Toy Story The Art and Making of the Animated Film John Lasseter, Steve Daly, 2009-09-01 With the premiere of Toy Story in November 1995, a new era in the history of feature film animation was born. The first-ever computer animated full-length motion picture, Toy Story was the extraordinary result of a unique collaboration between the Walt Disney Company, the leader in traditional animation, and Pixar, the award-winning computer animation studio. In Toy Story: The Art and Making of the Animated Film, author Steve Daly teams with director John Lasseter to tell the tale of how these two visionary companies joined together and set out to do what had never been done before. At the heart of their journey lies the collaboration and sense of discovery that went into developing this computer animated buddy movie, in which a rag doll cowboy named Woody and high-tech space toy Buzz Lightyear compete for the affections of a boy named Andy. The authors explain and illuminate how Toy Story achieved its pioneering look while taking the elements of animation entertainment—humor, heart, and the creation of a world both real and fantastic—to new three-dimensional horizons. Richly illustrated with concept and storyboard art as well as images from the film, this book provides an in-depth review of the amazing technology, creativity, and artistry that went into the making of this breakthrough motion picture.

To Infinity and Beyond! Karen Paik, 2007-11 Chronicles the history of the studio from its origins, through the success of such features as Toy Story and

Finding Nemo, to its merger with Disney, and includes interviews with animators, business executives, and industry insiders.

The Pixar Touch David A. Price, 2009-05-05 A Wall Street Journal Best Book of the Year The Pixar Touch is a lively chronicle of Pixar Animation Studios' history and evolution, and the "fraternity of geeks" who shaped it. With the help of animating genius John Lasseter and visionary businessman Steve Jobs, Pixar has become the gold standard of animated filmmaking, beginning with a short special effects shot made at Lucasfilm in 1982 all the way up through the landmark films Toy Story, Finding Nemo, Wall-E, and others. David A. Price goes behind the scenes of the corporate feuds between Lasseter and his former champion, Jeffrey Katzenberg, as well as between Jobs and Michael Eisner. And finally he explores Pixar's complex relationship with the Walt Disney Company as it transformed itself into the \$7.4 billion jewel in the Disney crown. With an Updated Epilogue
