The Empire Strikes Back? Andrew S. Thompson,2014-09-11 'The Empire Strikes Back' will inject the empire back into the domestic history of modern Britain. In the nineteenth century and for much of the twentieth century, Britain's empire was so large that it was truly the global superpower. Much of Africa, Asia and America had been subsumed. Britannia's tentacles had stretched both wide and deep. Culture, Religion, Health, Sexuality, Law and Order were all impacted in the dominated countries. 'The Empire Strikes Back' shows how the dependent states were subsumed and then hit back, affecting in turn England itself.

Sorting Things Out Geoffrey C. Bowker, Susan Leigh Star, 2000-08-25 A revealing and surprising look at how classification systems can shape both worldviews and social interactions. What do a seventeenth-century mortality table (whose causes of death include fainted in a bath, frightened, and itch); the identification of South Africans during apartheid as European, Asian, colored, or black; and the separation of machine- from hand-washables have in common? All are examples of classification—the scaffolding of information infrastructures. In *Sorting Things Out*, Geoffrey C. Bowker and Susan Leigh Star explore the role of categories and standards in shaping the modern world. In a clear and lively style, they investigate a variety of classification systems, including the International Classification of Diseases, the Nursing Interventions Classification, race classification under apartheid in South Africa, and the classification of viruses and of tuberculosis. The authors emphasize the role of invisibility in the process by which classification orders human interaction. They examine how categories are made and kept invisible, and how people can change this invisibility when necessary. They also explore systems of classification as part of the built information environment. Much as an urban historian would review highway permits and zoning decisions to tell a city's story, the authors review archives of classification design to understand how decisions have been made. *Sorting Things Out* has a moral agenda, for each standard and category valorizes some point of view and silences another. Standards and classifications produce advantage or suffering. Jobs are made and lost; some regions benefit at the expense of others. How these choices are made and how we think about that process are at the moral and political core of this work. The book is an important empirical source for understanding the building of information infrastructures.

The Empire Strikes Back Rebecca Harrison,2020-10-29 The Empire Strikes Back (1980), the second film in the original Star Wars trilogy, is often cited as the 'best' and most popular Star Wars movie. In her compelling study, Rebecca Harrison draws on previously unpublished archival research to reveal a variety of original and often surprising perspectives on the film, from the cast and crew who worked on its production through to the audiences who watched it in cinemas. Harrison guides readers on a journey that begins with the film's production in 1979 and ends with a discussion about its contemporary status as an object of reverence and nostalgia. She demonstrates how Empire's meaning and significance has continually shifted over the past 40 years not only within the franchise, but also in broader conversations about film authorship, genre, and identity. Offering new insights and original analysis of Empire via its cultural context, production history, textual analysis, exhibition, reception, and post-1980 re-evaluations of the film, the book provides a timely and relevant reassessment of this enduringly popular film.

Star Wars Josef Benson,2020-11-12 Star Wars: The Triumph of Nerd Culture engagingly reveals how the most popular film franchise of all time sprang from the mind of a deeply insecure nerd, who then inspired and betrayed a generation of fans. In Star Wars: The Triumph of Nerd Culture, Josef Benson offers an unauthorized and provocative expose of the most popular film franchise of all time. Fueled by George Lucas's insecurities and a fervent fan-base who felt betrayed when Lucas defiled the original films, Benson presents the conflict between Lucas and Star Wars fans as comparable to the twisted relationship between Darth Vader and Luke Skywalker. Just as there is a riveting saga within the Star Wars universe that centers on the rise and fall of Anakin Skywalker and the redemption of Darth Vader, so too has a saga unfolded in relation to George Lucas and Star Wars fandom. Star Wars fans both love and hate Star Wars and George Lucas. He is equally responsible for their pleasure and pain. Star Wars:The Triumph of Nerd Culture delves deeper into the Star Wars universe than any book has gone before, including an illuminating look into why Lucas sold Lucasfilm to the Disney Corporation and how the sale affected the franchise. After reading this book, fans will never be able to watch Star Wars in the same way again.

Geek Elders Speak: In Our Own Voices Maggie Nowakowska,Jenni Hennig,2021-02-22 An anthology of essays and interviews exploring the undeniable history of women creators in Science Fiction/Fantasy & Media fandom during the latter half of the 20th century. These women were writers. Artists. Costumers. Editors. Gamers. Scientists. Housewives. Despite the odds, they claimed their own voices and creative power, through the years and in their own terms. Each woman's experience is personal and evocative, told in their own voices and each with their own story.

Doing Criticism James Chandler,2022-03-29 Not only an accessible hands-on guide to writing criticism across the literary arts, the dramatic arts, and the narrative screen arts, but also a book that makes a case for how and why criticism matters today *Doing Criticism: Across Literary and Screen Arts* is a practical guide to engaging actively and productively with a critical object, whether a film, a novel, or a play. Going beyond the study of lyric poetry and literature to include motion picture and dramatic arts, this unique text provides specific advice on how to best write criticism while offering concrete illustrations of what it looks like on the page. Divided into two parts, the book first presents an up-to-date account of the state of criticism in both Anglo-American and Continental contexts—describing both the longstanding mission and the changing functions of criticism over the centuries and discussing critical issues that bridge the literary and screen arts in the contemporary world. The second part of the book features a variety of case studies of criticism across media, including works by canonical authors such as Jane Austen, Charles Dickens, and W. B. Yeats; films such as Coppola's *The Conversation* and Hitchcock's *Vertigo*; screen adaptations of Mary Shelley's *Frankenstein* and Ishiguro's *The Remains of the Day*; and a concluding chapter on several of Spike Lee's film joints that brings several of the book's central concepts to bear on work of a single film auteur. Helping students of literature and cinema write well about what they find in their reading and viewing, *Doing Criticism: Across Literary and Screen Arts*: Discusses how the bridging of the literary arts and screen arts can help criticism flourish in the present day Illustrates how the doing of criticism is in practice a particular kind of writing Considers how to generalize the consequences of criticism beyond personal growth and gratification Addresses the ways the practice of criticism matters to the practice of the critical object Suggests that doing without criticism is not only unwise, but also perhaps impossible Features case studies organized under the rubrics of conversation, adaptation, genre, authorship and seriality *Doing Criticism: Across Literary and Screen Arts* is an ideal text for students in introductory courses in criticism, literary studies, and film studies, as well as general readers with interest in the subject.

Luke Skywalker Can't Read Ryan Britt,2015-11-24 The perfect gift for anyone who embraces the joy of fandom and geeking out, this collection of essays celebrates the fans of Star Wars, Star Trek, Doctor Who, Sherlock Holmes, Lord of the Rings, and much more. Pop Culture and sci-fi guru Ryan Britt has never met a monster, alien, wizard, or superhero that didn't need further analysis. Essayist Ryan Britt got a sex education from dirty pictures of dinosaurs, made out with Jar-Jar Binks at midnight, and figured out how to kick depression with a Doctor Who Netflix-binge. Alternating between personal anecdote, hilarious insight, and smart analysis, *Luke Skywalker Can't Read* contends that *Barbarella* is good for you, that monster movies are just romantic comedies with commitment issues, that *Dracula* and *Sherlock Holmes* are total hipsters, and, most shockingly, shows how virtually

everyone in the Star Wars universe is functionally illiterate. Romp through time and space, from the circus sideshows of 100 years ago to the Comic Cons of today, from darkest corners of the Galaxy to the comfort of your couch. For anyone who pretended their flashlight was a lightsaber, stood in line for a movie at midnight, or dreamed they were abducted by aliens, Luke Skywalker Can't Read is full of answers to questions you haven't thought to ask, and perfect for readers of Chuck Klosterman, Rob Sheffield, and Ernest Cline. "Ryan Britt is . . . the Virgil you want to guide you through the inferno of geekery." —Lev Grossman, author of the bestselling Magician's trilogy

The Sci-Fi Movie Guide Chris Barsanti,2014-09-22 Once upon a time, science fiction was only in the future. It was the stuff of drive-ins and cheap double-bills. Then, with the ever-increasing rush of new, society-altering technologies, science fiction pushed its way to the present, and it busted out of the genre ghetto of science fiction and barged its way into the mainstream. What used to be mere fantasy (trips to the moon? Wristwatch radios? Supercomputers capable of learning?) are now everyday reality. Whether nostalgic for the future or fast-forwarding to the present, The Sci-Fi Movie Guide: The Universe of Film from Alien to Zardoz covers the broad and widening range of science-fiction movies. From the trashy to the epic, from the classics to today's blockbusters, this cinefile's guidebook reviews nearly 1,000 of the biggest, baddest, and brightest from every age and genre of cinematic and TV science fiction. You'll find more than just Star Wars, Star Trek, and Transformers, with reviews on many overlooked and under-appreciated gems and genres, such as ... • Monsters! Pacific Rim, Godzilla, The Thing, Creature from the Black Lagoon • Superheroes: Thor, Iron Man, X-Men, The Amazing Spider-man, Superman • Avant-garde masterpieces: Solaris, 2001, Brazil • and many, many more categories and movies!!

Private Goes Public: Self-Narrativisation in Brian Friel's Plays Gaby Frey,2015-11-25 In Brian Friel's writing, the distinction between public and private is closely linked to the concepts of home, family, identity and truth. This study examines the characters' excessive introspection and their deep-seated need to disclose their most intimate knowledge and private truths to define who they are and, thus, to oppose dominant discourse or avoid heteronomy. This study begins by investigating how a number of Anglo-Irish writers publicised their characters' private versions of truth thereby illustrating what they perceived to be the space of 'Irishness'. The book then focuses on Friel's techniques of sharing his character's private views to demonstrate how he adopted and adapted these practices in his own oeuvre. As the characters' superficial inarticulateness and their vivid inner selves are repeatedly juxtaposed in Friel's texts, his oeuvre, quintessentially, displays a great unease with the concepts of communication and absolute truth.
