Daisy Cooks! Daisy Martinez,2013-07-23 Daisy Martinez is America's most exciting and beloved new television cook. Here, at last, is her first cookbook, with all the recipes from her acclaimed show--and most can be made in under thirty minutes! In Daisy Martinez's kitchen, salsa music is always playing. Laughter fills the air, along with delicious aromas of the amazing meal to come. Friends, neighbors, and family members are ever-present, sneaking tastes from every pot. And in the center of it all, Daisy is laughing, singing, tasting, and appreciating everything that her kitchen--and life!--has to offer. Does this sound like your kitchen? If not, don't despair. In this book and on her acclaimed national public television series, Daisy Cooks!, Daisy teaches you how to bring excitement back to the table with Latin-inspired food that your friends and family will love! Some of these recipes will remind you of meals you've enjoyed in restaurants. Some are great variations on dishes you already cook. Some are totally new. All of them will rock your world. Daisy's flavorful, satisfying interpretation of the best dishes from Puerto Rico, Mexico, Spain, Cuba, the Dominican Republic, and Central and South America all taste like the results of a day in the kitchen--but in reality, most take only thirty minutes to prepare. Here, you'll find the techniques that Daisy learned at the French Culinary Institute, along with her mother's and grandmother's time-tested tricks! This winning combination results in dishes that range from elegant Chicken Braised with Figs to soul-satisfying Cuban Black Bean Soup to to-die-for homemade Dulce de Leche. And then, of course, there are Daisy's Top Ten Hits--the recipes that, once you try them, are guaranteed to change the way you cook forever. In this first chapter, Daisy shows how simple flavor boosters, in addition to a few easy techniques, can make every meal mouthwateringly special. In Daisy's words, If you can season, cook, and dress pork chops and serve them alongside fragrant yellow rice in less than thirty minutes, I can't imagine why you'd eat anything from a cardboard carton! With ingredients that are found in almost every supermarket, equipment that every kitchen contains, and a little bit of adventurousness on your part, the recipes in this book will transform your mealtimes for good. So jump right in--it's time to get Daisy-fied!

Murder in an English Glade Jessica Ellicott,2021-10-26 American adventuress Beryl Helliwell and reserved Brit Edwina Davenport may seem an unlikely pair, but they have reinvented themselves in the lean years following World War I as private enquiry agents. Now they’ve been engaged to stage a faux investigation—until murder makes it all too real . . . When a member of the Walmsley Parva upper crust, Constance Maitland, seeks to hire Beryl and Edwina for a sham investigation into an alleged dalliance by her sister-in-law Ursula to quell potentially scandalous accusations by an unstable cousin, it is with mixed feelings that they agree to pose as guests at her home, Maitland Park. Edwina is uncomfortable with the ruse, but Beryl is eager to escape tension with their feisty housekeeper and hobnob with bohemians as the Maitland family hosts an artists colony. But when the painter suspected of having an affair with Ursula is found strangled beside his easel in a glade, the pretense turns into a genuine murder enquiry. With Maitland Park overrun by artists, every guest—not to mention family member—is now a suspect. Beryl and Edwina must determine if they are dealing with a crime of passion or if there are more complex motives in play, which may include the family cigarette business, cutthroat artistic competition, or secrets from the war years. In any case, the intrepid sleuths will not leave until they have smoked out the real killer. . . .

Murder Flies the Coop Jessica Ellicott,2019-09-24 Sequel to: Murder in an English village.

Murder Comes to Call Jessica Ellicott,2020-10-27 The lean years following World War I can lead to desperate acts—even in the quiet English village of Walmsley Parva. When a series of burglaries seems to culminate in murder, brash American Beryl Helliwell and proper Brit Edwina Davenport are eager to solve the case . . . World-renowned adventuress Beryl Helliwell cited for “reckless” motoring? Why, the very idea! Constable Gibbs just has it in for her. The solution? Charm the magistrate, of course. But days after Beryl's appearance before the bench, she and Edwina pay a visit to the magistrate only to find his home ransacked and the man himself lying dead at the bottom of a grand staircase. Given the state of the house, his death appears to be connected to a rash of robberies in the village. Declan O’Shea, the handsome helper Beryl hired to assist their aged gardener Simpkins, falls under suspicion after having had his own run-in with the magistrate—but mostly, Beryl believes, because he’s Irish. While unofficially looking into the magistrate's murder, the ladies are hired in their official capacity as private inquiry agents to find census reports that have gone missing. Is someone trying to hide something from the census takers—and could that theft have anything to do with the magistrate’s death? Beryl and Edwina are once again in fine form as they engage in a little reckless sleuthing to bring these assorted mysteries to a speedy conclusion. . . .

The Billionaire Murders Kevin Donovan,2019-10-29 NATIONAL BESTSELLER A top journalist crosses the yellow tape to investigate a shocking high-society crime. Billionaires, philanthropists, socialites . . . victims. Barry and Honey Sherman appeared to lead charmed lives. But the world was shocked in late 2017 when their bodies were found in a bizarre tableau in their elegant Toronto home. First described as murder-suicide — belts looped around their necks, they were found seated beside their basement swimming pool — police later ruled it a staged, targeted double murder. Nothing about the case made sense to friends of the founder of one of the world’s largest generic pharmaceutical firms and his wife, a powerhouse in Canada’s charity world. Together, their wealth has been estimated at well over \$4.7 billion. There was another side to the story. A strategic genius who built a large generic drug company — Apotex Inc. — Barry Sherman was a self-described workaholic, renowned risk-taker, and disruptor during his fifty-year career. Regarded as a generous friend by many, Sherman was also feared by others. He was criticized for stifling academic freedom and using the courts to win at all costs. Upset with building issues at his mansion, he sued and recouped millions from tradespeople. At the time of his death, Sherman had just won a decades-old

legal case involving four cousins who wanted 20 percent of his fortune. Toronto Star investigative journalist Kevin Donovan chronicles the unsettling story from the beginning, interviewing family members, friends, and colleagues, and sheds new light on the Shermans’ lives and the disturbing double murder. Deeply researched and authoritative, *The Billionaire Murders* is a compulsively readable tale of a strange and perplexing crime.

The Man Who Saw Tomorrow Lillian Hoddeson,Peter Garrett,2018-04-20 The first full-length biography of a brilliant, self-taught inventor whose innovations in information and energy technology continue to shape our world. The Economist called Stanford R. Ovshinsky (1922–2012) “the Edison of our age,” but this apt comparison doesn't capture the full range of his achievements. As an independent, self-educated inventor, Ovshinsky not only created many important devices but also made fundamental discoveries in materials science. This book offers the first full-length biography of a visionary whose energy and information innovations continue to fuel our post-industrial economy. In *The Man Who Saw Tomorrow*, Lillian Hoddeson and Peter Garrett tell the story of an unconventional genius with no formal education beyond high school who invented, among other things, the rechargeable nickel metal hydride batteries that have powered everything from portable electronics to hybrid cars, a system for mass-producing affordable thin-film solar panels, and rewritable CDs and DVDs. His most important discovery, the Ovshinsky effect, led to a paradigm shift in condensed matter physics and yielded phase-change memory, which is now enabling new advances in microelectronics. A son of the working class who began as a machinist and toolmaker, Ovshinsky focused his work on finding solutions to urgent social problems, and to pursue those goals, he founded Energy Conversion Devices, a unique research and development lab. At the end of his life, battered by personal and professional losses, Ovshinsky nevertheless kept working to combat global warming by making solar energy “cheaper than coal”—another of his many visions of a better tomorrow.
