1,000 Poses in Fashion Chidy Wayne, 2010-07-01 Ambiguous, sensual, coquette, and suggestive: the one thousand fashion drawing poses in this book are a deep journey into the wealth of possibilities for illustrating male and female bodies, and designersâ€™ capacity to transmit sensations with an ever so slight flick of the wrist. 1,000 Poses in Fashion compiles all the usual fashion poses and illustrated features, represented in full color, supplemented by the many variations of each pose, in black and white. The Man Who Would Be F. Scott Fitzgerald David Handler, 2012-06-26 Hoagy tries to save a client from the deadly world of high-stakes publishing Stewart Hoag knows how quickly fame can fade. The same critics who adored his first novel used his second for target practice, ending his literary career once and for all. To keep his basset hound fed, Hoagy ghostwrites memoirs for the rich, famous, and self-destructive. His newest subject reminds him all too much of himself. By the age of twenty, Cam Noyes is already being hailed as the next F. Scott Fitzgerald. Though he's only published one book, Cam runs with the big boys: dating artists, trashing restaurants, and ending every night in a haze of tequila and cocaine. So glamorous is his lifestyle that he's having trouble starting his second novel, forcing his agent to hire Hoagy to get the little genius working on a memoir instead. As Hoagy digs into the kid's life story, he learns that New York publishing is even more cutthroat than he thought.

Nowadays, fashion has become an essential aspect of people's daily life. As each outfit usually comprises several complementary items, such as a top, bottom, shoes, and accessories, a proper outfit largely relies on the harmonious matching of these items. Nevertheless, not everyone is good at outfit composition, especially those who have a poor fashion aesthetic. Fortunately, in recent years the number of online fashion-oriented communities, like IQON and Chictopia, as well as e-commerce sites, like Amazon and eBay, has grown. The tremendous amount of real-world data regarding people's various fashion behaviors has opened a door to automatic clothing matching. Despite its significant value, compatibility modeling for clothing matching that assesses the compatibility score for a given set of (equal or more than two) fashion items, e.g., a blouse and a skirt, yields tough challenges: (a) the absence of comprehensive benchmark; (b) comprehensive compatibility modeling with the multi-modal feature variables is largely untapped; (c) how to utilize the domain knowledge to guide the machine learning; (d) how to enhance the interpretability of the compatibility modeling; and (e) how to model the user factor in the personalized compatibility modeling. These challenges have been largely unexplored to date. In this book, we shed light on several state-of-the-art theories on compatibility modeling. In particular, to facilitate the research, we first build three large-scale benchmark datasets from different

online fashion websites, including IQON and Amazon. We then introduce a general data-driven compatibility modeling scheme based on advanced neural networks. To make use of the abundant fashion domain knowledge, i.e., clothing matching rules, we next present a novel knowledge-guided compatibility modeling framework. Thereafter, to enhance the model interpretability, we put forward a prototype-wise interpretable compatibility modeling approach. Following that, noticing the subjective aesthetics of users, we extend the general compatibility modeling to the personalized version. Moreover, we further study the real-world problem of personalized capsule wardrobe creation, aiming to generate a minimum collection of garments that is both compatible and suitable for the user. Finally, we conclude the book and present future research directions, such as the generative compatibility modeling, virtual try-on with arbitrary poses, and clothing generation.

Scientific Foundations of Crime Scene Reconstruction Jon J. Nordby, Ph.D., 2012-12-17 Philosophers of science have long used reconstructive reasoning to develop historical explanations covering the origins of natural phenomenon. The application of the scientific method is a powerful tool for solving crimes through reconstruction of the events. *Scientific Foundations of Crime Scene Reconstruction: Introducing Method to Mayhem* demonstrates how to use the scientific method and exercise the critical thinking that is essential for the development of sound data and the construction of reliable explanations. Provides a clear yet rigorous account of the scientific method accessible to non-philosophers Supplies examples showing the application of scientific methods to the reconstruction of events that leave physical evidence at crime scenes Presents self-contained chapters—each with specific points about how a scene reconstruction is built upon the analysis of specific physical evidence Discusses the scope and limitations of physical evidence and the resulting analyses that they support in crafting scientific

crime scene reconstructions Includes case studies of crime scene reconstructions from Dr. Nordby's experience, complete with color photographs and laboratory notes Moving systematically from case to case, this volume is an essential reference for forensic and law enforcement professionals who need to step into new or unfamiliar areas to understand how science can help them do their jobs. It enables forensic scientists to apply the natural sciences to casework in shooting and nonshooting cases. It also educates attorneys who need to understand scientific evidence and the process of crime scene reconstruction from the scientific point of view.

The Woman Who Ran Away Dwight E. Foster, 2007-03-15 The Woman Who Ran Away is a mystery of sorts. Jack Waldek, the protagonist, is a senior tax manager with an obscure public accounting firm in New Jersey. He meets Fran Zetzmann

when she occupies the next seat to him on an O'Hare to LaGuardia flight. Fran presumably holds a regional sales management position with an advertising representative firm and impresses Jack as an independent traveling lady. They develop a relationship which blooms into a comfortable weekend lover arrangement at Jack's country place in a Pocono Mountains gated community called Knight Estates. Fran is a runner. She runs every weekend morning a distance of 1.8 miles regardless of weather. She leaves one Saturday morning shortly after seven in the morning and does not return, Jack sets out to look for Fran, locates the rental car in the parking lot next to the running trail and her purse is in the back seat. There is no sign of Fran. A search of her purse produces an odd looking cell phone and a wallet without credit cards. He reports her absence the next day to the Knight Estates Public Safety Department and continues to search for Fran. Jack finds that the address on her business card is nothing more than a New York City mail drop, and that Fran's company ceased to exist three years before. He continues to probe and suddenly becomes aware that Fran is not the first person to disappear from Knight Estates. Jack then learns that the woman he had known as Fran was an operative of a Middle East industrial intelligence firm called SHALIMAR. It appears that the woman called Fran was assigned to cultivate Jack to learn about his principal client, Gianni Companies. Jack Waldek, the charming tax manager, finds himself enmeshed in a web of threats, violence, imposters. Loutish public safety officers, a corporate control fight, and professional

assassins. Everything is linked to Fran, the woman who ran away. Dwight Foster's previous books include the Shattered Covenants series, (Present & Past Imperfect, The Road to McKenzie Barber, The Consultant, The Chairman, The Partner, The House of Harwell, and Twilight & Endgame) and NEW YORK FOLKS. His writings have a strong business flavor nurtured during his lengthy executive search consulting career in addition to his current role as Chairman of Foster Partners Asia, a human capital consulting firm serving clients in China, Malaysia, and Viet Nam.

The Unexplainable Disappearance of Mars Patel Sheela Chari, 2020-10-06 Based on the Peabody Award-winning podcast, this tech-filled adventure series pits intrepid Mars Patel and his outcast friends against a brilliant, enigmatic billionaire as they race to figure out why kids are disappearing from their school. Mars Patel's friend Aurora has disappeared! His teachers are clueless. His mom is stressed out about her jobs. But Mars refuses to give up—after all, his own dad disappeared when Mars was a toddler, before he and Ma moved to Puget Sound from India. Luckily, Mars has a group of loyal friends eager to help—smart Toothpick, strong and stylish JP, and maybe-telepathic Caddie. The clues seem to point toward eccentric tech genius (and Mars's hero) Oliver Pruitt, whose popular podcast now seems to be commenting on their quest! But when the friends investigate Pruitt's mysterious, elite school, nothing is as it seems—and anyone could be deceiving them. Slick science, corporate conspiracies, and an endearingly nerdy protagonist make

this first book in the series a fresh, exciting sci-fi adventure.

Cringe Sarah Brown, 2008 Did you keep a diary during your teen years? Do you have a box of loopy-cursive, never-sent notes to your crush? Or some overwrought poetry about your bleak existence? An unfinished rockopera? Well, you're not alone, and in *Cringe*, you'll find a reason to unearth your adolescent angst and have a good laugh—at yourself. A compilation of real teenage diary and journal entries, letters, songs, stories, and lists—along with biting commentary, background, and self-examination from the now so-called grown-ups who wrote them—*Cringe* offers a voyeuristic glimpse at the roller coaster of youth in all of its navel-gazing, soul-searching, social-skewering glory. *Cringe* -worthy excerpts include Really bad poetry: I lumber like the sad clown with the hope that my performance might make you smile. Yet I am a flickering star over a cloudy sky. Blush-inducing pep talks: OK. It's the end of February. No more kidding around! You have to go out with someone! You haven't gone out with someone since the summer! At least fool around with someone! Come on! You've got it in ya! Questionable motivations: My mom is madly in love with her boyfriend. . . . Cool! He's so rich . . . I could get a lot out of this—vacations, a car—if he buys my mom one + she gives me hers—psyche! And rages against the world at large: I am living in a dream world. Wishes are a bunch of crap. They never come true so what's the use of even wasting your time hoping they'll come true when they don't? Inspired by the New York-based reading series of the same name, *Cringewill*

help you realize that being a grown-up isn't all that terrible. At least you don't have to worry about who's going to be at the mall anymore.
