**The Big Sort** Bill Bishop,2009-05-11 The award-winning journalist reveals the untold story of why America is so culturally and politically divided in this groundbreaking book. Armed with startling demographic data, Bill Bishop demonstrates how Americans have spent decades sorting themselves into alarmingly homogeneous communities—not by region or by state, but by city and neighborhood. With ever-increasing specificity, we choose the communities and media that are compatible with our lifestyles and beliefs. The result is a country that has become so ideologically inbred that people don't know and can't understand those who live just a few miles away. In *The Big Sort*, Bishop explores how this phenomenon came to be, and its dire implications for our country. He begins with stories about how we live today and then draws on history, economics, and our changing political landscape to create one of the most compelling big-picture accounts of America in recent memory.

The Fourth Wall Barbara Paul,2016-03-15 A playwright searches the theater for a crazed saboteur Sylvia Markey sits in her dressing room, holding her cat's head in her hands. Just the head—the body is nowhere to be found. This gruesome act of violence was committed just a few minutes before curtain, and Sylvia has no time to grieve. She collects herself, and gets ready to perform. She makes it halfway through the second act before her nerves get the best of her, and she vomits onstage. As the run continues, so does the sabotage, and the unknown troublemaker attacks actors, vandalizes the set, and hurls acid at one of the designers. To playwright Abigail James, the meaning is clear: Someone is trying to murder her play. The police do all they can, but it will take someone who understands theater to unravel the mystery. This is a matter of revenge—and Abigail will settle it backstage.

**Retailising Space** Mattias Kärrholm,2012 Over the past few years there has been a proliferation of new kinds of retail space, such as in libraries, workplaces, churches and museums. This book describes how the retailisation of public domains affects our everyday life and our use of the built environment. Taking an architectural and territorial perspective on this issue, it looks at how retail and consumption spaces have changed and territorialised urban life in different ways. It then develops a methodology and a set of concepts to describe and understand the role of architecture in

these territorial transformations.
