**Major Varieties and Constant Plate Flaws of Russian Imperial Stamps (1857-1917)** Alexander Feht, 2017-08 Until now, detailed information about the stamps of Imperial Russia could only be found by consulting multiple sources that are often obsolete, difficult to find, lacking in detail, inconsistent in their listings, and overwhelmingly published in Russian. This makes it hard for collectors--especially those not fluent in Russian--to identify and value varieties of these stamps. This is the first comprehensive, illustrated, and English language summary of available information about all stamps issued in the Russian Empire from 1857 to 1917, their varieties, color shades, perforations, watermarks, and constant plate flaws. Each individual stamp is listed separately, followed by a systematic description, including \* a color illustration, \* the year of issue, \* paper, sheet format, and watermark information, \* perforation and printing characteristics, \* designer and engraver names, \* original sources of images (where applicable), \* print runs, \* color shades, \* major varieties and known constant plate flaws, \* specimens, \* multiples. Approximate retail values given in U.S. dollars or as multipliers of the catalog value of the basic stamp. Varieties are carefully described and, where possible, illustrated. Several tables and graphic aids are provided to allow stamps having multiple subtle differences to be quickly identified and valued. After

consulting this catalog, you will finally really know what stamps are in your collection of pre-1917 Russian issues.

**100 Greatest American Stamps** Janet Klug,Donald J. Sundman,2007

### **A Brief Survey of Postage Stamps by AIGA Medalists**

Michael Russem,Kat Ran Press,Puritan Capital (Printing firm),2013  
Since 1920 the American Institute of Graphic Arts has been awarding its AIGA Medals 'to individuals who have set standards of excellence over a lifetime of work or have made individual contributions to innovation within the practice of design.' To date, 155 designers have been awarded Medals; only a handful have designed government-issued postage stamps. This is their story. Postage Stamps by AIGA Medalists contains seventy-six full-color illustrations, reproducing every known stamp designed by an AIGA Medalist (with the exception of Bradbury Thompson for whom only a handful of his 100+ stamps are shown). Also shown are related items by Bruce Rogers, Jan Tschichold, and Saul Steinberg. A brief essay by Michael Russem explains why these stamps are relevant to graphic designers and how they fit into the history of (mostly) American postage stamp design in the twentieth century.
