The work presented focuses on well-defined models--robotic, computer-simulation, and mathematical--that help to characterize and compare various organizational principles or architectures underlying adaptive behavior in both natural animals and animats.

Criminal Conduct and Substance Abuse Treatment - The Provider's Guide Kenneth W. Wanberg,Harvey B. Milkman,2008 Fiction. 'Get it up ' demands the narrator of Frederick Mark Kramer's new novel, AMBIGUITY, of himself as he lies down to rest, as if his sexual energy could save him. However, for Kramer's narrator, Darko, sexual energy alone, although it abounds in Darko's memory, cannot save him. This is a novel about breath, or, as Darko calls it, 'the pneuma.' Darko says that 'the pneuma can mean the breath of life or the destruction of life, ' and in between is where this novel takes place. Clearly Darko uses his entire life as his inspiration here, 'inspiration' meaning 'breathing in.' Then Darko recounts this life in ten paragraphs that are gymnastic and acrobatic and celebrate corporeal existence. This is the 'perspiration, ' or the 'breathing through' life that Darko has exercised. His ten paragraphs, though, are ten breaths, ten exhalations, leading to a final 'breathing out, ' or 'expiration, ' as he takes to his bed, exhausted, demanding of himself a new beginning, not just the release of orgasm, but the orgasmic seeding of new life, a creative re-fertilization of the world and the rebirth of oneself. As always, Kramer is both resolutely readable and profoundly resonant in his work. Those familiar with his masterful novel Apostrophe/Parenthesis will find in AMBIGUITY that Kramer has produced another masterpiece that rivals the best works of anyone.--Eckhard Gerdes

Short Story Criticism Lawrence J. Trudeau,2006 Presents literary criticism on the works of short-story writers of all nations, cultures, and time periods. I Remember the Future Michael A. Burstein,2008 The award-nominated stories in this collection will bring memories of the future flooding back. Two new stories and all-new afterwords enliven the past with a touch of the present and that which is yet to come. You don't need a collection of antique spaceships or a carefully calibrated time machine to share the memories of the final Holocaust survivor. You don't have to jump through the gate between universes in search of a lost friend. All you have to do is open your eyes. You'll remember the future. The future remembers you.

Einstein's Bridge John Cramer,2023-05-02 Somewhere in the Multiverse, in a lab distant from the Makers’ Planet, Tunnel Maker, Creator of Bridges, answers an alarm. His inter-universe probe is detecting signals from another bubble universe, indicating that some new high-intelligence alien species is doing high-energy physics and creating hyperdimensional signals. Tunnel Maker knows that, in another bubble universe, the predatory Hive Mind should be receiving the same signals. It is time to make a Bridge . . . George Griffin, experimental physicist working at the newly-operational Superconducting Super Collider (SSC), observes a proton-proton collision that doesn’t make sense. He chases it down and discovers a Bridgehead, a wormhole link to the Makers’ universe. With help from theorist Roger Coulton and writer Alice Lancaster, he establishes communication with the Makers, only to learn that a Hive invasion of Earth is imminent. As the Hive invasion is destroying humanity, by wormhole the Makers transport George and Roger back to 1987, where they must undertake the task of manipulating the Reagan, Bush, and Clinton administrations to change the future and prevent construction of the SSC. It’s All About Jesus! Peter M. Magolda,Kelsey Ebben Gross,2023-07-03 What is it like to be a collegian involved in a Christian organization on a public college campus? What roles do Christian organizations play in the lives of college students enrolled in a public college? What are evangelical student organizations’ political agendas, and how do they mobilize members to advance these agendas? What is the optimal equilibrium between the secular and the sacred within public higher education? What constitutes safe space for evangelical students, and who should provide this space? This book presents a two-year ethnographic study of a collegiate evangelical student organization at a public university, authored by two “non-evangelicals.” The authors provide a glimpse into the lives of college students who join evangelical student organizations and who subscribe to an evangelical way of life during their college years. They offer empirically derived insights as to how students’ participation in a homogeneous evangelical student organization enhances their satisfaction of their collegiate experience and helps them develop important life lessons and skills. Ironically, while Christian students represent the religious majority on the campus under study, Christian organizations on this campus mobilize members by capitalizing on members’ shared sense of marginalization, and position themselves as cultural outsiders. This evangelical student organization serves as a safe space for students to express their faith within the larger secular university setting.The narratives and interpretations aim not only to enrich understanding of a particular student organization but more importantly to spark intellectual discourse about the value of faith-based organizations within public higher education. The role of religion in public higher education, student involvement in the co-curriculum, and peer education are three examples of critical issues in higher education for which this idiosyncratic case study offers broad understanding. It’s All About Jesus! targets multiple audiences – both sacred and secular. For readers unfamiliar with evangelical collegiate organizations and the students they serve, the authors hope the narratives make the unfamiliar familiar and the dubious obvious. For evangelicals, the authors hope that the thickly described narratives not only make the familiar, familiar and the obvious, obvious, but also uncover the tacit meaning embedded in these familiar, but seldom examined subculture rituals.The authors hope this book spurs discussion on topics such as campus power and politics, how organizations interact with the secular world around them, and how members can improve their organizations. Additionally, this text urges secular readers in student affairs to consider the many benefits, as well as liabilities, of “parachurches” as co-curricular learning sites on campus.Lastly, given that the authors lay bare their methodology, their use of theory, and the tensions between their perspectives and those of the participants, this book will serve as a compelling case study for courses on qualitative research within religion studies, anthropology, sociology, and cultural studies fields.
