Avenging Storm Maurice Mayben,2009-04 Warning - you will NOT be able to put this book down! Fast paced, lots of twists, and a great ending - I loved it! Diann TonnesenA wounded American soldier in Desert Storm discovers ancient Chinese artifacts in the Iraqi desert that imply a potential cure for cancer, but learns he must return to Iraq, again on the verge of war, to find additional artifacts that complete the formula. Unfortunately, ruthless mercenaries murder his uncle and corrupt government officials conspire to suppress the cure, even if thousands have to die. Derek Storm must summon all of his cunning and martial skills to recover the artifacts and bring the culprits to harsh justice, dispensed by an avenging Storm.

The Orpheus Deception David Stone,2008-03-27 A testosterone-fueled thriller.—Publishers Weekly In his New York Times bestselling debut, *The Echelon Vendetta*, David Stone introduced covert operative Micah Dalton. Once, it was his job to take care of other agents' mistakes. Coldly, cleanly—and permanently. Now, Micah is on the outs with his former employers, staying off the radar and hopefully out of firing range. When an attempt is made on his life in the rainy streets of Venice, he knows his best chance of survival is under the shadowy wings of the CIA. To prove his worth, he accepts their mission: an agent and old associate of Micah's has been taken in the China Sea, the only survivor of a brutal pirate attack. He's to find the man and find him fast. But Micah's mission is not about a man. It's about an elusive ship known only as *The Mingo Dubai* that is already under way, heading toward the West. And its cargo is death.

Radiation Instrumentation for the Classification of Nuclear Explosions at Sea E. J. Wesley,1961 A survey was made of the measurement problems, environment and instrumentation requirements for the detection and sampling of clandestine nuclear explosion debris at sea. The survey was oriented toward the problems of a search team policing a world nuclear test ban and recommends improvement of existing water probing devices and development of a ship-to-water survey system and expendable depth probes. The depth probes would explode a charge on contact with submerged radioactive pools and this signal would be monitored by the ship's sonar. (Author).

Reeds Marine Deck 2: Crammer for Deck Officer Oral Exams Simon Jinks, 2023-09-14 A no-nonsense study guide helping seafarers to pass their MCA or Flag State oral exams for Deck Officer qualifications. This handy revision guide is the one book that Deck Officer Cadets, Master and Deck Officers will want by their side when studying for the much-feared oral exams. Expert marine training director Simon Jinks strips back the masses of information to the core essential points that are easy to absorb and quick to remember when it comes to the oral assessment. The MCA Deck Officer (Officer of the Watch, Chief Mate and Master) syllabi cover a vast amount of information that candidates are required to understand and use in their oral exam, which for many presents a major stumbling block to qualification. While it inevitably takes a long time for candidates to build up this wealth of knowledge, this study aid is the perfect refresher, listing the key points and including helpful sample questions and worked examples on tidal working, radar plotting and more. Written in simple terms, this trusted crammer covers all the principal areas of the MCA's exam syllabus, including sections on business and law conventions, pollution prevention, responses to emergencies and distress signals. Clearly presented, it is packed with straightforward diagrams and flow charts, making it ideal for revising. This is an invaluable reference for all international STCW Deck Officer candidates, and covers both MCA and Flag State oral exams. It is also suitable for Near Coastal and Boatmaster apprentices, Workboat crew apprentices, Yachtmaster Offshores, Yachtmaster instructors, and fishermen going for their fishing licences on larger vessels, and for shore workers such as vessel superintendents, maritime managers and trainers. There is specific information for all vessels, with sections on smaller, code and domestic vessels.
