**Fan Fiction and Fan Communities in the Age of the Internet** Kristina

Busse,2014-09-17 Fans have been responding to literary works since the days of Homer's *Odyssey* and Euripedes' *Medea*. More recently, a number of science fiction, fantasy, media, and game works have found devoted fan followings. The advent of the Internet has brought these groups from relatively limited, face-to-face enterprises to easily accessible global communities, within which fan texts proliferate and are widely read and even more widely commented upon. New interactions between readers and writers of fan texts are possible in these new virtual communities. From *Star Trek* to *Harry Potter*, the essays in this volume explore the world of fan fiction--its purposes, how it is created, how the fan experiences it. Grouped by subject matter, essays cover topics such as genre intersection, sexual relationships between characters, character construction through narrative, and the role of the beta reader in online communities. The work also discusses the terminology used by creators of fan artifacts and comments on the effects of technological advancements on fan communities. Instructors considering this book for use in a course may request an examination copy [here](#).

*Sticks and Stones* Jerome Neu,2007-12-07 Sticks and stones may break my bones but words will never hurt me. This schoolyard rhyme projects an invulnerability to verbal insults that sounds good but rings false. Indeed, the need for such a verse belies its own claims. For most of us, feeling insulted is a distressing-and distressingly common-experience. In *Sticks and Stones*, philosopher Jerome Neu probes the nature, purpose, and effects of insults, exploring how and why they humiliate, embarrass, infuriate, and wound us so deeply. What kind of injury is an insult? Is it determined by the insulter or the insulted? What does it reveal about the character of both parties as well as the character of society and its conventions? What role does insult play in social and legal life? When is telling the truth an insult? Neu draws upon a wealth of examples and anecdotes-as well as a range of views from Aristotle and Oliver Wendell Holmes to Oscar Wilde, John Wayne, Katherine Hepburn, and many others-to provide surprising answers to these questions. He shows that what we find insulting can reveal much about our ideas of character, honor, gender, the nature of speech acts, and social and legal conventions. He considers how insults, both intentional and unintentional, make themselves felt-in play, Freudian slips, insult humor, rituals, blasphemy, libel, slander, and hate speech. And he investigates the insult's extraordinary power, why it can so quickly destabilize our sense of self and threaten our moral identity, the very center of our self-respect and self-esteem. Entertaining, humorous, and deeply insightful, *Sticks and Stones* unpacks the fascinating dynamics of a phenomenon more often painfully experienced than clearly understood.

*The Hockey Stick and the Climate Wars* Michael E. Mann,2012 A member of the Inter-governmental Panel on Climate Change examines the fossil-fuel industry's public relations campaign to discredit the science of climate change and deny the reality of global warming.

*Seeking Understanding* Calvin College, 2001-09-19 The Stob Lectures, sponsored annually by Calvin College and Calvin Theological Seminary, have drawn some of today's most celebrated Christian thinkers in the fields of ethics, apologetics, and philosophical theology. This volume collects under one cover each of the Stob Lectures delivered from 1986 to 1998. Comprised of thirteen learned, relevant, and well-crafted addresses, *Seeking Understanding* presents a diverse range of significant topics, illumined in engaging ways by the scholars who know them best. Lewis B. Smedes's inaugural lecture examines the subject of commitment. James M. Gustafson follows with a look at moral discourse, while Peter Kreeft speaks on immortality. Alvin Plantinga explores the nature of Christian scholarship, and Marty E. Marty surveys the denominational landscape. Allen D. Verhey probes key issues in medical ethics, while Nicholas P. Wolterstorff compares neo-Calvinism and Yale theology. Other lectures feature Dewey J. Hoitenga Jr. on happiness, John Feikens on conflict, George I. Mavrodes on philosophy, Arthur F. Holmes on Christian education, and J. Harold Ellens on dysfunction. Eleanore Stump rounds out the volume with an insightful discussion of the problem of evil. Illustrative of the same depth of thinking, scholarly passion, and clarity of expression that characterized the work of the man whom these lectures honor, Henry J. Stob, *Seeking Understanding* is both a valuable omnibus and a superb introduction to a rich and influential tradition of Christian scholarship.

**Guilty Creatures** Martin Edwards, 2022-06-07 An unusually rewarding anthology whose most dangerous species remain Homo sapiens.— Kirkus Reviews Feline friends, canine companions and aviary associates are often the truest reflections of their owners and have played a crucial role in classic crime fiction—be they detectives, or delinquents. Martin Edwards reaches into the British Library of Crime Classics to collect mysteries featuring an animal cohort. Guilty Creatures celebrates an often-overlooked species of classic crime fiction. Since the dawn of the crime fiction genre, animals of all kinds have played a memorable part in countless mysteries, and in a variety of roles: the perpetrator, the key witness, the sleuth's trusted companion. This collection of fourteen stories corrals plots centered around cats, dogs, and insects alongside more exotic incidents involving gorillas, parakeets, and serpents—complete with a customary shoal of red herrings. The collection includes an introduction on animals in detective fiction by Martin Edwards. From the first detective story, Edgar Allan Poe's locked room puzzle 'The Murders in the Rue Morgue' onwards, animals, birds, and insects have played a memorable part in countless mysteries, and in a wide variety of ways. Count Fosco, the brilliantly characterized villain in Wilkie Collins's *The Woman in White* was surrounded by a cockatoo, two canary-birds and a whole family of

white mice, while the hound of the Baskervilles famously terrorised Dartmoor in Arthur Conan Doyle's superb Sherlock Holmes novel. Since then, many crime writers have written about members of the animal kingdom.
