Survival: Hurricane! Frieda Wishinsky, 2016-05 Caught in the eye of a hurricane! Would you survive? Michael reached for something -- anything -- to stop him from sliding off the roof, but there was nothing to hold on to. Nothing. He fell into the darkness and splashed into the icy water. The streets of Michael's Toronto neighbourhood were saturated, the Humber River swollen from days of pounding rain. Hurricane Hazel was devastating the Caribbean and southern United States, but no one expected Hazel to reach Toronto. No one was prepared. When the river overflows its banks, Michael's house is in danger of being swept away. Fleeing his home through the roof -- his only way of escape -- Michael plummets into the freezing water. How will he make it out alive? Hurricane Hazel was a category 4 hurricane that struck Toronto on the night of October 15, 1954. Winds of 110 km/hour and 285 mm of rain over 48 hours hit Toronto. Thousands were left homeless. Eighty-one people died in Toronto when waterways flooded, thirty-five of them on Raymore Drive near the Humber River.

Fatal Forecast Michael J. Tougias, 2007-07-17 A true story of catastrophe and survival at sea, Fatal Forecast is a spellbinding moment-by-moment account of seventy-two hours in the lives of eight young fishermen, some of whom would never set foot on dry land again. On the morning of November 21, 1980, two small Massachusetts lobster boats set out for Georges Bank, a bountiful but perilous fishing ground 130 miles off the coast of Cape Cod. The National Weather Service had forecast typical fall weather, and the young, rugged crewmen aboard the Sea Fever and the Fair Wind had made dozens of similar trips that season. They had no reason to expect that this trip would be any different. But the only weather buoy on Georges Bank was malfunctioning, and the National Weather Service had failed to share this fact with the fishermen who depended on its forecasts. As the two small boats headed out to sea, a colossal storm was brewing to the southeast, a furious maelstrom the National Weather Service did not accurately locate until the boats were already caught in the storm's grip, trapped in the treacherous waters of Georges Bank. Battered by sixty-foot waves and hurricane-force winds, the crews of the Fair Wind and the Sea Fever (captained by Peter Brown, whose father owned the Andrea Gail of Perfect Storm fame) struggled heroically to keep their vessels afloat. But the storm soon severely crippled one boat and overturned the other, trapping its crew inside. Meticulously researched and vividly told, Fatal Forecast is first and foremost a tale of miraculous survival. Most amazing is the story of Ernie Hazzard, who managed to crawl inside a tiny inflatable life raft and then spent more than fifty terrifying hours adrift on the stormy open sea. By turns tragic, thrilling, and inspiring, Ernie's story deserves a place among the greatest survival tales ever told. Equally riveting are the stories of the brave men and women from the Coast Guard and the crew of a nearby fishing boat who imperiled their own lives that day in order to save the lives of others. As gripping and harrowing as The Perfect Storm - but with a miracle ending - Fatal Forecast is an unforgettable true story about the collision of two spectacular forces: the brutality of nature and the human will to survive.

Into the Storm Tristram Korten, 2019-06-04 “An intense, immersive deep dive into a wild, dangerous, and unknown world, written with the pace and appeal of a great thriller. This is nonfiction at its very best.”—Lee Child The true story of two doomed ships and a daring search-and-rescue operation that shines a light on the elite Coast Guard swimmers trained for the most dangerous ocean missions With a new epilogue about a flight on a hurricane hunter In late September 2015, Hurricane Joaquin swept past the Bahamas and swallowed a pair of cargo vessels in its destructive path: El Faro, a 790-foot American behemoth with a crew of thirty-three, and the Minouche, a 230-foot freighter with a dozen sailors aboard. From the parallel stories of these ships and their final journeys, Tristram Korten weaves a remarkable tale of two veteran sea captains from very different worlds, the harrowing ordeals of their desperate crews, and the Coast Guard's extraordinary battle against a storm that defied prediction. When the Coast Guard received word from Captain Renelo Gelera that the Minouche was taking on water on the night of October 1, the servicemen on duty helicoptered through Joaquin to the sinking ship. Rescue swimmer Ben Cournia dropped into the sea—in the middle of a raging tropical cyclone, in the dark—and churned through the monstrous swells, loading survivors into a rescue basket dangling from the helicopter as its pilot struggled against the tempest. With pulsating narrative skill in the tradition of Sebastian Junger and Jon Krakauer, Korten recounts the heroic efforts by Cournia and his fellow guardsmen to haul the Minouche's crew to safety. Tragically, things would not go as well for Captain Michael Davidson and El Faro. Despite exhaustive searching by her would-be rescuers, the loss of the vessel became the largest U.S. maritime disaster in decades. As Korten narrates the ships' fates, with insights drawn from insider access to crew members, Coast Guard teams, and their families, he delivers a moving and propulsive story of men in peril, the international brotherhood of mariners, and the breathtaking power of nature. Praise for Into the Storm “The story [Tristram] Korten tells is impressively

multifaceted, exploring everything from timely issues such as climate change to timeless themes such as man's struggle against the ocean's fury."—Miami New Times "Into the Storm is a triumph of reporting and you-are-there writing that becomes a deeper tale—with more implications about our own lives—with every chapter."—Robert Kurson, New York Times bestselling author of *Shadow Divers*

Rescue of the Bounty Michael J. Tougas, Douglas A. Campbell, 2014-04-01 From the author of the Fall 2015 Disney movie *The Finest Hours*, the "thrilling and perfectly paced" (Booklist) story of the sinking and rescue of *Bounty*—the tall ship used in the classic 1962 movie *Mutiny on the Bounty*—which was caught in the path of Hurricane Sandy with sixteen aboard. On Thursday, October 25, 2012, Captain Robin Walbridge made the fateful decision to sail *Bounty* from New London, Connecticut, to St. Petersburg, Florida. Walbridge knew that a hurricane was forecast, yet he was determined to sail. The captain told the crew that anyone could leave the ship before it sailed. No one took the captain up on his offer. Four days into the voyage, Superstorm Sandy made an almost direct hit on the ship. A few hours later, the ship suddenly overturned ninety miles off the North Carolina coast in the "Graveyard of the Atlantic," sending the crew tumbling into an ocean filled with towering thirty-foot waves. The coast guard then launched one of the most complex and massive rescues in its history. In the uproar heard across American media in the days following, a single question persisted: Why did the captain decide to sail? Through hundreds of hours of interviews with the crew members and the coast guard, Michael J. Tougas and Douglas A. Campbell create an in-depth portrait of the enigmatic Captain Walbridge, his motivations, and what truly occurred aboard *Bounty* during those terrifying days at sea. "A white-knuckled, tragic adventure" (Richmond Times-Dispatch), *Rescue of the Bounty* is an unforgettable tale about the brutality of nature and the human will to survive.

The Storm of the Century Al Roker, 2016-08-09 In this gripping narrative history, Al Roker from NBC's *Today* and the Weather Channel vividly examines the deadliest natural disaster in American history—a haunting and inspiring tale of tragedy, heroism, and resilience that is full of lessons for today's new age of extreme weather. On the afternoon of September 8, 1900, two-hundred-mile-per-hour winds and fifteen-foot waves slammed into Galveston, the booming port city on Texas's Gulf Coast. By dawn the next day, the city that hours earlier had stood as a symbol of America's growth and expansion was now gone. Shattered, grief-stricken survivors emerged to witness a level of destruction never before seen: Eight thousand corpses littered the streets and were buried under the massive wreckage. Rushing water had lifted buildings from their foundations, smashing them into pieces, while wind gusts had upended steel girders and trestles, driving them through house walls and into sidewalks. No race or class was spared its wrath. In less than twenty-four hours, a single storm had destroyed a major American metropolis—and awakened a nation to the terrifying power of nature. Blending an unforgettable cast of characters, accessible weather science, and deep historical research into a sweeping and dramatic narrative, *The Storm of the Century* brings this legendary hurricane and its aftermath into fresh focus. No other natural disaster has ever matched the havoc caused by the awesome mix of winds, rain, and flooding that devastated Galveston and shocked a young, optimistic nation on the cusp of modernity. Exploring the impact of the tragedy on a rising country's confidence—the trauma of the loss and the determination of the response—Al Roker illuminates the United States's character at the dawn of the "American Century," while also underlining the fact that no matter how mighty they may become, all nations must respect the ferocious potential of our natural environment.

The twins dodge falling trees and debris in search of shelter only to become faced with an even bigger dilemma: is it safer to keep moving, or hunker down beneath less than ideal cover?
