Language, Social Media and Ideologies Sender Dovchin,2019-08-08 This book seeks to contribute to the critical applied linguistics by investigating the dynamic role of English on social media, focusing on EFL university students in East Asia – Mongolia and Japan. Drawing on sets of Facebook data, the book primarily emphasizes that the presence of English on social media should be understood as ‘translingual’ not only due to its multiple recombinations of resources, genres, modes, styles, and repertories but also due to its direct connections with a broader socio-cultural, historical and ideological meanings. Secondly, EFL university students metalinguistically claim multiple ideologies of linguistic authenticities in terms of their usage of ‘translingual Englishes’ on social media as opposed to other colliding language ideologies such as linguistic purity and linguistic dystopia. The question of how they reclaim the notion of linguistic authenticity, however, profoundly differs, depending on their own often-diverse criteria, identities, beliefs, and ideas. This shows that mixing and mingling at its very core, the existence of ‘translingual Englishes’ on social media provides us with a significant view to accommodate the multiple co-existence and multiple origins of authenticity in the increasingly interconnected world. The book concludes the possibility of applying the ideas of ‘translingual Englishes’ on social media in critical EFL classroom settings, in their careful re-assessment of the complexity of contemporary linguistic experiences and beliefs of their EFL learners.

False Memory Dean Koontz,2012-06-26 NEW YORK TIMES BESTSELLER No fan of Dean Koontz or of psychological suspense will want to miss this extraordinary novel of the human mind’s capacity to torment—and destroy—itself. It’s a fear more paralyzing than falling. More terrifying than absolute darkness. More horrifying than anything you can imagine. It’s the one fear you cannot escape no matter where you run . . . no matter where you hide. It’s the fear of yourself. It’s real. It can happen to you. And facing it can be deadly. False Memory . . . Fear for your mind. BONUS: This edition contains an excerpt from Dean Koontz's The City.

Green Fraud Marc Morano,2021-03-23 If you care about America's future, read this book.—Mark Levin A must-read book that shows how the Green New Deal is dangerous, impractical, misguided, and guaranteed to fail with disastrous results for the American people.”—Sean Hannity A New Lockdown to Save the Climate That’s what’s in store for us if Alexandria Ocasio-Cortez and the Democrats pass their radical climate plan—the Green New Deal. It is packed with guarantees so completely irrelevant to the problem it purports to “solve” (like “free college” and incomes for everyone “unable or unwilling to work”) that even its boosters have admitted it’s not really about the climate. The intrepid Marc Morano, author of the bestselling Politically Incorrect Guide to Climate Change, breaks down the science and the politics to expose the truth about the Green New Deal: • The science is settled: copious evidence—and prominent defections from the “climate consensus”—make clear we are not facing a man-made climate disaster • “Climate change” is the perfect Trojan horse for the socialist agenda of the Left • Fossil fuels lifted the West out of poverty—but our elites now want to deny them to the world’s poor • The Green New Deal is on a collision course with self-government and our fundamental rights Climate change has already been “solved” multiple times over the past two decades—with highly touted international agreements—and yet it never goes away as an excuse for leftist policies that will cripple our economy, impoverish the world, and take away our freedoms. Packed with telling statistics, damning quotations, and real science, Green Fraud is your source for all the facts you need to understand—and resist—the threat.

The Salt Line Holly Goddard Jones,2018-08-28 Great, near-future sci-fi...A propulsive, character-driven thriller...I really love this book.—Kelly Link, author of Get in Trouble and Magic for Beginners In the spirit of Station Eleven and California, award-winning novelist Holly Goddard Jones offers a literary spin on the dystopian genre with this gripping story of survival and humanity about a group of adrenaline junkies who jump “the Salt Line.” How far will they go for their freedom—once they decide what freedom really means? In an unspecified future, the United States' borders have receded behind a salt line—a ring of scorched earth that protects its citizens from deadly disease-carrying ticks. Those within the zone live safe, if limited, lives in a society controlled by a common fear. Few have any reason to venture out of zone, except for the adrenaline junkies who pay a fortune to tour what's left of nature. Those among the latest expedition include a popstar and his girlfriend, Edie; the tech giant Wes; and Marta; a seemingly simple housewife. Once out of zone, the group find themselves at the mercy of deadly ticks—and at the center of a murderous plot. They become captives in Ruby City, a community made up of outer-zone survivors determined to protect their hardscrabble existence. As alliances and friendships shift amongst the hostages, Edie, Wes, and Marta must decide how far they are willing to go to get to the right side of the salt line.

Longfellow Bridge Billam Northgate,2013-10-12 Longfellow Bridge, the author's first work; is a lavish narrative that covers four decades in the life of a family whose daily struggle for dignity and existence is sometimes reminiscent of the Joad family in the Grapes of Wrath, but at the same time it is an edgy and sometimes hilarious look into the life of a young boy coming of age in the South of the 1960's; and in the turbulent and gritty urban climate of the Northeast between the 1970's and 80's. -Poets and Rogues Magazine

The Ascension Synarchy Book 2 Crystal Storm,2019-12-21 “We’re villains, as much as we are capable of being heroes. When the moments come that we can we soften the blow of our sins, we’ve got to take them.”- Stefano Vasco Terenzio A lifetime ago, Stefano Vasco Terenzio saw one way to maneuver his family into a game of betrayal against an unbeatable enemy; walking into a bullet. A generation later, what started with one man’s ego will determine the fate of the whole world. For centuries The Brotherhood and their Gods, the Anunnaki, hid in plain sight among us. For centuries they lied, sacrificed man by the millions, and manipulated humanity into their service. As the clock ticks closer to the winter solstice, the one day which allows humanity a chance to free itself, the Anunnaki will stop at nothing to keep their control of planet Earth. In the thrilling sequel to Synarchy Book 1: The Awakening, the end is only the beginning. Secrets emerge which challenge the core of everything you believe. All the while, a team of scientists must make sense out of the fantastical as the tenuous link holding together the one family that can give humankind a chance, shatters.
