Ann Rand, Paul Rand

Spin Robert Charles Wilson,2010-07-01 From the author of Axis and Vortex, the first Hugo Award-winning novel in the environmental apocalyptic Spin Trilogy... One night in October when he was ten years old, Tyler Dupree stood in his back yard and watched the stars go out. They all flared into brilliance at once, then disappeared, replaced by a flat, empty black barrier. He and his best friends, Jason and Diane Lawton, had seen what became known as the Big Blackout. It would shape their lives. The effect is worldwide. The sun is now a featureless disk--a heat source, rather than an astronomical object. The moon is gone, but tides remain. Not only have the world's artificial satellites fallen out of orbit, their recovered remains are pitted and aged, as though they'd been in space far longer than their known lifespans. As Tyler, Jason, and Diane grow up, space probe reveals a bizarre truth: The barrier is artificial, generated by huge alien artifacts. Time is passing faster outside the barrier than inside--more than a hundred million years per day on Earth. At this rate, the death throes of the sun are only about forty years in our future. Jason, now a promising young scientist, devotes his life to working against this slow-moving apocalypse. Diane throws herself into hedonism, marrying a sinister cult leader who's forged a new religion out of the fears of the masses. Earth sends terraforming machines to Mars to let the onrush of time do its work, turning the planet green. Next they send humans...and immediately get back an emissary with thousands of years of stories to tell about the settling of Mars. Then Earth's probes reveal that an identical barrier has appeared around Mars. Jason, desperate, seeds near space with self-replicating machines that will scatter copies of themselves outward from the sun--and report back on what they find. Life on Earth is about to get much, much stranger. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

SPIN® -Selling Neil Rackham,2020-04-28 True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. All false, says this provocative book. Neil Rackham and his team studied more than 35,000 sales calls made by 10,000 sales people in 23 countries over 12 years. Their findings revealed that many of the methods developed for selling low-value goods just don't work for major sales. Rackham went on to introduce his SPIN-Selling method. SPIN describes the whole selling process: Situation questions Problem questions Implication questions Need-payoff questions SPIN-Selling provides you with a set of simple and practical techniques which have been tried in many of today's leading companies with dramatic improvements to their sales performance.

Sparkle and Spin Ann Rand,Paul Rand,2006-08-03 Lyrical text explores what words are and how they are used, highlighting such characteristics as that some words are spoken softly, some are shouted, some sound like their meaning, and some evoke certain feelings.

Spin Peter Zheutlin,2021-06-01 Ride away on a 'round-the-world adventure of a lifetime--with only a change of clothes and a pearl-handled revolver--in this transcendent novel inspired by the life of Annie Londonderry. "Bicycling has done more to emancipate women than anything else in the world."--Susan B. Anthony Who was Annie Londonderry? She captured the popular imagination with her daring 'round the world trip on two wheels. It was, declared The New York World in October of 1895, "the most extraordinary journey ever undertaken by a woman." But beyond the headlines, Londonderry was really Annie Cohen Kopchovsky, a young, Jewish mother of three small children, who climbed onto a 42-pound Columbia bicycle and pedaled away into history. Reportedly set in motion by a wager between two wealthy Boston merchants, the bet required Annie not only to circle the earth by bicycle in 15 months, but to earn \$5,000 en route, as well. This was no mere test of a woman's physical endurance and mental fortitude; it was a test of a woman's ability to fend for herself in the world. Often attired in a man's riding suit, Annie turned every Victorian notion of female propriety on its head. Not only did she abandon, temporarily, her role of wife and mother (scandalous in the 1890s), she earned her way selling photographs of herself, appearing as an attraction in stores, and by turning herself into a mobile billboard. Zheutlin, a descendent of Annie, brilliantly probes the inner life and seeming boundless courage of this outlandish, brash, and charismatic woman. In a time when women could not vote and few worked outside the home, Annie was a master of public relations, a consummate self-promoter, and a skillful creator of her own myth. Yet, for more than a century her remarkable story was lost to history. In SPIN, this remarkable heroine and her marvelous, stranger-than-fiction story is vividly brought to life for a new generation.

Spin Rebecca Janni,2017-02-21 Go for a spin up a hill--when the story of a bike ride becomes an inspirational journey. Albert Einstein once said, Life is like riding a bicycle. To keep your balance you must keep moving. Ride along up and down the hills and valleys of this bike ride. Featuring lyrical text and vivid artwork, Spin shows that any mountain can be climbed. By pushing forward and pedaling around and around, anyone can spin onwards.
