Sophocles

Ajax Sophocles,1876

Ajax Sophocles,2012-01-18 At the onset of the play, Ajax is enraged because Achilles' armor was awarded to Odysseus, rather than to him. He vows to kill the Greek leaders who disgraced him. Before he can enact his revenge, though, he is tricked by the goddess Athena into believing that the sheep and cattle that were taken by the Achaeans as spoil are the Greek leaders. He slaughters some of them, and takes the others back to his home to torture, including a ram which he believes to be his main rival, Odysseus. Ajax realizes what he has done and is in agony over his actions. Ajax's pain is not because of his wish to kill Agamemnon and Odysseus. He is extremely upset that Athena fooled him and is sure that the other Greek warriors are laughing at him. Ajax contemplates ending his life due to his shame. His wife and captive, Tecmessa, pleads for him not to leave her and her child unprotected. Ajax then gives his son, Eurysaces, his shield. Ajax leaves the house saying that he is going out to purify himself and bury the sword given to him by Hector. Teucer, Ajax's brother, arrives in the Greek camp to taunting from his fellow soldiers. Calchas warns that Ajax should not be allowed to leave his tent until the end of the day or he will die. Teucer sends a messenger to Ajax's campsite with word of Calchas' prophesy. Tecmessa and soldiers try to track him down, but are too late. Ajax had indeed buried the sword, but has left the blade sticking out of the ground and has impaled himself upon it. Sophocles lets us hear the speech Ajax gives immediately before his suicide (which, unlike in most Greek tragedies, where action and death are reported, is called for to take place onstage), in which he calls for vengeance against the sons of Atreus (Menelaus and Agamemnon) and the whole Greek army. Ajax also wishes for the first to find his body to be Teucer, so that he is not found by an enemy and his body left without a proper burial. Tecmessa is the first to discover Ajax impaled on his sword, with Teucer arriving shortly after. He orders that Eurysaces be brought to him so that he will be safe from Ajax's foes. Menelaus appears on the scene and orders the body not to be moved.

The Ajax Sophocles,1950

Ajax Sophocles,Robert Auletta,2014-02-28 A modern adaptation of AJAX set at the Pentagon with corrupt, power-mad generals who censor information and revel in blood. Sophocles's AJAX has been adapted by Robert Auletta into a contemporary American play set in front of the Pentagon after the triumphant conclusion of a major Latin American war from which the United States has emerged victorious. This is a world where shame is worse than death. Ajax dies like a samurai on his sword and the Greek generals gather to dishonor his body. Odysseus talks them out of it. The man was a hero after all. -Dan Sullivan, Los Angeles Times

Sustainable Downstream Processing of Microalgae for Industrial Application Kalyan Gayen,Tridib Kumar Bhowmick,Sunil Kumar Maity,2019-09-05 Microalgae can be future resource for industrial biotechnology In current energy crisis era, microalgae are under tremendous research focus for the production of biodiesel due to their high photosynthetic efficiency, growth rate and high lipid content compared to territorial plants. However, the large-scale production of algal biomass and downstream processing of harvested algae towards bio-fuels are facing several challenges from economic viability perspective. Apart from bio-fuels, the microalgae synthesize number of bio-molecules such as pigments (e.g., chlorophyll, carotenoid), protein (e.g., lectin, phycobiliprotein), and carbohydrates (e.g., agar, carrageenan, alginate, fucodian) which are available in the various forms of microalgal products. Therefore, developing a strategy for large-scale production and use of algal biomass for the co-production of these value-added macromolecules is thus imperative for the improvement of the economics of algal biorefinery. In the above context, this book covers three major areas (i) commercial-scale production of bio-molecules from microalgae, (ii) sustainable approach for industrial-scale operation, and (iii) optimization of downstream processes. Each of these sections is composed of several chapters written by the renowned academicians/industry experts. Furthermore, in this book, a significant weightage is given to the industry experts (around 50%) to enrich the industrial perspectives. We hope that amalgamate of fundamental knowledge from academicians and applied research information from industry experts will be useful for forthcoming implementation of a sustainable integrated microalgal biorefinery. This book highlights following. Explores biomolecules from microalgae and their applications Discusses microalgae cultivations and harvesting Examines downstream processing of biomolecules Explores sustainable integrated approaches for industrial scale operations Examines purification techniques specific for microalgal proteins, Omega 3 fatty Acids, carbohydrates, and pigments

Ending Corruption? N Vittal, 2012-07-01 The 2010 mega-scams created a crisis of trust in governance and the leadership. Seeking solutions, N. Vittal analyses the record of the institutions involved and traces the roots of the growing rot to the decline of accountability in public life, the lack overall of transparency in governance, besides general greed and decline in integrity. As a prominent insider in government for over four decades, he believes that greater transparency and use of technology and ensuring there is no alternative can reform our system. The curb on use of money power in state elections and the 2010 landmark judgement in the case of P.J. Thomas's appointment as Central Vigilance Commissioner are such steps. Through greater application of Right to Information, strengthening of watchdog bodies like the judiciary or the Central Election Commission, and choosing people of integrity and commitment to man them, besides an alert civil society and media, Vittal is optimistic of achieving a clean India.
