What Stands in a Storm Kim Cross, Kimberly Hisako Cross, 2015-03-10 Immersive reporting and dramatic storytelling from the middle of the horrific superstorm of April 2011, a weather event that killed 348 people--Provided by publisher.

What Stands in a Storm Kim Cross, 2016-03 Enter the eye of the storm in this gripping real-life thriller—A Perfect Storm on land—that chronicles America's biggest tornado outbreak since the beginning of recorded weather: a horrific three-day superstorm with 358 separate tornadoes touching down in twenty-one states and destroying entire towns. April 27, 2011 was the climax of a three-day superstorm that unleashed terror from Arkansas to New York. Entire communities were flattened, whole neighborhoods erased. Tornadoes left scars across the land so wide they could be seen from space. But from terrible destruction emerged everyday heroes—neighbors and strangers who rescued each other from hell on earth. “Armchair storm chasers will find much to savor in this grippingly detailed, real-time chronicle of nature gone awry” (Kirkus Reviews) set in Alabama, the heart of Dixie Alley where there are more tornado fatalities than anywhere else in the US. With powerful emotion and captivating detail, journalist Kim Cross expertly weaves together science and heartrending human stories. For some, it's a story of survival; for others it's the story of their last hours. Cross's immersive reporting and dramatic storytelling catapult you to the center of the very worst hit areas, where thousands of ordinary people witnessed the sky falling around them. Yet from the disaster rises a redemptive message that's just as real: in times of trouble, the things that tear our world apart reveal what holds us together.

The Storm Elizabeth Darwall,1810

The Great Storm Lisa Waller Rogers,2002 A teenage boy keeps a diary of events during the devastating hurricane which struck Galveston, Texas, in 1900, and of the rescue operations that followed.

The Perfect Storm Sebastian Junger,1998 The perfect storm was a once-in-a-hundred-years combination: a high-pressure system from the Great Lakes running into storm winds over an Atlantic island - Sable Island - and colliding with a weather system from the Caribbean - Hurricane Grace. This is the story of that storm, told through the accounts of fishermen at sea caught up in the maelstrom, of their families waiting anxiously for news, and of the rescue services.

Storm Surge John F. Banas,2021-06-16 All is not what it seems. A lot can happen to a person in a Disaster Area... Brenda Meyers is having a bad day. Her daughter is trapped somewhere in New Orleans right before Hurricane Katrina strikes. Her increasingly estranged husband may be on the verge of losing yet another job. To top it all off, her cheating former fiancé is claiming to have evidence that his wife and Brenda's husband are having an affair. But nothing matters more than finding and rescuing her daughter. Brenda insists that a rescue mission can be made before the storm hits. Her husband isn't so keen on the idea – he's heard that the city may flood, making the rescue even harder. So, when her former fiancé

offers his boat and his help, Brenda reluctantly accepts, knowing full well that her husband and Ex cannot get along. Her worries prove correct; while racing the raging storm, she uncovers a fiendish plot to murder her well insured husband - who happens to harbor secrets of his own. Will she be able to survive the ravages of Katrina, find her daughter, and prevent a professional hit without painting a target on her own back?

November's Fury Michael Schumacher, 2013-11-01 On Thursday, November 6, the Detroit News forecasted “moderate to brisk” winds for the Great Lakes. On Friday, the Port Huron Times-Herald predicted a “moderately severe” storm. Hourly the warnings became more and more dire. Weather forecasting was in its infancy, however, and radio communication was not much better; by the time it became clear that a freshwater hurricane of epic proportions was developing, the storm was well on its way to becoming the deadliest in Great Lakes maritime history. The ultimate story of man versus nature, *November's Fury* recounts the dramatic events that unfolded over those four days in 1913, as captains eager—or at times forced—to finish the season tried to outrun the massive storm that sank, stranded, or demolished dozens of boats and claimed the lives of more than 250 sailors. This is an account of incredible seamanship under impossible conditions, of inexplicable blunders, heroic rescue efforts, and the sad aftermath of recovering bodies washed ashore and paying tribute to those lost at sea. It is a tragedy made all the more real by the voices of men—now long deceased—who sailed through and survived the storm, and by a remarkable array of photographs documenting the phenomenal damage this not-so-perfect storm wreaked. The consummate storyteller of Great Lakes lore, Michael Schumacher at long last brings this

violent storm to terrifying life, from its first stirrings through its slow-mounting destructive fury to its profound aftereffects, many still felt to this day.

To Frighten a Storm Gladys Cardiff, 1976

Blizzard!! the Great White Hurricane Timothy Minnich, 2019-12-30 THE BLIZZARD OF 1888, legendary in the annals of American weather history, was among the most ferocious winter storms ever to pound the Northeast. Many hundreds of people perished on land and sea during its three-day reign of terror, including some 200 in New York City alone - ground-zero for this storm. In his debut novel, Tim Minnich paints a vibrant New York City landscape in the weeks leading up to what has been coined The Great White Hurricane. Bound to fascinate weather enthusiasts, history buffs, and general readers alike, Minnich captures the suspense which culminates in this awesome display of nature, all while vividly depicting life in late Nineteenth Century Manhattan. On Sunday evening March 11th, the denizens of this great metropolis go to sleep completely unaware they'd be awakening to a howling blizzard. All except for young William Roebling, a brilliant meteorologist recently transferred to the New York Office of the US Army's fledgling Signal Service Corps - the agency responsible for the nation's first weather forecasts. Will has painstakingly developed an ingenious system allowing him to predict this historic event days in advance, but his unconvinced Commanding Officer, for political reasons, orders his silence. A conflicted Will feels he must alert his loved ones, and does - only to find himself in a battle for his life at the height of the storm. Minnich deftly combines the drama and excitement of the blizzard with its profound impact on those unfortunate enough to have been caught in its path, simultaneously weaving an engaging tale of true

love, faith, and the indomitable human spirit.

The Lost Feather Janice Snyder, 2019-09-24 There was a huge wind storm, and the white, soft feather fell on the ground. He looked up, he looked down, he looked sideways, and he did not recognize anything. He felt sad and lost. He asked himself, "Where am I?" So he proudly lifted up his chin, and said to himself loudly, "I will go on a journey and find where I belong." And off went the lost feather.

The Storm Frederick Buechner, 1999 Kenzie Maxwell is a charismatic figure who enjoys an opulent life with his third wife but muses daily on the sins of his past. As a volunteer at a runaway shelter, he fell in love with a young girl who died while giving birth to his daughter.
