The Saffron Surge Untold Story of RSS Leadership Arun Anand,2020-01-01 Right since its inception; there has been a tradition in the RSS of not highlighting the work of an individual; so the lives and work done by the Sarsanghchalaks have not been discussed publicly much. The general perception is that the RSS chief (Sarsanghchalak) is one of the most powerful persons in the country as he holds sway over millions of swayamsevaks (volunteers) and dozens of organisations run by these swayamsevaks including the Bharatiya Janata Party which rules at the Centre as well as in several states. But what is the truth? What role Sarsanghchalaks have played in shaping the RSS? This well researched book takes one through the lives of the five Sarsanghchalaks who had steered RSS since its inception through one of its most tumultuous years. It tells a hitherto untold story about not only the lives of the Sarsanghchalaks but also the journey of the RSS itself.

The Vernacularisation of Democracy Lucia Michelutti,2020-11-29 The book is an ethnographic exploration of how 'democracy' takes social and cultural roots in India and in the process shapes the nature of popular politics. It centres on a historically marginalised caste who in recent years has become one of the most assertive and politically powerful communities in North India: the Yadavs. The Vernacularisation of Democracy is a vivid account of how Indian popular democracy works on the ground. Challenging conventional theories of democratisation the book shows how the political upsurge of 'the lower orders' is situated within a wider process of the vernacularisation of democratic politics, referring to the ways in which values and practices of democracy become embedded in particular cultural and social practices, and in the process become entrenched in the consciousness of ordinary people. During the 1990s, Indian democracy witnessed an upsurge in the political participation of lower castes/communities and the emergence of political leaders from humble social backgrounds who present themselves as promoters of social justice for underprivileged communities. Drawing on a large body of archival and ethnographic material the author shows how the analysis of local idioms of caste, kinship, kingship, popular religion, 'the past' and politics ('the vernacular') inform popular perceptions of the political world and of how the democratic process shapes in turn 'the vernacular'. This line of enquiry provides a novel framework to understand the unique experience of Indian democracy as well as democratic politics and its meaning in other contemporary post-colonial states. Using as a case study the political ethnography of a powerful northern Indian caste (the Yadavs) and combining ethnographic material with colonial and post-colonial history the book examines the unique experience of Indian popular democracy and provides a framework to analyse popular politics in other parts of the world. The book fills

ADRIFT V Sudarshan,2013-05-20 When Commander Baath takes his French guests, with his crew of four, on a dive trip off Sir Hugh Rose Island, 20 nautical miles from Port Blair, it turns out to be the wrong day for a sea adventure. The calm sea, an endless liquid mirror before they dived, turns rough when they surface in an hour, as a violent storm looms over them. What was supposed to be a day trip turns into an endless drifting in the Andaman Sea thick with pirates, without a sense of direction or sight of land. Adrift follows their terrifying ordeal, battling hunger and thirst, and most of all their sanity, as they encounter the primal face of nature. Based on a real incident, Adrift is a gripping tale of survival, perseverance and fortitude.

My Life and Times: Munshi Premchand Madan Gopal,2006-12-31 A unique 'autobiography'of one of the greatest

storytellers of our times, Munshi Premchand, recreated from his works by the man regarded as 'Premchand's Boswell', Madan Gopal. Often compared to Gorky and Tolstoy, Premchand was not only a versatile writer of short stories, novels, dramas and essays, but also played an active role in the country's freedom movement. His stories took birth from the lives of the common people, their vicissitudes and deprivations, as well as their small joys and victories. Premchand rebelled against narrow religious bigotry and, in fighting it through his writing, he imbued a whole generation with the idea of a new social order of justice and equality. The author, Madan Gopal, has based his narrative on a study of almost everything of consequence written by or on Premchand in Hindi and Urdu, including numerous unpublished letters written by and to Premchand, which provide an intimate knowledge of the man, the writer, and the thinker. Madan Gopal's deep study of the writer whom he reveres has enabled him to tell the story of his life almost as the master storyteller would have told it himself. For all aficionados of Munshi Premchand, this is a book that must find a place on their shelves.

Love Trumps All! Sudarshan Mahabal, 2017-12-18 'Love Trumps All!' is a work of fiction that takes the reader, along with its protagonists, on a journey that waves of Indian immigrants have made to the US and back, and many American businessmen have made to India in search of cheap labor since the Y2K phenomenon. It is an illuminating interwoven story of five unlikely friends in a global setting across Silicon Valley, Manhattan, Mumbai, Pune, Khamgaon (representative of small-town India full of youth with stars-and-stripes in their eyes!), Hyderabad and Nepal, as they explore their liberal progressive identities in a world powered by immigration and divided by nationality, religion, and politics. A story that spans the Y2K opportunities of 1990s to the current backdrop of US 2016 presidential election. With rising nationalism and protectionism, uncertainties and anxieties that immigrants to the US face, the story takes on a particularly poignant hue. Universally recognizable dilemmas of patriotism vs global citizen-hood, traditionalism vs modernity, alienation vs fitting-in make this story one that will be read with equal interest and identification by readers in the US as well as in India. Life-changing events alter the perspectives of the Indian as well as American characters in the book, as their search for identity and the expansion of their horizons takes them half way around the world and back, in search of their true selves. Anant Joshi, a dreamer who chases the American dream during Y2K rush and leapfrogs from a small Indian town to set up one of the hottest and innovative Silicon Valley ventures. Chris O'Brian, an energetic and creative high-tech sales leader from New York who is driven by his passion for life, creativity and making it big. Sameera Qureshi, a young gynecologist from Hyderabad attending her medical residency in California and trying to find love and her true human identity. Amy Cohen, a lively, articulate, compassionate pediatrician who is ready to ride on larger than life waves. Madhura Sharma, journalist and social worker driven by her nationalistic ideals and drive to help others. What happens when their paths intersect and blend?

Everything's Relative Tony Rothman, 2008-05-02 The surprising truth behind many of the most cherished facts in science history Morse invented the telegraph, Bell the telephone, Edison the light bulb, and Marconi the radio . . . right? Well . . . the truth is slightly more complicated. The history of science and technology is riddled with apocrypha, inaccuracies, and falsehoods, and physicist Tony Rothman has taken it upon himself to throw a monkey wrench into the works. Combining a storyteller's gifts with a scientist's focus and hardheaded devotion to the facts-such as they may be-Rothman breaks down many of the most famous just-so stories of physics, astronomy, chemistry, biology, and technology to give credit where credit is truly due. From Einstein's possible misunderstanding of his own theories to actress Hedy Lemarr's role in the invention of the radio-controlled torpedo, he dredges his way through the legends of science history in relating the fascinating stories behind some of the most important, and often unsung, breakthroughs in science. Tony Rothman, PhD (Bryn Mawr, PA), is a Research Associate at Bryn Mawr College. He is the author of seven other critically acclaimed science books and a frequent contributor to leading science publications, including Scientific American and Discover.

Strange Beauty George Johnson, 2010-09-29 With a New Afterword Our knowledge of fundamental physics contains not one fruitful idea that does not carry the name of Murray Gell-Mann.--Richard Feynman Acclaimed science writer George Johnson brings his formidable reporting skills to the first biography of Nobel Prize-winner Murray Gell-Mann, the brilliant, irascible man who revolutionized modern particle physics with his models of the quark and the Eightfold Way. Born into a Jewish immigrant family on New York's East 14th Street, Gell-Mann's prodigious talent was evident from an early age--he entered Yale at 15, completed his Ph.D. at 21, and was soon identifying the structures of the world's smallest components and illuminating the elegant symmetries of the universe. Beautifully balanced in its portrayal of an extraordinary and difficult man, interpreting the concepts of advanced physics with scrupulous clarity and simplicity, Strange Beauty is a tour-de-force of both science writing and biography.
