Galveston and the 1900 Storm Patricia Bellis

Bixel, Elizabeth Hayes Turner, 2013-02-08 Spur Award

Nominee: How Galveston, Texas, reinvented itself after historic disaster: "A riveting narrative . . . Absorbing [and] well-illustrated." —Library Journal The Galveston storm of 1900 reduced a cosmopolitan and economically vibrant city to a wreckage-strewn wasteland where survivors struggled without shelter, power, potable water, or even the means to summon help. At least 6,000 of the city's 38,000 residents died in the hurricane. Many observers predicted that Galveston would never recover and urged that the island be abandoned. Instead, the citizens of Galveston seized the opportunity, not just to rebuild, but to reinvent the city in a thoughtful, intentional way that reformed its government, gave women a larger role in its public life, and made it less vulnerable to future storms and flooding. This extensively illustrated history tells the full story of the 1900 Storm and its long-term effects. The authors draw on survivors' accounts to vividly recreate the storm and its aftermath. They describe the work of local relief agencies, aided by Clara Barton and the American Red Cross, and show how their short-term efforts grew into lasting reforms. At the same time, the authors reveal that not all Galvestonians benefited from the city's rebirth, as African Americans found themselves increasingly shut out from civic participation by Jim Crow segregation laws. As the centennial of the 1900 Storm prompts remembrance and reassessment, this complete account will be essential and fascinating reading for all who seek to understand Galveston's destruction and rebirth. Runner-up, Spur Award for Best Western Nonfiction—Contemporary, Western Writers Of America

After the Storm Damian Lawlor, 2022-09-29 This is the

incredible story of how the GAA and its people managed to weather the coronavirus pandemic and re-emerge to fight another day. On St Patrick's Day 2020, Taoiseach Leo Varadkar announced that Ireland was locking down. Our lives, purpose and favourite pastime as Irish people - meeting each other - stopped overnight. Throughout that dark time, the GAA was at the centre of the country's fightback against covid-19. From the start, thousands of volunteers delivered food and medicine to vulnerable neighbours and friends during lockdown. Croke Park and other major stadia transformed into testing centres; the Association went online to keep people connected and became a beacon of hope. As the Association itself faced financial ruin, its members had their own life and death struggles to contend with. Niall Murphy, of Antrim GAA, was in a coma for sixteen days fighting the virus, and camogie player Marianne Walsh spent her cancer recovery amid strict lockdowns, only dreaming of one day playing for her club again. Hurler Domhnall Nugent battled intense isolation as he recovered from addiction issues. And when championships were shut down after celebrations threatened the association's reputation, uncertainty hung in the air. But through it all, GAA people rallied. Their stories, and the story of the GAA itself, now need to be told.

Storm Data, 1996

Isaac's Storm Erik Larson, 2011-10-19 At the dawn of the twentieth century, a great confidence suffused America. Isaac Cline was one of the era's new men, a scientist who believed he knew all there was to know about the motion of clouds and the behavior of storms. The idea that a hurricane could damage the city of Galveston, Texas, where he was based, was to him preposterous, an absurd delusion. It was 1900, a year when America felt bigger and stronger than ever before. Nothing in nature could hobble the

gleaming city of Galveston, then a magical place that seemed destined to become the New York of the Gulf. That August, a strange, prolonged heat wave gripped the nation and killed scores of people in New York and Chicago. Odd things seemed to happen everywhere: A plague of crickets engulfed Waco. The Bering Glacier began to shrink. Rain fell on Galveston with greater intensity than anyone could remember. Far away, in Africa, immense thunderstorms blossomed over the city of Dakar, and great currents of wind converged. A wave of atmospheric turbulence slipped from the coast of western Africa. Most such waves faded quickly. This one did not. In Cuba, America's overconfidence was made all too obvious by the Weather Bureau's obsession with controlling hurricane forecasts, even though Cuba's indigenous weathermen had pioneered hurricane science. As the bureau's forecasters assured the nation that all was calm in the Caribbean, Cuba's own weathermen fretted about ominous signs in the sky. A curious stillness gripped Antigua. Only a few unlucky sea captains discovered that the storm had achieved an intensity no man alive had ever experienced. In Galveston, reassured by Cline's belief that no hurricane could seriously damage the city, there was celebration. Children played in the rising water. Hundreds of people gathered at the beach to marvel at the fantastically tall waves and gorgeous pink sky, until the surf began ripping the city's beloved beachfront apart. Within the next few hours Galveston would endure a hurricane that to this day remains the nation's deadliest natural disaster. In Galveston alone at least 6,000 people, possibly as many as 10,000, would lose their lives, a number far greater than the combined death toll of the Johnstown Flood and 1906 San Francisco Earthquake. And Isaac Cline would experience his own unbearable loss. Meticulously researched and vividly written, Isaac's Storm is

based on Cline's own letters, telegrams, and reports, the testimony of scores of survivors, and our latest understanding of the hows and whys of great storms. Ultimately, however, it is the story of what can happen when human arrogance meets nature's last great uncontrollable force. As such, Isaac's Storm carries a warning for our time.

At All Costs Davy Fitzgerald, Vincent Hogan, 2018-10-26 Davy Fitzgerald is one of hurling's defining personalities. A two-time All-Ireland winner as a

player and once as a manager, he has spent the past decade consolidating a reputation as one of the most innovative and dynamic coaches in the game, first with Waterford, then with his native Clare and, most recently, with Wexford. For Davy, however, exacting in his standards and possessed of an unshakeable will to succeed, victory has always come at a cost. His playing and managerial honours, though formidable, are matched by a roll call of public controversies and private challenges every bit as lengthy and varied. In this, a raw and forthright account of his time in management, Fitzgerald returns to the moments that have defined his career to date – the tactics and gambles, the breakthroughs and regrets, the friendships and fallings out – all the while measuring his judgement and the toll his single-minded pursuit of excellence has taken on his health and those closest to him. Packed with insights and anecdotes from his time on the sidelines, *At All Costs* is a riveting account of a career spent walking the fine line that separates commitment from obsession, and a must read for anyone who has ever wondered what it takes to compete – and succeed – at the highest level.
