The Soccer Academy: 100 Defending Practices and Small Sided Games Michael Beale, 2007-03-07 Make Defending Fun! For too long, defending practice has been presented by coaches and received by players as a necessary evil, filled with unimaginative drills that provide players with little or no reward for getting it right. This book contains 100 exercises and small sided games designed to inspire players to become better defenders both tactically and technically in a fun and competitive training environment. The games are set up to re-create the unpredictability of actual match play, with no long queues or endless repetitions. Because of this, players are more involved in the practice and are thus learning how to play the game and developing the skills to deal with the ever-evolving situations on the pitch.

Pervasive Advertising Jörg Müller, Florian Alt, Daniel Michelis, 2011-09-21 This book looks at the future of advertising from the perspective of pervasive computing. Pervasive computing encompasses the integration of computers into everyday devices, like the covering of surfaces with interactive displays and networked mobile phones. Advertising is the communication of sponsored messages to inform, convince, and persuade to buy. We

believe that our future cities will be digital, giving us instant access to any information we need everywhere, like at bus stops, on the sidewalk, inside the subway and in shopping malls. We will be able to play with and change the appearance of our cities effortlessly, like making flowers grow along a building wall or changing the colour of the street we are in. Like the internet as we know it, this digitalization will be paid for by adverts, which unobtrusively provide us suggestions for nearby restaurants or cafés. If any content annoys us, we will be able to effortlessly say so and change it with simple gestures, and content providers and advertisers will know what we like and be able to act accordingly. This book presents the technological foundations to make this vision a reality.

Livius Andronicus, Naevius, Pacuvius and Accius Eric Herbert Warmington, 1979
Extant early Latin writings from the seventh or sixth to the first century BCE include epic, drama, satire, translation and paraphrase, hymns, stage history and practice, and other works by Ennius, Caecilius, Livius Andronicus, Naevius, Pacuvius, Accius, Lucilius, and other anonymous authors; the Twelve Tables of Roman law; archaic inscriptions.

A Design Space for Pervasive Advertising on Public Displays Florian Alt, 2013-03-01
Today, people living in cities see up to 5000 ads per day, many on public displays. More and more of these public displays are networked and equipped with sensors, making them part of a global infrastructure that is currently emerging. Such displays provide the opportunity to create a benefit for society in the form of immersive experiences and relevant content. In this way, they can overcome the display blindness that evolved over the years. Two main reasons prevent this vision from coming true: first, public displays are stuck with traditional advertising as the driving business model.

Second, no common ground exists for researchers or advertisers that outline important challenges. The main contribution of this thesis is presenting a design space for advertising on public displays that identifies important challenges - mainly from an HCI perspective. The results are envisioned to provide a basis for future research and for practitioners to shape future advertisements on public displays in a positive way.

Science Of Speech Dada Bhagwan, 2021-04-01 Those seeking to lead a spiritual life may naturally become inspired to live in peace and non violence. To learn spiritual practices to develop these values, one may turn to spiritual teachers, to different types of religion, or to different types of yoga. But beginning to cultivate spiritual awareness is not always as simple as it seems – especially in family relationships, in unhealthy relationships, or while dealing with difficult people. Daily interactions such as these may feel like the very definition of conflict! In the book “Science Of Speech”, Gnani Purush (embodiment of Self knowledge) Dada Bhagwan offers key understanding about non violent communication, along with conflict resolution skills and conflict management strategies. His spiritual teaching on how to resolve conflict - or to avoid it altogether - is offered in the context of common and everyday relationship challenges. Among the myriad of spiritual books available today, “Science Of Speech” is a unique resource. Whether wondering how to become more spiritual, or simply how to deal with negative people and difficult people, this book will prove invaluable.

Winning Ways through Corporate Governance Neville Bain, David Band, 2016-07-27
The motivation for writing this book is the authors' deeply held conviction that good

governance is an essential element for any organisation that wishes to maximise its effectiveness. They are not alone in observing that in many cases companies or other organisations that perform badly are often poorly governed. Indeed, the key explanation for poor performance is often poor governance. This observation is not limited geographically and there are many examples from around the world. Concern with good governance is not just limited to the free enterprise system. It is universal.
