Fiona Lombardi

From weather observations to atmospheric and climate sciences in Switzerland Saskia Willemse,Markus Furger,2016-06-02 In 2016 the Swiss Society for Meteorology (Schweizerische Gesellschaft für Meteorologie, SGM) celebrates its 100th anniversary. Compared to other meteorological societies it is not among the oldest ones. Nevertheless, meteorology has gone through such a remarkable evolution in the past 100 years that it is worthwhile to take a look back and recapitulate the developments of both science and SGM – and to reveal their interaction. The idea of this book is to give an overview of what has happened in the field of atmospheric sciences in Switzerland since the first systematic long-term meteorological observations until today.

GEOValue Jamie B. Kruse,Joep Crompvoets,Francoise Pearlman,2017-11-15 Quantifying the social and economic value that geospatial information contributes to modern society is a complex task. To construct reliable and consistent valuation measures requires an understanding of the sequence of processes that starts with data acquisition, and leads to decision-makers' choices that impact society. GEOValue explores each step in this complex value chain from the viewpoint of domain experts spanning disciplines that range from the technical side of data acquisition and management to the social sciences that provide the framework to assess the benefit to society. The book is intended to provide foundational understanding of the techniques and complexities of each step in the process. As such it is intended to be assessable to a reader without prior training in data acquisition systems, information systems, or valuation methods. In addition, a number of case studies are provided that demonstrate the use of geospatial information as a critical input for evaluation of policy pertaining to a wide range of application areas, such as agricultural and environmental policy, natural catastrophes, e-government and transportation systems.

Swiss Review ,2008

The Swiss Air Power Fiona Lombardi,2007 Through this comprehensive inquiry, the dissertation has highlighted a series of doctrinal inadequacies since the very beginning of air power in Switzerland and some deficiencies regarding current operational capabilities, which must be rectified so as not to jeopardise homeland security in the long run. (Publisher).

Trekking in the Silvretta and Rätikon Alps Kev Reynolds,2014-04-14 This guidebook describes 3 Alpine treks, between 5 and 8 days long, as well as 12 full or half day hut-to-hut routes. The three treks suitable for moderately experienced trekkers, but requiring no specialist equipment, are the Tour of the Silvretta, the Prattigauer Hohenweg and the Ratikon Hohenweg, two of which can be combined to provide a fortnight of high-altitude hiking among such peaks as Piz Buin, Piz Linard, Dreiländerspitz, Schesaplana, Sulzfluh and Drusenfluh and over some classic Alpine passes. The Silvretta and Ratikon ranges straddle the borders of Switzerland, Austria and Liechtenstein. Also included are descriptions of nearby climbable peaks for those with excess energy and favourable conditions, and for those who prefer to plan their own tours a directory of all the mountain huts in the area, providing all the information you could possibly need. Written by Alpine expert Kev Reynolds, this book includes tips on gear, planning, language and further reading, to fully enjoy your time in the Alps.

Storm Data ,1994

Air Crash Investigations: The Crash of Swissair Flight 111 Hans Griffioen,2009-08-01 On 2 September 1998, Swissair Flight SR 111 departed New York, on a scheduled flight to Geneva, Switzerland, with 215 passengers and 14 crew members on board. About 53 minutes after departure, the flight crew smelled an abnormal odour in the cockpit. They decided to divert to the Halifax International Airport. They were unaware that a fire was spreading above the ceiling in the front area of the aircraft. They would never make it to Halifax, 20 minutes after the first detection of smoke in the cabin the aircraft crashed in the North Atlantic near Peggy's Cove, Nova Scotia, Canada. There were no survivors, 229 people died in the incident.

Death is a Hunter Henry W. Schober,2004 An American born of German ancestry in the Philippines, Henry W. Schober has survived four massacres during his lucky life. Joining the US Army in 1945, he became a veteran of World War Two, the Korean and Vietnam Wars and has seen death first hand. In Death Is A Hunter, Henry shares his experiences and close encounters from paratrooper to pilot to Lieutenant Colonel during his 25-year army career. Clocking up 10,000 hours of flying rotary and fixed wing aircraft he has survived about a dozen engine failures and emergency landings in such places as a river bed, a rose garden and in pine trees. Retiring to Greece, and later Australia, his adventures continued in scuba diving, sailing and of course flying. With the death of many close friends and the recent loss of a loved one it seems death is still on the hunt for Henry. Find out how close he came so many times in Death Is A Hunter.

Serious Foolishness Angie Austin,2019-07-03 It was a really small town, but it had its own homegrown radio broadcaster. That was Larry, carrying his wooden pole with an empty tin can nailed on it (his microphone), a wooden chair (his stage), his guitar on his back, to the middle of town to perform daily for the locals. People would gather around to applaud and request songs, but all of Larry's songs were alike, yelling into that tin can. As far as the kids, for their entertainment, they had to create their own. Like driving their car on the train tracks, flying like the wind—until they met an oncoming train. And if the local sheriff got in their way, they just

overpowered him and locked him up in his own jail overnight. After moving up north to train show horses, they discovered those northern cowboys had their own unique way of enduring that brutally cold weather: they would just get drunk and then fight with each other. They were gang fights, but all of them were friends. Great sport. Unless you were a native there, this seemed a bit odd to outsiders. So they moved down south, hoping for a friendlier and more acceptable way of living and got there in time to meet early integration head-on. Then they had to learn a new modified Geechee/Gullah language in order to communicate with their hired help. What they found was that as a rule, those Southerners overall were the most gracious, friendliest, lovable, and unique people of all. As far as the weather, though it was usually more reasonable, in one day alone, they could have monsoon-like rains, followed immediately by a metal-melting heat wave, and topped off with a heavy fog that swooped down over you like a massive wet blanket that made those winters up north seem mild.

Fodor's Switzerland Andrea Lehman,Mark Sullivan,Matthew Lombardi,2005 Explicates Swiss history and traditions and offers helpful hints on shopping, sports activities, and tourist accommodations in Lichtenstein as well as Switzerland

The Quantum Economy Fabrizio Poli,2023-03-31 In a world where technology is driving rapid change and connecting us like never before, one thing has remained stagnant: air travel. Since the retirement of the Concorde in 2003, supersonic civilian flights have become a thing of the past. Entrepreneurs and aspiring business leaders must turn to private jet travel to stay ahead of the competition. This book explores the opportunities available to those who act fast, using real-life stories of successful entrepreneurs who have leveraged the speed and convenience of private jets to build their businesses and stay ahead in the quantum economy. Discover how you too can use private jets to connect, compete and succeed in today's fast-paced business world.
