Tall Men, Short Shorts Leigh Montville,2022-05-24 This part memoir, part sports story (Wall Street Journal) from the New York Times bestselling author of The Big Bam chronicles the clash of NBA titans over seven riveting games—Celtics versus Lakers, Russell versus Chamberlain—covered by one young reporter. Welcome to the 1969 NBA Finals! They don't set up any better than this. The greatest basketball player of all time - Bill Russell - and his juggernaut Boston Celtics, winners of ten (ten!) of the previous twelve NBA championships, squeak through one more playoff run and land in the Finals again. Russell's opponent? The fearsome 7'1" next-generation superstar, Wilt Chamberlain, recently traded to the LA Lakers to form the league's first dream team. Bill Russell and John Havlicek versus Chamberlain, Jerry West and Elgin Baylor. The 1969 Celtics are at the end

of their dominance. The 1969 Lakers are unstoppable. Add to the mix one newly minted reporter. Covering the epic series is a wide-eyed young sports writer named Leigh Montville. Years before becoming an award-winning legend himself at The Boston Globe and Sports Illustrated, twenty-fouryear-old Montville is ordered by his editor at the Globe to get on a plane to L.A. (first time!) to write about his luminous heroes, the biggest of big men. What follows is a raucous, colorful, joyous account of one of the greatest seven-game series in NBA history. Set against a backdrop of the late sixties, Montville's reporting and recollections transport readers to a singular time - with rampant racial tension on the streets and on the court, with the emergence of a still relatively small league on its way to becoming a billion-dollar industry, and to an era when newspaper journalism and the written word served as the crucial lifeline between sports and sports fans. And there was basketball - seven breathtaking, see-saw games, highlight-reel moments from an unprecedented cast of future Hall of Famers (including player-coach Russell as the first-ever black head coach in the NBA), coastto-coast travels and the clack-clack of typewriter keys racing against tight deadlines. Tall Men, Short Shorts is a masterpiece of sports journalism with a charming touch of personal memoir. Leigh Montville has crafted his most entertaining book yet, richly enshrining luminous players and moments in a unique American time.

Athletic Shorts Chris Crutcher,2009-09-22 These six powerful short stories chronicle bits of the lives of characters, major and minor, who have walked the rugged terrain of Chris Crutcher's earlier works. They also introduce some new and unforgettable personalities who may well be heard from again in future books. As with all Crutcher's work, these are stories about athletes, and yet they are

not sport stories. They are tales of love and death, bigotry and heroism, of real people doing their best even when that best isn't very good. Crutcher's straightforward style and total honesty have earned him an admiring audience and made readers of many nonreaders.

Loud Sparrows Aili Mu,Julie Chiu,Howard Goldblatt,2006 If sparrows are but a metaphor, every writer faces the challenge of reality, which is to say, how one catches this sparrow. So writes Bei Dao in his preface to Loud Sparrows, a spirited collection of ninety-one short-shorts, an exciting new form of extreme short-storytelling that has swept the creative consciousness of mainland China, Hong Kong, and Taiwan. The artistic and aesthetic freedoms of short-shorts enable writers to capture the tone, texture, and chaos of their rapidly changing societies in infinitely inventive ways. Written by Chinese authors over the past three decades, the stories in this anthology are culled from

newspapers, magazines, literary journals, and personal collections, and their subjects range from humanist ideals and traditional virtues to the material benefits of a commercialized society.

Her techniques are a brilliant blend of old-world common sense and the most contemporary research in brain chemistry, psychology, and mind-body studies. Loretta gives you dozens of proven techniques for recognizing the ten simple truths that will lead you to an intense, happy, successful life: resilience, living in the moment, optimism, acceptance, humor, creativity, moderation, responsibility, meaning, and connection. She's like all of us: real, flawed, stressed out, and on edge. Her magic comes from an ability to not take herself too seriously, and to always shift her focus away from the self-destructive and toward the truly important things in life. In her work, Loretta has seen tens of thousands of people who live their lives as if they're sitting in a waiting room, hoping that their turn comes up next. This book will show you that life is not something to be endured, but is something to be truly appreciated. We need to remember how to access our inner abundance, which allows us to be heart-centered, joy-filled human beings. As

Falling Short Charles D. Ellis, Alicia H. Munnell, Andrew D. Eschtruth, 2014-12-01 The United States faces a serious retirement challenge. Many of today's workers will lack the resources to retire at traditional ages and maintain their standard of living in retirement. Solving the problem is a major challenge in today's environment in which risk and responsibility have shifted from government and employers to individuals. For this reason, Charles D. Ellis, Alicia H. Munnell, and Andrew D. Eschtruth have written this concise guide for anyone concerned about their own - and the nation's - retirement security. Falling Short is grounded in sound research yet written in a highly accessible style. The authors provide a vivid picture of the retirement crisis in America. They offer the

necessary context for understanding the nature and size of the retirement income shortfall, which is caused by both increasing income needs-due to longer lifespans and rising health costs-and decreasing support from Social Security and employer-sponsored pension plans. The solutions are to work longer and save more by building on the existing retirement system. To work longer, individuals should plan to stay in the labor force until age 70 if possible. To save more, policymakers should shore up Social Security's long-term finances; make all 401(k) plans fully automatic, with workers allowed to opt out; and ensure that everyone has access to a retirement savings plan. Individuals should also recognize that their house is a source of saving, which they can tap in retirement through downsizing or a reverse mortgage.

Four Thousand Weeks Oliver Burkeman, 2021-08-10 AN INSTANT NEW YORK TIMES BESTSELLER Provocative and appealing . . . well worth your extremely limited time. —Barbara Spindel, The Wall Street Journal The average human lifespan is absurdly, insultingly brief. Assuming you live to be eighty, you have just over four thousand weeks. Nobody needs telling there isn't enough time. We're obsessed with our lengthening to-do lists, our overfilled inboxes, work-life balance, and the ceaseless battle against distraction; and we're deluged with advice on becoming more productive and efficient, and "life hacks" to optimize our days. But such techniques often end up making things worse. The sense of anxious hurry grows more intense, and still the most meaningful parts of life seem to lie just beyond the horizon. Still, we rarely make the connection between our daily struggles with time and the ultimate time management problem: the challenge of how best to use our four thousand weeks. Drawing on the insights of both ancient and contemporary philosophers, psychologists, and spiritual teachers, Oliver Burkeman delivers an entertaining, humorous, practical, and ultimately profound guide to time and time management. Rejecting the

futile modern fixation on "getting everything done," Four Thousand Weeks introduces readers to tools for constructing a meaningful life by embracing finitude, showing how many of the unhelpful ways we've come to think about time aren't inescapable, unchanging truths, but choices we've made as individuals and as a society—and that we could do things differently.
