The Strip Stefan Al, 2017-03-03 The transformations of the Strip—from the fake Wild West to neon signs twenty stories high to “starchitecture”—and how they mirror America itself. The Las Vegas Strip has impersonated the Wild West, with saloon doors and wagon wheels; it has decked itself out in midcentury modern sleekness. It has illuminated itself with twenty-story-high neon signs, then junked them. After that came Disney-like theme parks featuring castles and pirates, followed by replicas of Venetian canals, New York skyscrapers, and the Eiffel Tower. (It might be noted that forty-two million people visited Las Vegas in 2015—ten million more than visited the real Paris.) More recently, the Strip decided to get classy, with casinos designed by famous architects and zillion-dollar collections of art. Las Vegas became the “implosion capital of the world” as developers, driven by competition, got rid of the old to make way for the new—offering a non-metaphorical definition of “creative destruction.” In *The Strip*, Stefan Al examines the many transformations of the Las Vegas Strip, arguing that they mirror transformations in America itself. The Strip is not, as popularly supposed, a display of architectural freaks but representative of architectural trends and a record of social, cultural, and economic change. Al tells two parallel stories. He describes the feverish competition of Las Vegas developers to build the snazziest, most tourist-grabbing casinos and resorts—with a cast of characters including the mobster Bugsy Siegel, the eccentric billionaire Howard Hughes, and the would-be political kingmaker Sheldon Adelson. And he views the Strip in a larger social context, showing that it has not only reflected trends but also magnified them and sometimes even initiated them. Generously illustrated with stunning color images

throughout, *The Strip* traces the many metamorphoses of a city that offers a vivid projection of the American dream.

Strip Club Kim Price-Glynn, 2010-09-14 In *Strip Club*, Kim Price-Glynn takes us behind the scenes at a rundown club where women strip out of economic need, a place where strippers' stories are not glamorous or liberating, but emotionally demanding and physically exhausting. *Strip Club* reveals the intimate working lives of not just the women up on stage, but also the patrons and other workers who make the place run: the owner-manager, bartenders, deejays, doormen, bouncers, housemoms, and cocktail waitresses. Price-Glynn spent fourteen months at The Lion's Den working as a cocktail waitress, and her uncommonly deep access reveals a conflict-ridden workplace, similar to any other workplace, one where gender inequalities are reproduced through the everyday interactions of customers and workers. Taking a novel approach to this controversial and often misunderstood industry, Price-Glynn draws a fascinating portrait of life and work inside the strip club.

Montezuma Strip Alan Dean Foster, 2023-10-10 Detective Angel Cardenas polices the crime-ridden US-Mexico borderlands in five futuristic stories from the New York Times--bestselling author. A century in the future, greed flourishes on the Montezuma Strip, a string of high-tech that follows the old and frayed USA-Mexico border stretching from the

Pacific to the Gulf of Mexico. First World technology meets Third World cheap labor, while both the rich and the poor fall into the widening chasm between them. In five stories set among the chaos, Tex-Mex cop Angel Cardenas puts his intuit ability to good use as a living lie-detector. After being blinded on the job and then having his sight restored with an optic nerve transplant, Cardenas uses his heightened intuition to get to the truth, whether it's figuring out how two genius software designers were killed—with no visible causes of death—in "Sanctuary" or stopping a deadly heavenly vision (that could be a military-ware tactile projection) in "Our Lady of the Machine." In three more stories—"Heartwired," "Gagrito," and "Hellado"—Cardenas learns that in a land where everything and everyone can be bought and sold, even justice has a price. Praise for Alan Dean Foster "A master storyteller." —SF Site "One of the most consistently and fertile writers of science fiction and fantasy." —The Times (London)

Strip Cropping Lyman Carrier, Walter V. Kell, 1935 Strip cropping as commonly applied in erosion control or soil conservation practices consists of seeding the regular farm crops, adapted to the locality, in long bands or strips laid out as nearly on the contour as will admit of uniform width, and so arranged that adjacent strips will not be plowed at the same time. If these strips are used in connection with terraces, the cultivated row crops will usually be uniform in width with the irregular areas seeded to non-cultivated crops.
