating to purpose, passion, and growth, as a means to achieving high performance, or as a means to an end in itself. An inspiring and informative read for athletes and coaches of any level, as well as parents, teachers, and anyone helping others to become the best version of themselves. *The Tao of Sport* will forever change your perspective on what it really takes to win.

Hutchinson,2021-05-12 This book offers a comprehensive and detailed overview of specific sports-related injuries and a valuable guide for decision-making to establish the best strategies to prevent and manage such injuries.
