Meander, Spiral, Explode Jane Alison, 2019-04-02 How lovely to discover a book on the craft of writing that is also fun to read . . . Alison asserts that the best stories follow patterns in nature, and by defining these new styles she offers writers the freedom to explore but with enough guidance to thrive. —Maris Kreizman, *Vulture* A Publishers Weekly Best Book of 2019 | A Poets & Writers Best Books for Writers As Jane Alison writes in the introduction to her insightful and appealing book about the craft of writing: “For centuries there’s been one path through fiction we’re most likely to travel— one we’re actually told to follow—and that’s the dramatic arc: a situation arises, grows tense, reaches a peak, subsides . . . But something that swells and tautens until climax, then collapses? Bit masculosexual, no? So many other patterns run through nature, tracing other deep motions in life. Why not draw on them, too? W. G. Sebald’s *Emigrants* was the first novel to show Alison how forward momentum can be created by way of pattern, rather than the traditional arc--or, in nature, wave. Other writers of nonlinear prose considered in her “museum of specimens” include Nicholson Baker, Anne Carson, Marguerite Duras, Gabriel García Márquez, Jamaica Kincaid, Clarice Lispector, Susan Minot, David Mitchell, Caryl Phillips, and Mary Robison. *Meander, Spiral, Explode* is a singular and brilliant elucidation of literary strategies that also brings high spirits and wit to its original conclusions. It is a liberating manifesto that says, Let’s leave the outdated modes behind and, in thinking of new modes, bring feeling back to experimentation. It will appeal to serious readers and writers alike.

QB Steve Young, Jeff Benedict, 2016-10-11 In the most candid and compelling sports memoir since Andre Agassi’s riveting bestseller *Open*, former San Francisco 49er, Super Bowl champion, NFL MVP, and Hall of Famer Steve Young gives readers an unprecedented and stunning inside look at what it takes to become a super-elite professional quarterback. Steve Young produced some of the most memorable moments in NFL history. But his most impressive victories have been deeply personal ones that were won when no one was watching. His remarkably revealing memoir is the story of a Mormon boy with a 4.0 GPA, a photographic memory, and a severe case of separation anxiety. As an eighth-string quarterback at Brigham Young University, it was doubtful that he would ever see any playing time. But Young became an All-American, finished second in the Heisman voting, and was the top draft choice out of college. Then, after signing the largest contract in sports history, anxiety nearly drove him to walk away from football completely. In short, Young’s quest in life was always about grit. Now, he shares the experience of being inside his helmet while he faces down his toughest adversaries, both on and off the field. This book is gold.”—Peter King “Intense.”—San Francisco Chronicle “Steve Young is a hero of mine, and his story is a source of inspiration for me. His perseverance, intelligence, and, most of all, grace under pressure, NFL-style, make this book a fascinating read. Thanks, Steve, for sharing your story with one of your biggest fans!”—Tom Brady

Spiral William Story, 2013-10 Bobby Ellis is best known to his friends as Chug because he can chug a beer faster than anyone alive. However, when Chug, a likable and decent enough person in many respects, becomes involved in a daytime heist of a restaurant where he accidentally shoots and seriously wounds Florence Scarlata, the mother of Boston's crime boss, he steps into a world he never could have imagined and his life becomes an out of control spiral. Trying to elude both the police and the Mob, Chug gets caught up in a game of deadly pursuit. When Florence Scarlata dies, the rage of her son, William Scarlata, a.k.a. Time Spiral Scott McGough, 2010-04-21 Time is Running Out! The planeswalker Teferi at last returns to his home plane only to find it devastated and barren. Time itself is fracturing, and it’s up to Teferi and his companions to find a way to halt the collapse. It won’t be easy when his allies are poised to turn against him. About the Author Scott McGough recently moved to farm country and can now compare the urban, suburban, and agrarian lifestyles. Not surprisingly, his first choice hasn’t changed since childhood: all things being equal, he’d rather be down the shore. Scott worked on *The Duelist* magazine before joining the Creative Team for *MAGIC: THE GATHERING®*. He worked on almost all the *Urza/Phyrexia* saga and has since written eight novels and a handful of short stories for *MAGIC: THE GATHERING*. All this, and yet he has only ever appeared on one Magic card. Though he finds this burden bitter and onerous, he will at least admit that that it’s a really good picture. From the Paperback edition.

The Ghosts of Heaven Marcus Sedgwick, 2015-01-06 Timeless, beautiful, and haunting, spirals connect the four episodes of *The Ghosts of Heaven*, the mesmerizing new novel from Printz Award winner Marcus Sedgwick. They are there in prehistory, when a girl picks up a charred stick and makes the first written signs; there tens of centuries later, hiding in the treacherous waters of Golden Beck that take Anna, who people call a witch; there in the halls of a Long Island hospital at the beginning of the 20th century, where a mad poet watches the oceans and knows the horrors it hides; and there in the far future, as an astronaut faces his destiny on

the first spaceship sent from earth to colonize another world. Each of the characters in these mysterious linked stories embarks on a journey of discovery and survival; carried forward through the spiral of time, none will return to the same place. This title has Common Core connections.

QF32 Richard de Crespigny,2012-08-01 QF32 is the award winning bestseller from Richard de Crespigny, author of the forthcoming Fly!: Life Lessons from the Cockpit of QF32 On 4 November 2010, a flight from Singapore to Sydney came within a knife edge of being one of the world's worst air disasters. Shortly after leaving Changi Airport, an explosion shattered Engine 2 of Qantas flight QF32 - an Airbus A380, the largest and most advanced passenger plane ever built. Hundreds of pieces of shrapnel ripped through the wing and fuselage, creating chaos as vital flight systems and back-ups were destroyed or degraded. In other hands, the plane might have been lost with all 469 people on board, but a supremely experienced flight crew, led by Captain Richard de Crespigny, managed to land the crippled aircraft and safely disembark the passengers after hours of nerve-racking effort. Tracing Richard's life and career up until that fateful flight, QF32 shows exactly what goes into the making of a top-level airline pilot, and the extraordinary skills and training needed to keep us safe in the air. Fascinating in its detail and vividly compelling in its narrative, QF32 is the riveting, blow-by-blow story of just what happens when things go badly wrong in the air, told by the captain himself. Winner of ABIA Awards for Best General Non-fiction Book of the Year 2013 and Indie Awards' Best Non-fiction 2012 Shortlisted ABIA Awards' Book of the Year 2013

The Spiral Staircase Karen Armstrong,2010-06-04 The moving story of her own search for God by the highly-acclaimed author of the bestselling A History of God: The 4,000-Year Quest of Judaism, Christianity and Islam; The Battle for God: A History of Fundamentalism; and Islam: A Short History. In 1969, after seven years as a Roman Catholic nun -- hoping, but ultimately failing, to find God -- Armstrong left her convent. She knew almost nothing of the changed world she was entering, and she was tormented by panic attacks and inexplicable seizures. Her struggle against despair was fueled by a string of discouragements -- failed spirituality, doctorate and jobs, fruitless dealings with psychiatrists -- but finally, in 1976, she was diagnosed with epilepsy and given proper treatment. She then began the writing career that would become her true calling, and as she focused on the sacred texts of Judaism, Christianity and Islam, her own true inner story began to emerge. She would come to experience brief moments of transcendence through her work -- the profound fulfillment that she had not found in the long hours of prayer as a young nun. Powerfully engaging, often heart-breaking, but lit with bursts of humour, The Spiral Staircase is an extraordinary history of self.

Turns out that through Harrigan's new client, Anna has come into possession of a program/entity called Mirror, Mirror, which has the capacity to merge The Grid and reality, bending both to the whims of the program's user. Soon Harrigan finds himself up against the last surviving organized crime gangs in Los Angeles, Zodiac's mercenaries, and a mysterious group called The First Church Multiverse, all of whom are hot on the trail of Mirror, Mirror--if the comet rapidly approaching Earth doesn't kill them all first.

Science V. Story Emma Frances Bloomfield, 2024 Uncovering common threads across types of science skepticism to show why these controversial narratives stick and how we can more effectively counter them through storytelling Science v. Story analyzes four scientific controversies--climate change, evolution, vaccination, and COVID-19--through the lens of storytelling. Instead of viewing stories as adversaries to scientific practices, Emma Frances Bloomfield demonstrates how storytelling is integral to science communication. Drawing from narrative theory and rhetorical studies, Science v. Story examines scientific stories and rival stories, including disingenuous rival stories that undermine scientific conclusions and productive rival stories that work to make science more inclusive. Science v. Story offers two tools to evaluate and build stories: narrative webs and narrative constellations. These visual mapping tools chart the features of a story (i.e., characters, action, sequence, scope, storyteller, and content) to locate opportunities for audience engagement. Bloomfield ultimately argues that we can strengthen science communication by incorporating storytelling in critical ways that are attentive to audience and context.
