Tall Men, Short Shorts Leigh Montville, 2022-05-24 This part memoir, part sports story (Wall Street Journal) from the New York Times bestselling author of *The Big Bam* chronicles the clash of NBA titans over seven riveting games—Celtics versus Lakers, Russell versus Chamberlain—covered by one young reporter. Welcome to the 1969 NBA Finals! They don't set up any better than this. The greatest basketball player of all time - Bill Russell - and his juggernaut Boston Celtics, winners of ten (ten!) of the previous twelve NBA championships, squeak through one more playoff run and land in the Finals again. Russell's opponent? The fearsome 7'1" next-generation superstar, Wilt Chamberlain, recently traded to the LA Lakers to form the league's first dream team. Bill Russell and John Havlicek versus Chamberlain, Jerry West and Elgin Baylor. The 1969 Celtics are at the end of their dominance. The 1969 Lakers are unstoppable. Add to the mix one newly minted reporter. Covering the epic series is a wide-eyed young sports writer named Leigh Montville. Years before becoming an award-winning legend himself at *The Boston Globe* and *Sports Illustrated*, twenty-four-year-old Montville is ordered by his editor at the *Globe* to get on a plane to L.A. (first time!) to write about his luminous heroes, the biggest of big men. What follows is a raucous, colorful, joyous account of one of the greatest seven-game series in NBA history. Set against a backdrop of the late sixties, Montville's reporting and recollections transport readers to a singular time – with rampant racial tension on the streets and on the court, with the emergence of a still relatively small league on its way to becoming a billion-dollar industry, and to an era when newspaper journalism and the written word served as the crucial lifeline between sports and sports fans. And there was basketball – seven breathtaking, see-saw games, highlight-reel moments from an unprecedented cast of future Hall of Famers (including player-coach Russell as the first-ever black head coach in the NBA), coast-to-coast travels and the clack-clack-clack of typewriter keys racing against tight deadlines. *Tall Men, Short Shorts* is a masterpiece of sports journalism with a charming touch of personal memoir. Leigh Montville has crafted his most entertaining book yet, richly enshrining luminous players and moments in a unique American time.

Athletic Shorts Chris Crutcher, 2009-09-22 These six powerful short stories chronicle bits of the lives of characters, major and minor, who have walked the rugged terrain of Chris Crutcher's earlier works. They also introduce some new and unforgettable personalities who may well be heard from again in future books. As with all Crutcher's work, these are stories about athletes, and yet they are not sport stories. They are tales of love and death, bigotry and heroism, of real people doing their best even when that best isn't very good. Crutcher's straightforward style and total honesty have earned him an admiring audience and made readers of many nonreaders.

ALL GOOD MEN: Party conference time - and the sudden death of the prime minister triggers a power struggle as young speech-writer Simon goes to war with ambitious minister Darius and sexy, ruthless power-broker Lady Bridgewater. LUVVIES: A failed playwright and a bit-part actress invite a young couple home for heavy drinking and

As Julia becomes friendly with the poised and wise Olive—one of the adults with dwarfism who've joined the production's motley crew of Munchkins—and with her deeply artistic neighbor, Mrs. Chang, Julia's own sense of self as an artist grows. Now, in *Life Is Short—Wear Your Party Pants*, she gives you the tools you need to not only reduce feelings of tension, but also to bring joy, passion, and gusto into your life. Her techniques are a brilliant blend of old-world common sense and the most contemporary research in brain chemistry, psychology, and mind-body studies. Loretta gives you dozens of proven techniques for recognizing the ten simple truths that will lead you to an intense, happy, successful life: resilience, living in the moment, optimism, acceptance, humor, creativity, moderation, responsibility, meaning, and connection. Loretta's wisdom evolved from her own life—one filled with the demands of being a single mother of three; of starting her own business when she was broke; and of the wacky invasiveness of her Italian family. She's like all of us: real, flawed, stressed out, and on edge. Her magic comes from an ability to not take herself too seriously, and to always shift her focus away from the self-destructive and toward the truly important things in life. In her work, Loretta has seen tens of thousands of people who live their lives as if they're sitting in a waiting room, hoping that their turn comes up next. This book will show you that life is not something to be endured, but is something to be truly appreciated. We need to remember how to access our inner abundance, which allows us to be heart-centered, joy-filled human beings. As Loretta says: Yesterday is history, tomorrow is a mystery, and today is a gift—that's why they call it the present.

Everybody Matters Bob Chapman,Raj Sisodia,Rajendra Sisodia,2015-10-06 “Bob Chapman, CEO of the \$1.7 billion manufacturing company Barry-Wehmiller, is on a mission to change the way businesses treat their employees.” – Inc. Magazine Starting in 1997, Bob Chapman and Barry-Wehmiller have pioneered a dramatically different approach to leadership that creates off-the-charts morale, loyalty, creativity, and business performance. The company utterly rejects the idea that employees are simply functions, to be moved around, managed with carrots and sticks, or discarded at will. Instead, Barry-Wehmiller manifests the reality that every single person matters, just like in a family. That’s not a cliché on a mission statement; it’s the bedrock of the company’s success. During tough times a family pulls together, makes sacrifices together, and endures short-term pain together. If a parent loses his or her job, a family doesn’t lay off one of the kids. That’s the approach Barry-Wehmiller took when the Great Recession caused revenue to plunge for more than a year. Instead of mass layoffs, they found creative and caring ways to cut costs, such as asking team members to take a month of unpaid leave. As a result, Barry-Wehmiller emerged from the downturn with higher employee morale than ever before. It’s natural to be skeptical when you first hear about this approach. Every time Barry-Wehmiller acquires a company that relied on traditional management practices, the new team members are skeptical too. But they soon learn what it’s like to work at an exceptional workplace where the goal is for everyone to feel trusted and cared for—and where it’s expected that they will justify that trust by caring for each other and putting the common good first. Chapman and coauthor Raj Sisodia show how any organization can reject the traumatic consequences of rolling layoffs, dehumanizing rules, and hypercompetitive cultures. Once you stop treating people like functions or costs, disengaged workers begin to share their gifts and talents toward a shared future. Uninspired workers stop feeling that their jobs have no meaning. Frustrated workers stop taking their bad days out on their spouses and kids. And everyone stops counting the minutes until it’s time to go home. This book chronicles Chapman’s journey to find his true calling, going behind the scenes as his team tackles real-world challenges with caring, empathy, and inspiration. It also provides clear steps to transform your own workplace, whether you lead two people or two hundred thousand. While the Barry-Wehmiller way isn’t easy, it is simple. As the authors put it: Everyone wants to do better. Trust them. Leaders are everywhere. Find them. People achieve good things, big and small, every day. Celebrate them. Some people wish things were different. Listen to them. Everybody matters. Show them.

Four Thousand Weeks Oliver Burkeman,2021-08-10 AN INSTANT NEW YORK TIMES BESTSELLER Provocative and appealing . . . well worth your extremely limited time. –Barbara Spindel, The Wall Street Journal The average human lifespan is absurdly, insultingly brief. Assuming you live to be eighty, you have just over four thousand weeks. Nobody needs telling there isn’t enough time. We’re obsessed with our lengthening to-do lists, our overfilled inboxes, work-life balance, and the ceaseless battle against distraction; and we’re deluged with advice on becoming more productive and efficient, and “life hacks” to optimize our days. But such techniques often end up making things worse. The sense of anxious hurry grows more intense, and still the most meaningful parts of life seem to lie just

beyond the horizon. Still, we rarely make the connection between our daily struggles with time and the ultimate time management problem: the challenge of how best to use our four thousand weeks. Drawing on the insights of both ancient and contemporary philosophers, psychologists, and spiritual teachers, Oliver Burkeman delivers an entertaining, humorous, practical, and ultimately profound guide to time and time management. Rejecting the futile modern fixation on “getting everything done,” *Four Thousand Weeks* introduces readers to tools for constructing a meaningful life by embracing finitude, showing how many of the unhelpful ways we’ve come to think about time aren’t inescapable, unchanging truths, but choices we’ve made as individuals and as a society—and that we could do things differently.

The Long and the Short of It Andy Fawthrop, 2017-02-14 A collection of short stories which contain sudden twists and unexpected changes in directions. Drink, drugs, violence, arson, murder, suicide and revenge all feature in these troubled tales. And that's to say nothing of the problems of love, loneliness, charity, delirium and homelessness. These problems are discovered and sometimes resolved, but there is that sly element of deception in all of us at times which makes it even trickier to figure out the real truth.
