Urban Living Labs Simon Marvin, Harriet Bulkeley, Lindsay Mai, Kes McCormick, Yuliya Voytenko Palgan, 2018-05-03 All cities face a pressing challenge – how can they provide economic prosperity and social cohesion while achieving environmental sustainability? In response, new collaborations are emerging in the form of urban living labs – sites devised to design, test and learn from social and technical innovation in real time. The aim of this volume is to examine, inform and advance the governance of sustainability transitions through urban living labs. Notably, urban living labs are proliferating rapidly across the globe as a means through which public and private actors are testing innovations in buildings, transport and energy systems. Yet despite the experimentation taking place on the ground, we lack systematic learning and international comparison across urban and national contexts about their impacts and effectiveness. We have limited knowledge on how good practice can be scaled up to achieve the transformative change required. This book brings together leading international researchers within a systematic comparative framework for evaluating the design, practices and processes of urban living labs to enable the comparative analysis of their potential and limits. It provides new insights into the governance of urban sustainability and how to improve the design and implementation of urban living labs in order to realise their potential.

Jihad vs. McWorld Benjamin Barber, 2010-04-21 *Jihad vs. McWorld* is a groundbreaking work, an elegant and illuminating analysis of the central conflict of our times: consumerist capitalism versus religious and tribal fundamentalism. These diametrically opposed but strangely intertwined forces are tearing apart--and bringing together--the world as we know it, undermining democracy and the nation-state on which it depends. On the one hand, consumer capitalism on the global level is rapidly dissolving the social and economic barriers between nations, transforming the world's diverse populations into a blandly uniform market. On the other hand, ethnic, religious, and racial hatreds are fragmenting the political landscape into smaller and smaller tribal units. *Jihad vs. McWorld* is the term that distinguished writer and political scientist Benjamin R. Barber has coined to describe the powerful and paradoxical interdependence of these forces. In this important new book, he explores the alarming repercussions of this potent dialectic for democracy. A work of persuasive originality and penetrating insight, *Jihad vs. McWorld* holds up a sharp, clear lens to the dangerous chaos of the post-Cold War world. Critics and political leaders have already heralded Benjamin R. Barber's work for its bold vision and moral courage. *Jihad vs. McWorld* is an essential text for anyone who wants to understand our troubled present and the crisis threatening our future.
