The Greatest Company in the World? Peter Casey, 2014-08-01 There is simply no other major business like the Tata Group—a company whose bottom line is doing the right thing for society. How did Tata transform itself from a family-owned business to one of the most professionally managed enterprises in the world? How did it become a world leader in an array of unrelated businesses—from steel and automobile manufacturing to hotels and IT consulting? What exactly is the ‘Tata Way’, which has earned it so much admiration and respect? This brief history of the Tatas charts the contribution of every Tata chairman—from Jamsetji Tata, who set up the company in 1868, to Ratan Tata and Cyrus Mistry—and explores the values at the heart of the Tata Group, as well as the role played in its development by the philanthropic trusts that own two-thirds of the company. For anyone curious about this Indian company that has become a leading global player, this book is the perfect introduction.

I Came Upon a Lighthouse Shantanu Naidu,2021-01-11 An endearing portrait of an Indian legend I told him that when I write a book, I would write about another side of him and not just historic events or business milestones. I would write about us and our adventures together, and how I saw him, colours and shades of him unknown to the world. Life beyond the great steel wall of 'industry doyen'. He agreed. 'There cannot be one book that captures everything ... So you do your thing, give your perspective.' It was their shared empathy for homeless dogs that sparked an unlikely friendship. In 2014, Shantanu Naidu, an automobile design engineer in his early twenties, developed an innovation to save the local strays from being run over by speeding cars. Ratan Tata, himself known for his compassion for stray dogs, took note. Impressed, he not only decided to invest in the venture, but over the years became a mentor, boss and an unexpectedly dear friend to Shantanu. *I Came Upon a Lighthouse* is an honest, light-hearted telling of this uncommon bond between a millennial and an octogenarian that gives glimpses of a beloved Indian icon in a warm light.

The Creation of Wealth R M Lala,2017-10-25 When Jamsetji Tat started a trading firm in 1868, few could have guessed that he was also starting an important chapter in the making of modern India. Jamsetji saw that the three keys to India's industrial development were steel, hydroelectric power, and technical education and research. A century and a half later, the Tatas can claim with justice to have lined up to the vision of their founder. This

edition includes the story of how the Tatas, with Ratan Tata at the helm, have had to grapple with change in the post-1992 era of economic reforms, when the opening up of India to the world came as both a challenge and a blessing. In a frank epilogue, Ratan Tata talks about the difficulties he faced in implementing change, including resistance from his colleagues. This new edition also has a postscript on the Nano, which has given the most global prominence to the Tata brand. The Creation of Wealth is R.M. Lala's bestselling account of how the Tatas have been at the forefront in the making of the Indian nation-not just by their phenomenal achievements as industrialists and entrepreneurs but also by their significant contributions in areas like factory reforms, labour and social welfare, medical research, higher education, culture and arts, and rural development.

The Story of TATA Peter Casey, 2021-08-23 In 1868, Jamsetji Tata, a visionary of his time, lit the flame that went on to become Tata and its group of companies. This business grew into an extraordinary one. One that some may even call 'the greatest company in the world'. Over the decades, the business expanded and prospered under the leadership of the various keepers of the flame, such as Sir Dorabji Tata, J.R.D Tata and Ratan Tata, to name a few. But, one day, the headlines boldly declared that the chairman of the board of Tata Sons, Cyrus Mistry, had been fired. What went wrong? In this exclusive and authorized book, insiders of the Tata businesses open up to Peter Casey for the first time to tell the story. From its humble beginnings

as a mercantile company to its growth as a successful yet philanthropic organization to its recent brush with Mistry, this is a book that every business-minded individual must read.

The Tata Saga is a collection of handpicked stories published on India's most iconic business group. The Tatas Girish Kuber, 2019-03-25 | WINNER OF THE GAJA CAPITAL BUSINESS BOOK PRIZE 2019 | The nineteenth century was an exciting time of initiative and enterprise around the world. If John D. Rockefeller was creating unimagined wealth in the United States that he would put to the service of the nation, a Parsi family with humble roots was doing the same in India. In 1822, a boy was born in a priestly household in Gujarat's Navsari village.

Young Nusserwanji knew early on that his destiny lay beyond his village and decided to head for Bombay to start a business - the first in his family to do so. He had neither higher education nor knowledge of business matters, just a burning passion to carve a path of his own. What Nusserwanji started as a cotton trading venture, his son Jamsetji, born in the same year as Rockefeller, grew into a multifaceted business, turning around sick textile mills, setting up an iron and steel company, envisioning a cutting-edge institute of higher learning, building a world-class hotel, and earning himself the title of the 'Bhishma Pitamah of Indian Industry'. Stewarded ably over the decades by Jamsetji's sons Dorabji and Ratanji, the charismatic and larger-than-life JRD, and thereafter the more business-like Ratan, the Tata group today is a 110-billion-dollar empire. The Tatas is their story. But it is more than just a history of the industrial house; it is an inspiring account of India in the making. It chronicles how each generation of the family invested not only in the expansion of its own business interests but also in nation building. Few know, for instance, that the first hydel power project in the world was conceived of and built by the Tatas. Nor that some radical labour concepts such as eight-hour work shifts were born in India, at the Tata mill in Nagpur. The Tata Cancer Research Centre, the Indian Institute of Science, the Tata Institute of Fundamental Research, as also the national carrier Air India - the family has a long, rich and unrivalled legacy. The Tatas is a tribute to a line of visionaries who have a special

place in the hearts and minds of ordinary Indians. Written by seasoned journalist Girish Kuber, this is also the only book that tells the complete Tata story spanning almost two hundred years.

#Tatastories Harish Bhat,2021-06-14 A diamond twice as large as the famous Kohinoor pledged to survive a financial crisis; meeting a 'relatively unknown young monk' who later went on to be known as Swami Vivekananda; a photograph that Kalpana Chawla carried along with her on her first mission into space; the fascinating story of the first-ever Indian team at the Olympics; how 'OK TATA' made its way to the back of millions of trucks on the Indian highways, and many more. #Tatastories is a collection of little-known tales of individuals, events and places from the Tata Group that have shaped the India we live in today.

Scent Upon a Southern Breeze Kavita Singh, 2018 The arts of the Deccan remained understudied for a long while, possibly due to their complex and hybrid nature. This was a coveted region, and many powers fought over its control. What survives of its turbulent history allows us to reconstruct only a fragmentary record of what might have been made in the Deccan. Even in what remains, it is not always easy to put one's finger on what is Deccani in Deccani art. Now, in the wake of global art history and its interest in travelling objects and hybridity, Deccani art is increasingly coming into focus. Scholars are bringing new insights to Deccani objects that bear the marks of mixed styles, trade, and even damage and reconstitution. Drawing from and going beyond the landmark 2015 symposium and exhibition *Nauras: The Many Arts of the Deccan* held at the National Museum, New Delhi, the essays in this volume explore the sense of wonder, 'aja'ib, that permeated textile design, manuscript illustration and perfume production in the Deccan. Through *Ragamala* paintings and treatises on magic, perfumery texts and garden architecture, exquisite bidri ware and kalamkaris, the volume shows the way objects and texts can yield an understanding of how beauty was experienced in the past not just through visual means but through sound and smell as well.

The book breaks new ground for a sensory turn in Indian art history. Visual objects become crucibles for synaesthetic experiences, as we look upon them with new eyes, or with more than eyes.--Publisher.

Tata Mircea Raianu, 2021-07-06 An eye-opening portrait of global capitalism spanning 150 years, told through the history of the Tata corporation. Nearly

a century old, the grand facade of Bombay House is hard to miss in the historic business district of Mumbai. This is the iconic global headquarters of the Tata Group, a multinational corporation that produces everything from salt to software. After getting their start in the cotton and opium trades, the Tatas, a Parsi family from Navsari, Gujarat, ascended to commanding heights in the Indian economy by the time of independence in 1947. Over the course of its 150-year history Tata spun textiles, forged steel, generated hydroelectric power, and took to the skies. It also faced challenges from restive workers fighting for their rights and political leaders who sought to curb its power. In this sweeping history, Mircea Raianu tracks the fortunes of a family-run business that was born during the high noon of the British Empire and went on to capture the world's attention with the headline-making acquisition of luxury car manufacturer Jaguar Land Rover. The growth of Tata was a complex process shaped by world historical forces: the eclipse of imperial free trade, the intertwined rise of nationalism and the developmental state, and finally the return of globalization and market liberalization. Today Tata is the leading light of one of the world's major economies, selling steel, chemicals, food, financial services, and nearly everything else, while operating philanthropic institutions that channel expert knowledge in fields such as engineering and medicine. Based on painstaking research in the company's archive, Tata elucidates how a titan of industry was created and what lessons its story may hold for the future of

global capitalism.
