Arrow Sumita Chakraborty,2020-09-01 Contemplative poems write a contentious love letter to a flawed world. "In poems that focus on gender and race-based violence, environmental destruction, and grief, Chakraborty investigates the unknown, unexpected, and unexplained." —Publishers Weekly About a quarter of the way through Sumita Chakraborty's *Arrow*, the reader encounters an impossible poem called 'Dear, beloved.' It's impossible because who could write it? It's as large, in its way, as any epic, but as compressed as any lyric, and as beautiful as any lyric, but as foundational as any epic, but it seems to come after all things, though it seems, also, diurnal. And it's impossible also because it's a highlight, not the highlight, of *Arrow*, a debut as assured as any first or last book, as compelling as any, as well-made. —Shane A. McCrae I stand in awe of Sumita Chakraborty's visionary collection, by turns epic and compressed in scope,

weighty in its tapestry-like materiality and sleekly dynamic as an arrow. The mythic and literary, here, are invigorated by seeming autobiography, which in turn gains collective energy and heft from the poems' timeless tropes and themes. Seamless and diverse in form, cosmic in subject and image, one feels in the presence of an oracular intelligence and an abiding lyric imagination. —Diane Seuss “This powerful and endlessly mysterious collection of poems is a book of fables, of spells, of revised narratives, and of realigned songs, brightly lifted above our bodies by music that is as unpredictable as it is marvelous. The lyricism is everywhere apparent as Sumita Chakraborty addresses us, our bodies and their stories, our planet, and our sense of time itself. How does she do it? Mad Ireland hurt him into poetry, W. H. Auden wrote about Yeats, and as the hurt enters Chakraborty's language, we see that in speech violated, sounds and meanings—and even the oldest of human mysteries, like ‘the etymology of love’—are redefined. All one can do is repeat: this is an endlessly compelling book. Bravo.” —Ilya Kaminsky

Architecture for Rapid Change and Scarce Resources Sumita Singha, 2013-07-03 Architects, development practitioners and designers are working in a global environment and issues such as environmental and cultural sustainability matter more than ever. Past interactions and interventions between developed and developing countries have often been unequal and inappropriate. We now need to embrace fresh design practices based on respect for diversity and equality, participation and empowerment. This book explores what it means for development activists to practise architecture on a global scale, and provides a blueprint for developing architectural practices based on reciprocal working methods. The content is based on real situations - through extended field research and contacts with architecture schools and architects, as well as participating NGOs. It demonstrates that the ability to produce appropriate and sustainable design is increasingly relevant, whether in the field of disaster relief, longer-

term development or wider urban contexts, both in rich countries and poor countries.

National Identity in Indian Popular Cinema, 1947-1987 Sumita S. Chakravarty, 2011-05-18 Although Indian popular cinema has a long history and is familiar to audiences around the world, it has rarely been systematically studied. This book offers the first detailed account of the popular film as it has grown and changed during the tumultuous decades of Indian nationhood. The study focuses on the cinema's characteristic forms, its range of meanings and pleasures, and, above all, its ideological construction of Indian national identity. Informed by theoretical developments in film theory, cultural studies, postcolonial discourse, and "Third World" cinema, the book identifies the major genres and movements within Bombay cinema since Independence and uses them to enter larger cultural debates about questions of identity, authenticity, citizenship, and collectivity. Chakravarty examines numerous films of the period, including *Guide* (Vijay Anand, 1965), *Shri 420* [The gentleman cheat] (Raj Kapoor, 1955), and *Bhumika* [The role] (Shyam Benegal, 1977). She shows how "impersonation," played out in masquerade and disguise, has characterized the representation of national identity in popular films, so that concerns and conflicts over class, communal, and regional differences are obsessively evoked, explored, and neutralized. These findings will be of interest to film and area specialists, as well as general readers in film studies.

Future Healthcare Design Sumita Singha, 2020-01-31 This book describes how architects can design better healthcare buildings for a rapidly changing context and climate. Innovation in the design of healthcare estates is essential to the sustainability of our health services. Design thinking in this field is being influenced by a range of factors, such as economic constraints, an ageing demographic, complex health conditions (co-morbidities), and climate change. There is an opportunity for architects and

designers to be innovators in the future of healthcare through the design of buildings and cities that offer wellbeing and healing. It highlights the latest innovations in key areas of practice and research, with a range of case studies to provide practical lessons and inspire better design.

Swee Hin, 2004-10-21 The success of any implant or medical device depends very much on the biomaterial used. Synthetic materials (such as metals, polymers and composites) have made significant contributions to many established medical devices. The aim of this book is to provide a basic understanding on the engineering and processing aspects of biomaterials used in medical applications. Women in Architecture Sumita Singha, 2018-08-16 Women in architecture have always existed, perhaps not as professionals but always as influencers at many levels. Then during wars in the absence of men, women took on the traditionally masculine roles of design and construction easily. The river Thames is graced by a bridge built entirely by a female workforce. But the acceptance and the presence of female architects alongside male architects took a long time to be realised. Finland was the first country to introduce the formal education of women in architecture around 1860s. However, Ethel Charles (1898), the first British woman to gain the membership of the Royal Institute of Architects, went on to design 'cottages' even though she was the first woman to win an International prize for architecture and the RIBA Silver medal winner. Many women worked in various capacities as influencers up to 1970s and 80s- teaching (Teolinda Bolivar, Venezuela), in government responsibilities (Olajumoke Adenowo, Nigeria), interior or furniture designers (Eileen Gray) and as activist (Arundhati Roy, India). Some of the female architects also worked with their husbands (Jane Drew and Maxwell Fry) and other male associates. Somehow it has always been easier to study than to practice architecture for women. The jump from being influencers

to front-liners was not an easy transition, even in the 'West'. But changing socio-political times, the globalization of practice and a bold willingness to disengage from past constrictions did indeed change the nature of women in architecture. Things have improved materially for women employees because of social and legal changes (Equal pay, maternity leave, basic pay, etc.) but particular issues of being a woman in architecture remain. The numbers of female-led architecture firms also remain very small compared to other professions such as law, accountancy and medicine. There has also been a question raised about whether there is a feminine style of architecture. These volumes explore four themes - History, Work, Influence and Practice. The set offers a holistic and non Euro-centric view of women in architecture, with good practice and inspiration from all parts of the world.

Not Always to Plan Colin Bisset,2013-04-01 Death and marriage, money and love: this family is about to find out what happens when their lives collide with the unexpected. The Dorman family lives a humdrum existence in a surfing suburb of Sydney until they are rocked by upheaval. Change is inevitable, but is it welcome? All that is certain is that each member of the family will have to confront new truths about themselves, some less comfortable than others. Set against a backdrop of Sydney's stunning beaches, the architecture of Europe and the enchanting beauty of southern India, this warmly humorous book tackles what happens when life doesn't go exactly to plan.

What Really Happened Banaphool,2010-10-18 100 classic tales from the master of Bengali short fiction 'Banaphool's love of precision and economy of words, his eye for the apparently insignificant detail give us a sudden glimpse of the human condition ' -Nabaneeta Dev Sen Translated into English for the first time, these stories by legendary writer Banaphool cleverly explore how life's absurdities are negotiated through human relationships- whether between friends,lovers family or strangers. In the title story, a lovelorn boy waits earnestly in his hostel room for the arrival of his beloved, only to be greeted by a rude shock. The fickle nature of love is at the centre of 'Conjugal Dreams' , as two newlyweds confront their old loves. 'The Homecoming' is about an insurance agent's encounter with a most unexpected co-passenger while travelling home by train for Durga Puja. And a harmless wager leads to very dramatic consequences in 'The Corpse'. These sparkling vignettes are moulded out of the everyday, and range from poignant and tragic to whimsical and satirical. Reminiscent of the effortless prose of O. Henry, Banaphool's stories conjure up a host of enduring characters while making sharp observations

about the human condition.

Idiom Treatment Experiments in Machine Translation

Dimitra Anastasiou,2010-09-13 In 1975, Searle stated that one should speak idiomatically unless there is some good reason not to do so. Fillmore, Kay, and O'Connor in 1988 defined an idiomatic expression or construction as something that a language user could fail to know while knowing everything else in the language. Our language is rich in conversational phrases, idioms, metaphors, and general expressions used in metaphorical meaning. These idiomatic expressions pose a particular challenge for Machine Translation (MT), because their translation for the most part does not work literally, but logically. The present book shows how idiomatic expressions can be recognized and correctly translated with the help of a bilingual idiom dictionary (English-German), a monolingual (German) corpus, and morphosyntactic rules. The work focuses on the field of Example-based Machine Translation (EBMT). A theory of idiomatic expressions with their syntactic and semantic properties is provided, followed by the practical part of the book which describes how the hybrid EBMT system METIS-II is able to correctly process idiomatic expressions. A comparison of METIS-II with three commercial systems shows that idioms are not impossible to translate as it was predicted in 1952: "The only way for a machine to treat idioms is—not to have idioms!" This book furnishes plenty of examples of idiomatic phrases and provides the foundation for how MT systems can process and translate idioms by means of simple linguistic resources.

Vocabulary And Usage: All You Need To Know Sumita Roy,2002-09-01

Indian Suffragettes Sumita Mukherjee,2018-04-16 Popular depictions of campaigns for women's suffrage in films and literature have invariably focused on Western suffrage movements. The fact that Indian women built up a vibrant suffrage

movement in the twentieth century has been largely neglected. The Indian 'suffragettes' were not only actively involved in campaigns within the Indian subcontinent, they also travelled to Britain, America, Europe, and elsewhere, taking part in transnational discourses on feminism, democracy, and suffrage. *Indian Suffragettes* focuses on the different geographical spaces in which Indian women were operating. Covering the period from the 1910s until 1950, it shows how Indian women campaigning for suffrage positioned themselves within an imperial system and invoked various identities, whether regional, national, imperial, or international, in the context of debates about the vote. Significantly, this volume analyses how the global connections that were forged influenced social and political change in the Indian subcontinent, highlighting Indian mobility at a time when they were colonial subjects.
