West Indian Hurricanes Edward Bennett Garriott, 1900

This paper reviews the writings of the more prominent meteorologists of the nineteenth century, so far as they refer to the tropical storms of the North Atlantic, and presents a chronological list of West Indian storms for four hundred years--Letter of transmittal

The Storm Tomas Gonzalez, 2018-12-04 A riveting family drama set on the lush and dangerous Colombian coast. By one of Colombia's most acclaimed contemporary novelists, *The Storm* is an atmospheric, gripping portrait of the tensions that devastate one family. Twins Mario and Jose do not know how to cope with the hatred they feel for their father, an arrogant man whose pride seems to taint everything he touches. Over the course of a fateful fishing trip straight into the heart of a storm, father and sons are confronted with the unspoken secrets and resentments that are destroying them.

Ancient Teotihuacan George L. Cowgill, 2015-04-02

First comprehensive English-language book on the largest city in the Americas before the 1400s. Teotihuacan is a UNESCO world heritage site, located in highland central Mexico, about twenty-five miles from Mexico City, visited by millions of tourists every year. The book begins with Cuicuilco, a predecessor that arose around 400 BCE, then traces Teotihuacan from its founding in approximately 150 BCE to its collapse around 600 CE. It describes the city's immense pyramids and other elite structures. It also discusses the dwellings and daily lives of commoners, including men, women, and children, and the craft activities of artisans. George L. Cowgill discusses politics, economics, technology, art, religion, and possible reasons for Teotihuacan's rise and fall. Long before the Aztecs and 800 miles from Classic Maya centers, Teotihuacan was part

of a broad Mesoamerican tradition but had a distinctive personality that invites comparison with other states and empires of the ancient world.

After the Storm Alma Flor Ada, 1999-01-01 In the aftermath of a storm, a plucky seed survives and teaches readers about how seeds become flowers.

The Art of Urbanism William Leonard Fash, Leonardo López Luján, 2009 The Art of Urbanism explores how the royal courts of powerful Mesoamerican centers represented their kingdoms in architectural, iconographic, and cosmological terms. Through an investigation of the ecological contexts and environmental opportunities of urban centers, the contributors consider how ancient Mesoamerican cities defined themselves and reflected upon their physical and metaphysical place via their built environment. Themes in the volume include the ways in which a kingdom's public monuments were fashioned to reflect geographic space, patron gods, and mythology, and how the Olmec, Maya, Mexica, Zapotecs, and others sought to center their world through architectural monuments and public art. This collection of papers addresses how communities leveraged their environment and built upon their cultural and historical roots as well as the ways that the performance of calendrical rituals and other public events tied individuals and communities to both urban centers and hinterlands. Twenty-three scholars from archaeology, anthropology, art history, and religious studies contribute new data and new perspectives to the understanding of ancient Mesoamericans' own view of their spectacular urban and ritual centers.

The Edge of the Storm Agustín Yáñez, 1979

The Maya and Teotihuacan Geoffrey E.

Braswell, 2009-07-21 Since the 1930s, archaeologists have

uncovered startling evidence of interaction between the Early Classic Maya and the great empire of Teotihuacan in Central Mexico. Yet the exact nature of the relationship between these two ancient Mesoamerican civilizations remains to be fully deciphered. Many scholars have assumed that Teotihuacan colonized the Maya region and dominated the political or economic systems of certain key centers—perhaps even giving rise to state-level political organizations. Others argue that Early Classic rulers merely traded with Teotihuacan and skillfully manipulated its imported exotic goods and symbol sets to increase their prestige. Moving beyond these traditional assumptions, the contributors to this volume present extensive new evidence from archaeology, iconography, and epigraphy to offer a more nuanced understanding of the interaction between the Early Classic Maya and Teotihuacan. Investigating a range of Maya sites, including Kaminaljuyu, Copán, Tikal, Altun Ha, and Oxkintok, they demonstrate that the influence of Teotihuacan on the Maya varied in nature and duration from site to site, requiring a range of models to explain the patterns of interaction. Moreover, they show that the interaction was bidirectional and discuss how the Maya in turn influenced Teotihuacan.

Using Spanish R. E. Batchelor, C. J.

Pountain, 2005-09-29 This 2005 book is a guide to Spanish usage for those who have already acquired the basics of the language and wish to extend their knowledge. Unlike conventional grammars, it focuses on those areas of vocabulary and grammar which cause most difficulty to English speakers. It fully illustrates the differences between the Spanish of Spain and Latin America, and looks in detail at register variation. Complete with a full word index, this clear and easy-to-consult text guides students through the richness and diversity of this major world

language. This new edition has been extensively revised and updated to take a fuller account of Latin-American (particularly Mexican) usage. The vocabulary sections have been significantly expanded, and now include examples which contextualize each word or expression. The presentation of many sections has been improved to make reference even easier than before, and some completely new material has been added on semi-technical vocabulary and Anglicisms.

Teotihuacan Esther Pasztory,1997 This book is the first comprehensive study and reinterpretation of the unique arts of Teotihuacan, including architecture, sculpture, mural painting, and ceramics. Comparing the arts of Teotihuacan - not previously judged artistic - with those of other ancient civilizations, Ester Pasztory demonstrates how they created and reflected the community's ideals. Most people associate the pyramids of central Mexico with the Aztecs, but these colossal constructions antedate the Aztecs by more than a thousand years. The people of Teotihuacan, who built the pyramids as part of a city of unprecedented size, remain a mystery.

Teotihuacan Matthew Robb,2017-09-26 Founded in the first century BCE near a set of natural springs in an otherwise dry northeastern corner of the Valley of Mexico, the ancient metropolis of Teotihuacan was on a symbolic level a city of elements. With a multiethnic population of perhaps one hundred thousand, at its peak in 400 CE, it was the cultural, political, economic, and religious center of ancient Mesoamerica. A devastating fire in the city center led to a rapid decline after the middle of the sixth century, but Teotihuacan was never completely abandoned

or forgotten; the Aztecs revered the city and its monuments, giving many of them the names we still use today. Teotihuacan: City of Water, City of Fire examines new discoveries from the three main pyramids at the site—the Sun Pyramid, the Moon Pyramid, and, at the center of the Ciudadela complex, the Feathered Serpent Pyramid—which have fundamentally changed our understanding of the city’s history. With illustrations of the major objects from Mexico City’s Museo Nacional de Antropología and from the museums and storage facilities of the Zona de Monumentos Arqueológicos de Teotihuacan, along with selected works from US and European collections, the catalogue examines these cultural artifacts to understand the roles that offerings of objects and programs of monumental sculpture and murals throughout the city played in the lives of Teotihuacan’s citizens. Published in association with the Fine Arts Museums of San Francisco. Exhibition dates: de Young, San Francisco, September 30, 2017–February 11, 2018 Los Angeles County Museum of Art (LACMA), March–June 2018

Visual Culture of the Ancient Americas Andrew Finegold, Ellen Hoobler, 2017-01-26 In the past fifty years, the study of indigenous and pre-Columbian art has evolved from a groundbreaking area of inquiry in the mid-1960s to an established field of research. This period also spans the career of art historian Esther Pasztory. Few scholars have made such a broad and lasting impact as Pasztory, both in terms of our understanding of specific facets of ancient American art as well as in our appreciation of the evolving analytical tendencies related to the broader field of study as it developed and matured. The essays collected in this volume reflect scholarly rigor and new perspectives on ancient American art and are contributed by many of Pasztory’s former students and colleagues. A testament to

the sheer breadth of Pasztory's accomplishments, *Visual Culture of the Ancient Americas* covers a wide range of topics, from Aztec picture-writing to nineteenth-century European scientific illustration of Andean sites in Peru. The essays, written by both established and rising scholars from across the field, focus on three areas: the ancient Andes, including its representation by European explorers and scholars of the nineteenth century; Classic period Mesoamerica and its uses within the cultural heritage debate of the twentieth and twenty-first centuries; and Postclassic Mesoamerica, particularly the deeper and heretofore often hidden meanings of its cultural production. Figures, maps, and color plates demonstrate the vibrancy and continued allure of indigenous artworks from the ancient Americas. "Pre-Columbian art can give more," Pasztory declares, and the scholars featured here make a compelling case for its incorporation into art theory as a whole. The result is a collection of essays that celebrates Pasztory's central role in the development of the field of Ancient American visual studies, even as it looks toward the future of the discipline.

Away the Storm Luis González, 2000-07

Vital Voids Andrew Finegold, 2021-05-11 The Resurrection Plate, a Late Classic Maya dish, is decorated with an arresting scene. The Maize God, assisted by two other deities, emerges reborn from a turtle shell. At the center of the plate, in the middle of the god's body and aligned with the point of emergence, there is a curious sight: a small, neatly drilled hole. Art historian Andrew Finegold explores the meanings attributed to this and other holes in Mesoamerican material culture, arguing that such spaces were broadly understood as conduits of vital forces and material abundance, prerequisites for the

emergence of life. Beginning with, and repeatedly returning to, the Resurrection Plate, this study explores the generative potential attributed to a wide variety of cavities and holes in Mesoamerica, ranging from the perforated dishes placed in Classic Maya burials, to caves and architectural voids, to the piercing of human flesh. Holes are also discussed in relation to fire, based on the common means through which both were produced: drilling. Ultimately, by attending to what is not there, *Vital Voids* offers a fascinating approach to Mesoamerican cosmology and material culture.

The Art of Cooking, Pie Making, Pastry Making, and Preserving Francisco Martínez Montañó, 2023-12-18
In 1611 Francisco Martínez Montañó, chef to Philip II, Philip III, and Philip IV of Spain, published what would become the most recognized Spanish cookbook for centuries: *Arte de cocina, pastelería, vizcochería y conservería*. This first English translation of *The Art of Cooking, Pie Making, Pastry Making, and Preserving* will delight and surprise readers with the rich array of ingredients and techniques found in the early modern kitchen. Based on her substantial research and hands-on experimentation, Carolyn A. Nadeau reveals how early cookbooks were organized and read and presents an in-depth analysis of the ingredients featured in the book. She also introduces Martínez Montañó and his contributions to culinary history, and provides an assessment of taste at court and an explanation of regional, ethnic, and international foodstuffs and recipes. The 506 recipes and treatises reproduced in *The Art of Cooking, Pie Making, Pastry Making, and Preserving* outline everything from rules for kitchen cleanliness to abstinence foods to seasonal banquet menus, providing insight into why this cookbook, penned by the chef of kings, stayed in

production for centuries.

Storm Over Ibiza Roleine, Roberta, 1980

La Tormenta Vera Colon, 2018-05-13 As the unprecedented category 5 storm, Hurricane Isaac, barrels across towards the Sunshine State, storm clouds of another kind roil beneath the roof of the Tenorio home. Philandering husband, Vicente Tenorio, surprises his wife by arriving home with his mistress and their children in tow to ride out the dangerous storm. Mariangela Tenorio knew about the affair, of course, but looked the other way like a good wife. Her mother insists it's her penance for getting knocked up and married instead of finishing high school but residing under the same roof as the other woman? If puerca de Juan Bobo is still alive at the end of their 72 hours together, Mari will write the Vatican personally to demand sainthood! Alexis Tenorio knows about the affair as well. Hell, the blind, deaf and dead would know about it with all the yelling and tears in that house and the youngest daughter can't move out fast enough! But the teen is full of her own secrets with no one to confide in. Retiring freelance photographer and eldest brother, Efraim Tenorio, also has a secret or two he hasn't divulged to the family but the powder keg atmosphere of the household may finally make him crack. The entire situation is news to Dr. Sandra Tenorio, accomplished but still single NY doctor who discovers while visiting for Abuela's 85th birthday that she's been drummed out of the family as penalty for focusing on her career and wonders what happened to the loving, close-knit family she grew up with. When Isaac finally dies down, will the devastation be worst inside the house or outside?
