The Cultural Cold War Frances Stonor Saunders,2013-11-05 During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In *The Cultural Cold War*, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called the most comprehensive account yet of the [CIA's] activities between 1947 and 1967 by the New York Times, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is a real contribution to popular understanding of the postwar period (*The Wall Street Journal*), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

**The Sociology of Rural Life** Samantha Hillyard,2007-07-15 Foot and mouth disease and BSE have both had a devastating impact on rural society. Alongside these devastating developments, the rise of the organic food movement has helped to revitalize an already politicized rural population. From fox-hunting to farming, the vigour with which rural activities and living are defended overturns received notions of a sleepy and complacent countryside. Over the years rural life has been defined, redefined and eventually fallen out of fashion as a sociological concept--in contrast to urban studies, which has flourished. This much-needed reappraisal calls for its reinterpretation in light of the profound changes affecting the countryside. First providing an overview of rural sociology, Hillyard goes on to offer contemporary case studies that clearly demonstrate the need for a reinvigorated rural sociology. Tackling a range of contentious issues--from fox-hunting to organic farming--this book offers a new model for rural sociology and reassesses its role in contemporary society.

*Trust in Numbers* Theodore M. Porter,2020-08-18 A foundational work on historical and social studies of quantification What accounts for the prestige of quantitative methods? The usual answer is that quantification is desirable in social investigation as a result of its successes in science. *Trust in Numbers* questions whether such success in the study of stars, molecules, or cells should be an attractive model for research on human societies, and examines why the natural sciences are highly quantitative in the first place. Theodore Porter argues that a better understanding of the attractions of quantification in business, government, and social research

brings a fresh perspective to its role in psychology, physics, and medicine. Quantitative rigor is not inherent in science but arises from political and social pressures, and objectivity derives its impetus from cultural contexts. In a new preface, the author sheds light on the current infatuation with quantitative methods, particularly at the intersection of science and bureaucracy.

**The Lord of the Rings. Illustrated** J. R. R. Tolkien,2024-03-25 The Lord of the Rings: Illustrated is a captivating edition of J.R.R. Tolkien's epic fantasy trilogy, featuring The Fellowship of the Ring, The Two Towers, and The Return of the King, accompanied by stunning illustrations that bring Middle-earth to life in vivid detail. In The Fellowship of the Ring, readers are introduced to the peaceful land of the Shire and its unassuming protagonist, Frodo Baggins, who embarks on a perilous quest to destroy the One Ring and save Middle-earth from the dark lord Sauron. Joined by a diverse fellowship of elves, dwarves, men, and hobbits, Frodo and his companions journey through enchanted forests, treacherous mountains, and haunted ruins, facing countless dangers and adversaries along the way. The Two Towers continues the saga as Frodo and his loyal friend Samwise Gamgee venture into the heart of enemy territory, while their companions confront their own trials and challenges in the war-torn lands of Rohan and Gondor. As the forces of darkness gather and the fate of Middle-earth hangs in the balance, alliances are forged, battles are fought, and sacrifices are made in the struggle against evil. Finally, in The Return of the King, the epic climax unfolds as the armies of Middle-earth converge for the ultimate showdown between good and evil. With the fate of the world hanging in the balance, Frodo and Sam must overcome their own inner demons and confront the dark power of the One Ring in the fiery depths of Mount Doom. Illustrated with breathtaking artwork that captures the grandeur and beauty of Tolkien's mythical world, The Lord of the Rings: Illustrated is a must-have edition for fans of epic fantasy and literary adventure. With its timeless tale of courage, friendship, and the triumph of good over evil, Tolkien's masterpiece continues to captivate readers of all ages and inspire generations of storytellers.

**Long Walk to Freedom** Nelson Mandela,2008-03-11 The book that inspired the major new motion picture Mandela: Long Walk to Freedom. Nelson Mandela is one of the great moral and political leaders of our time: an international hero whose lifelong dedication to the fight against racial oppression in South Africa won him the Nobel Peace Prize and the presidency of his country. Since his triumphant release in 1990 from more than a quarter-century of

imprisonment, Mandela has been at the center of the most compelling and inspiring political drama in the world. As president of the African National Congress and head of South Africa's antiapartheid movement, he was instrumental in moving the nation toward multiracial government and majority rule. He is revered everywhere as a vital force in the fight for human rights and racial equality. *LONG WALK TO FREEDOM* is his moving and exhilarating autobiography, destined to take its place among the finest memoirs of history's greatest figures. Here for the first time, Nelson Rolihlahla Mandela tells the extraordinary story of his life--an epic of struggle, setback, renewed hope, and ultimate triumph.

**A History of Modern Psychology in Context** Wade Pickren, Alexandra Rutherford, 2010-02-19 A fresh look at the history of psychology placed in its social, political, and cultural contexts *A History of Modern Psychology in Context* presents the history of modern psychology in the richness of its many contexts. The authors resist the traditional storylines of great achievements by eminent people, or schools of thought that rise and fall in the wake of scientific progress. Instead, psychology is portrayed as a network of scientific and professional practices embedded in specific temporal, social, political, and cultural contexts. The narrative is informed by three key concepts--indigenization, reflexivity, and social constructionism--and by the fascinating interplay between disciplinary Psychology and everyday psychology. The authors complicate the notion of who is at the center and who is at the periphery of the history of psychology by bringing in actors and events that are often overlooked in traditional accounts. They also highlight how the reflexive nature of Psychology--a science produced both by and about humans--accords history a prominent place in understanding the discipline and the theories it generates. Throughout the text, the authors show how Psychology and psychologists are embedded in cultures that indelibly shape how the discipline is defined and practiced, the kind of knowledge it creates, and how this knowledge is received. The text also moves beyond an exclusive focus on the development of North American and European psychologies to explore the development of psychologies in other indigenous contexts, especially from the mid-20th-century onward.

**Mary and Early Christian Women** Ally Kateusz, 2019-02-18 This book is open access under a CC BY-NC-ND license. This book reveals exciting early Christian evidence that Mary was remembered as a powerful role model for women leaders--women apostles, baptizers, and presiders at the ritual meal. Early Christian art portrays Mary and other women clergy serving as deacon, presbyter/priest, and bishop. In addition, the two oldest surviving artifacts to depict people at an altar table inside a real church depict women and men in a gender-parallel liturgy inside two of the most important churches in Christendom--Old Saint Peter's Basilica in Rome and the second Hagia Sophia in Constantinople. Dr. Kateusz's research brings to light centuries of censorship, both ancient and modern, and debunks the modern imagination that from the beginning only men were apostles and clergy.

*Oceans of Wine* David Hancock, 2009 Using voluminous archives of records pertaining to wine, many of them previously unexamined, Hancock offers a dramatic new perspective on the economic and social development of the Atlantic world by challenging traditional interpretations that have identified states and empires as the driving force behind trade. He

demonstrates convincingly just how decentralized the early modern commercial system was, as well as how self-organized, a system that emerged from the actions of market participants working across imperial lines. The networks they formed began as commercial structures, and expanded into social and political systems that were conduits not only for wine but also for ideas about reform, revolution, and independence. *Oceans of Wine* reframes American history as Atlantic history, placing colonial America and the early republic within an expansive, global context.--BOOK JACKET.

*Evaluation of a Site-Specific Risk Assessment for the Department of Homeland Security's Planned National Bio- and Agro-Defense Facility in Manhattan, Kansas* National Research Council, Division on Earth and Life Studies, Board on Agriculture and Natural Resources, Board on Life Sciences, Committee on the Evaluation of a Site-Specific Risk Assessment for the Department of Homeland Security's Planned National Bio- and Agro-Defense Facility in Manhattan, Kansas, 2011-01-02 Congress requested that the U.S. Department of Homeland Security (DHS) produce a site-specific biosafety and biosecurity risk assessment (SSRA) of the proposed National Bio- and Agro-Defense Facility (NBAF) in Manhattan, Kansas. The laboratory would study dangerous foreign animal diseases-including the highly contagious foot-and-mouth disease (FMD), which affects cattle, pigs, deer, and other cloven-hoofed animals-and diseases deadly to humans that can be transmitted between animals and people. Congress also asked the Research Council to review the validity and adequacy of the document. Until these studies are complete, Congress has withheld funds to build the NBAF. Upon review of the DHS assessment, the National Research Council found several major shortcomings. Based on the DHS risk assessment, there is nearly a 70 percent chance over the 50-year lifetime of the facility that a release of FMD could result in an infection outside the laboratory, impacting the economy by estimates of \$9 billion to \$50 billion. The present Research Council report says the risks and costs of a pathogen being accidentally released from the facility could be significantly higher. The committee found that the SSRA has many legitimate conclusions, but it was concerned that the assessment does not fully account for how a Biosafety-Level 3 Agriculture and Biosafety-Level 4 Pathogen facility would operate or how pathogens might be accidentally released. In particular, the SSRA does not include important operation risks and mitigation issues, such as the risk associated with the daily cleaning of large animal rooms. It also fails to address risks that would likely increase the chances of an FMD leak or of the disease's spread after a leak, including the NBAF's close proximity to the Kansas State University College of Veterinary Medicine clinics and KSU football stadium or personnel moving among KSU facilities.
