**Sorted Books** Nina Katchadourian, 2013-02-08 A witty and thought-provoking collection of visual poems constructed from stacks of books. Delighting in the look and feel of books, conceptual artist Nina Katchadourian's playful photographic series proves that books' covers—or more specifically, their spines—can speak volumes. Over the past two decades, Katchadourian has perused libraries across the globe, selecting, stacking, and photographing groupings of two, three, four, or five books so that their titles can be read as sentences, creating whimsical narratives from the text found there. Thought-provoking, clever, and at times laugh-out-loud funny (one cluster of titles from the Akron Museum of Art's research library consists of: Primitive Art /Just Imagine/Picasso/Raised by Wolves), *Sorted Books* is an enthralling collection of visual poems full of wry wit and bookish smarts. Praise for *Sorted Books* "Katchadourian's project . . . takes on a weight beyond its initial novelty. It's a love letter to books, book collecting and the act of reading." —San Francisco Chronicle "As a longtime fan of [Katchadourian's] long-running *Sorted Books* project I'm thrilled for the release of *Sorted Books*—a collection spanning nearly two decades of her witty and wise minimalist mediations on life by way of ingeniously arranged book spines. . . . In an era drowned in periodic death tolls for the future of the physical book, her project stands as a celebration of the spirit embedded in the magnificent materiality of the printed page." —Brain Pickings "Katchadourian's stacks possess an understated sophistication; they are true to the intimate nature of books and yet reveal their dramatic features and unexpected potential." —Publishers Weekly

**Twisted Tales And Sorted Stories** Timothy Hanratty, 2018-08-31 This is an enjoyable book filled with short stories that are imaginative, fictional tales of life, death and love as told through the mind of Timothy Hanratty. The stories are for all ages, young and aged alike. There is something for everyone in these timeless tales and stories.

**Sorted** Jackson Bird, 2020-08-04 An unflinching and endearing memoir from LGBTQ+ advocate Jackson Bird about how, through a childhood of gender mishaps and an awkward adolescence, he finally sorted things out and came out as a transgender man in his mid-twenties. When Jackson Bird was twenty-five, he came out as a transgender to his friends, family, and anyone in the world with an internet connection. Assigned female at birth and raised as a girl, he often wondered if he should have been born a boy. Jackson didn't share this thought with anyone because he didn't think he could share it with anyone. Growing up in Texas in the 1990s, he had no transgender role models. He barely remembers meeting anyone who was openly gay, let alone being taught that transgender people existed outside of punchlines. In this "soulful and heartfelt coming-of-age story" (Jamia Wilson, director and publisher of the Feminist Press), Jackson chronicles the ups and downs of growing up gender confused. Illuminated by journal entries spanning childhood to adolescence to today, he candidly recalls the challenges and loneliness he endured as he came to terms with both his gender and his bisexual identity. With warmth and wit, Jackson also recounts how he navigated the many obstacles and quirks of his transition—like figuring out how to have a chest binder delivered to his NYU dorm room and having an emotional breakdown at a Harry Potter fan convention. From his

first shot of testosterone to his eventual top surgery, Jackson lets you in on every part of his journey—taking the time to explain trans terminology and little-known facts about gender and identity along the way. “A compassionate, tender-hearted, and accessible book for anyone who might need a hand to hold as they walk through their own transition or the transition of a loved one” (Austin Chant, author of *Peter Darling*), *Sorted* demonstrates the power and beauty in being yourself, even when you’re not sure who “yourself” is.

**Sorting Things Out** Geoffrey C. Bowker, Susan Leigh Star, 2000-08-25 A revealing and surprising look at how classification systems can shape both worldviews and social interactions. What do a seventeenth-century mortality table (whose causes of death include fainted in a bath, frightened, and itch); the identification of South Africans during apartheid as European, Asian, colored, or black; and the separation of machine- from hand-washables have in common? All are examples of classification—the scaffolding of information infrastructures. In *Sorting Things Out*, Geoffrey C. Bowker and Susan Leigh Star explore the role of categories and standards in shaping the modern world. In a clear and lively style, they investigate a variety of classification systems, including the International Classification of Diseases, the Nursing Interventions Classification, race classification under apartheid in South Africa, and the classification of viruses and of tuberculosis. The authors emphasize the role of invisibility in the process by which classification orders human interaction. They examine how categories are made and kept invisible, and how people can change this invisibility when necessary. They also explore systems of classification as part of the built information environment. Much as an urban historian would review highway permits and zoning decisions to tell a city's story, the authors review archives of classification design to understand how decisions have been made. *Sorting Things Out* has a moral agenda, for each standard and category valorizes some point of view and silences another. Standards and classifications produce advantage or suffering. Jobs are made and lost; some regions benefit at the expense of others. How these choices are made and how we think about that process are at the moral and political core of this work. The book is an important empirical source for understanding the building of information infrastructures.

The Gentle Order of Girls and Boys Dao Strom, 2019-11-12 The book is informed by the Vietnamese immigrations of the nineteen-seventies but is filled with social observation of contemporary middle-class culture and indie sensibility . . . Quietly beautiful, Strom's stories are hip without being ironic. –The New Yorker When *The Gentle Order of Girls and Boys* was first published in 2006, it was groundbreaking in its depiction of contemporary young Vietnamese women living in the United States, centering their ordinary lives as mothers, lovers, friends, and daughters against the backdrop of immigration and assimilation. Available now for the first time in paperback and featuring an introduction by Isabelle Thuy Pelaud and a new preface by the author, *The Gentle Order of Girls and Boys* is a beautifully written, psychologically astute foray into the rite of female passage.

**Agile Processes in Software Engineering and Extreme Programming** Alberto Sillitti, Xiaofeng Wang, Angela Martin, Elizabeth Whitworth, 2010-06-03 Interest in agile development continues to grow: the number of practitioners adopting such methodologies is increasing as well as the number of researchers investigating the effectiveness of the different practices and proposing improvements. The XP conference series has actively participated in these processes and supported the evolution of Agile, promoting the conference as a place where practitioners and researchers meet to exchange ideas, experiences, and build connections. XP 2010 continued in the tradition of this conference series and provided an interesting and varied program. As usual, we had a number of different kinds of activities in the conference program including: research papers, experience reports, tutorials, workshops, panels, lightning talks, and posters. These proceedings contain full - search papers, short research papers, and experience reports. Moreover, we have also included in these proceedings the abstracts of the posters, the position papers of the PhD symposium, and the abstract of the panel. This year we had two different program

committees for evaluating research papers and experience reports. Each committee included experts in the specific area. This approach allowed us to better evaluate the quality of the papers and provide better suggestions to the authors to improve the quality of their contributions.

**You Are an Artist** Sarah Urist Green,2020-04-14 “There are more than 50 creative prompts for the artist (or artist at heart) to explore. Take the title of this book as affirmation, and get started.” –Fast Company More than 50 assignments, ideas, and prompts to expand your world and help you make outstanding new things to put into it Curator Sarah Urist Green left her office in the basement of an art museum to travel and visit a diverse range of artists, asking them to share prompts that relate to their own ways of working. The result is You Are an Artist, a journey of creation through which you'll invent imaginary friends, sort books, declare a cause, construct a landscape, find your band, and become someone else (or at least try). Your challenge is to filter these assignments through the lens of your own experience and make art that reflects the world as you see it. You don't have to know how to draw well, stretch a canvas, or mix a paint color that perfectly matches that of a mountain stream. This book is for anyone who wants to make art, regardless of experience level. The only materials you'll need are what you already have on hand or can source for free. Full of insights, techniques, and inspiration from art history, this book opens up the processes and practices of artists and proves that you, too, have what it takes to call yourself one. You Are an Artist brings together more than 50 assignments gathered from some of the most innovative creators working today, including Sonya Clark, Michelle Grabner, The Guerrilla Girls, Fritz Haeg, Pablo Helguera, Nina Katchadourian, Toyin Ojih Odutola, J. Morgan Puett, Dread Scott, Alec Soth, Gillian Wearing, and many others.

**Complete Critical Assembly** David Langford, 2002-10-01 This new collection of essays, commissioned from a range of scholars across the world, takes as its theme the reception of Rome's greatest poet in a time of profound cultural change. Amid the rise of Christianity, the changing status of the city of Rome, and the emergence of new governing classes, Vergil remained a bedrock of Roman education and identity. This volume considers the different ways in which Vergil was read, understood and appropriated; by poets, commentators, Church fathers, orators and historians. The introduction outlines the cultural and historical contexts. Twelve chapters dedicated to individual writers or genres, and the contributors make use of a wide range of approaches from contemporary reception theory. An epilogue concludes the volume.
