The Eagle and the Dragon Chris Duffin,2019-07-09 The world may know Chris Duffin as 'The Mad Scientist of Strength,' but you wouldn't have ever guessed that if you saw the scrawny kid skinning rattlesnakes and chasing dragonflies in the early '80s. Full of Heart J.R. Martinez,2012-10-30 An inspirational journey from tragedy to triumph In 2003, nineteen-year-old Private J.R. Martinez was on a routine patrol when the Humvee he was driving hit an antitank mine in Iraq, resulting in severe injuries and burns on his face and more than one-third of his body. Out of that tragedy came an improbable journey of inspiration, motivation, and dreams come true. In *Full of Heart*, Martinez shares his story in intimate detail, from his upbringing in the American South and his time in the Army to his recovery and the indomitable spirit that has made him an inspiration to countless fans. J.R. Martinez always had a strong spirit. Raised in Bossier City, Louisiana, and then Hope, Arkansas, by a single mother from El Salvador, he was well known at school for his good looks and his smart mouth. At seventeen, showing an early determination and drive that would become one of his trademark qualities, J.R. convinced his mom to move to Dalton, Georgia, where he believed he would have a better chance of being recruited to play college football. His positive attitude earned him a spot on a competitive high school football squad, but when his college dreams collapsed, he turned to the U.S. Army. A few months later, he found himself serving in Iraq. When J.R.'s humvee hit a mine and exploded—just one month into his deployment—he was immediately evacuated to a San Antonio medical center, where he spent the next thirty-four months in grueling recovery. Seeing his disfigured face for the first time after the accident threw him into a crushing period of confusion and anger. His spirits were low, until he was asked to speak to another young burn victim. J.R. realized how valuable and gratifying it was to share his experiences with other patients and listen to theirs. He'd found a calling. His fellow soldiers, along with the local and then national media, soon latched onto J.R.'s spirit and strength. His resilience, optimism, and charm were also noted by Hollywood and scored him roles on *All My Children* and *Dancing with the Stars*, where he was the season thirteen champion. Today, J.R. tours the country sharing his story and his lessons for overcoming challenges and embracing hope, lessons that abound in this book. *Full of Heart* is an unforgettable story of a man who never gave up on his dreams. After being injured in Iraq, J.R. Martinez became a motivational speaker, actor, and winner of season thirteen of *Dancing with the Stars*. Martinez lives in Los Angeles

When You Don't Like Your Story Sharon Jaynes,2021-01-26 Bestselling author, cofounder of *Girlfriends in God*, and writer for *Proverbs 31 Ministries* Sharon Jaynes reveals the secret to living a better story: understanding that the worst parts of our past are the very things God uses most. Many people don't like the story God is writing in their lives. The mistakes, failures, tragedies, and circumstances outside of our control linger in our minds and hold us back. How do we come to grips with the pieces of our stories that we wish weren't there? How do we silence the pain of what has been done to us and the shame of what we've allowed to be done through us? In *When You Don't Like Your Story*, Bible teacher Sharon Jaynes shows us how God untangles our most painful emotions with the fingers of grace, putting his redemption on display. In the hardest parts of our narratives, we get to see God's greatest work--and this changes the ending of our stories. As we overcome shame, offer forgiveness, and use our stories to help others, we find freedom from the past

and learn to live in the restoration of the present.

The Bull-Jean Stories Sharon Bridgforth,1998 Using traditional storytelling and nontraditional verse to chronicle the course of love returning in the lifetimes of one woman-loving-woman named bull-dog-jean, the bull-jean stories give cultural documentation and social commentary on African-American herstory and survival. The Strength of a Story Carmen Mariano Ed. D.,2022-01-19 This book is about the world's greatest gifts. Those gifts never stop giving! They give meaning to our words, muscle to our message and magic to our memories. What are these gifts? I thought you'd never ask; and my answer is stories! We learn through stories, we laugh through stories, and we live through stories. Stories give our words wings and our speeches strength. They help us find faith and form friends. Whether an audience is young or old, tough or tender, friendly or frigid, the eyes and ears of that audience are earned best by stories. Stories are the part of life that sticks to our ribs. They are the spaghetti and meatballs of our Sunday night supper! Stories can help us relive life, revive life, review life, and renew life. They can even help us expand life and explain life! What more does a story do? This book will tell you. This book will show you!

Soulful Simplicity Courtney Carver,2017-12-26 Courtney Carver shows us the power of simplicity to improve our health, build more meaningful relationships, and relieve stress in our professional and personal lives. We are often on a quest for more—we give in to pressure every day to work more, own more, and do more. For Carver, this constant striving had to come to a stop when she was diagnosed with Multiple Sclerosis (MS). Stress was like gasoline on the fire of symptoms, and it became clear that she needed to root out the physical and psychological clutter that were the source of her debt and discontent. In this book, she shows us how to pursue practical minimalism so we can create more with less—more space, more time, and even more love. Carver invites us to look at the big picture, discover what's most important to us, and reclaim lightness and ease by getting rid of all the excess things.

Stories of Strength Orson Scott Card,Jenna Glatzer,Wil Wheaton,2005-11-01 This anthology shares stories about beating the odds. More than 100 writers contributed these essays, fiction and poetry to raise money for disaster relief efforts in the region hard hit by Hurricane Katrina. The authors speak of living through their own trials from dealing with slightly intimidating people, to other natural disasters, to the death of a child. At times tear-jerking, at times humorous, this book is guaranteed to inspire and remind readers that the human spirit knows no boundaries.

The Strength Switch Lea Waters,2017-05-29 This game-changing book reveals the extraordinary results of focusing on our children's strengths rather than always trying to correct their weaknesses. By showing us how to throw the 'strength switch', Dr Lea Waters demonstrates how we can help our children build resilience, optimism and achievement. As a strength-based scientist for more than 20 years, Waters has seen how this approach enhances self-esteem and energy in both children and teenagers - and how parents find it an exciting and rewarding way to raise them. With many suggestions for specific techniques to interact with your children, Waters demonstrates how to discover their strengths and talents, use positive emotions as a resource, build strong brains, and even how to deal with problem behaviour and talk about difficult situations and emotions. The Strength Switch will show parents that a small shift can yield enormous results.

Flex Ability Flex Wheeler,2003 At first glance, you might think that a sculptor created him--no way could a human body look that perfect. Champion bodybuilder Flex Wheeler looks like a comic-book superhero come to life. Even Arnold Schwarzenegger has called him one of the best bodybuilders of all time. Flex began his ascent to the top of the professional bodybuilding world, winning the Ironman Pro and the Arnold Classic competitions several times. By sheer willpower, this remarkable man pushed past this obstacle and walked again. Flex Ability is a story of overcoming odds so awesome that most people would have just given up. In

these pages, Flex also takes you around the globe and into the winner's circle as he describes his twodecade journey through the tough sport of bodybuidling. Young Warriors Tamora Pierce, Josepha Sherman, 2006 What makes a warrior? This gutsy collection of original short stories offers a variety of answers to the question with thoughtfulness, heart and the occasional wink. The characters in these stories range from archetypal 'take no prisoners' heroes to those who abhor violence. There are even a few who are utterly clueless at the outset and must discover what they are made of. The settings are as diverse as the warriors themselves: purely fantasy realms are represented, as well as medieval England, a mythical African plain, ancient Greece and Egypt, colonial India and folktale Russia, to name a few. Regardless of protagonist or locale, these stories will thrill and entertain readers. But most importantly, they will make a reader ask the warrior within: what would I fight for? Compiled by best-selling author Tamora Pierce and folklorist/author Josepha Sherman, 'Young Warriors' includes stories by some of today's most acclaimed and beloved fantasy and science-fiction authors for both adults and young adults.

Industrial-Strength Denial Barbara Freese, 2021-05-04 How corporate denial harms our world and continues to threaten our future. Corporations faced with proof that they are hurting people or the planet have a long history of denying evidence, blaming victims, complaining of witch hunts, attacking their critics' motives, and otherwise rationalizing their harmful activities. Denial campaigns have let corporations continue dangerous practices that cause widespread suffering, death, and environmental destruction. And, by undermining social trust in science and government, corporate denial has made it harder for our democracy to function. Barbara Freese, an environmental attorney, confronted corporate denial years ago when cross-examining coal industry witnesses who were disputing the science of climate change. She set out to discover how far from reality corporate denial had led society in the past and what damage it had done. Her resulting, deeply-researched book is an epic tour through eight campaigns of denial waged by industries defending the slave trade, radium consumption, unsafe cars, leaded gasoline, ozone-destroying chemicals, tobacco, the investment products that caused the financial crisis, and the fossil fuels destabilizing our climate. Some of the denials are appalling (slave ships are festive). Some are absurd (nicotine is not addictive). Some are dangerously comforting (natural systems prevent ozone

depletion). Together they reveal much about the group dynamics of delusion and deception. Industrial-Strength Denial delves into the larger social dramas surrounding these denials, including how people outside the industries fought back using evidence and the tools of democracy. It also explores what it is about the corporation itself that reliably promotes such denial, drawing on psychological research into how cognition and morality are altered by tribalism, power, conflict, anonymity, social norms, market ideology, and of course, money. Industrial-Strength Denial warns that the corporate form gives people tremendous power to inadvertently cause harm while making it especially hard for them to recognize and feel responsible for that harm.
