Self-Esteem Across the Lifespan Mary H. Guindon,2009-10-27 As long as clinicians write

“increase self-esteem” on treatment plans without knowing precisely what that means, there is a need for information on the construct of self-esteem and how its many components can have an effect on outcomes. This text defines self-esteem, describes its history and evolution, discusses its controversies, and presents information on intervention strategies that can make a difference when it receives clinical attention. Principles and concepts are applied to various clinical concerns faced by clients in each of the five developmental life stages: childhood, adolescence, young adulthood, midlife, and late life. Book chapters discuss a variety of specific issues– such as child trauma and abuse, ADHD, body image and eating disorders, at-risk adolescents, African American youth, sexuality in young adulthood, alcohol and other drugs issues, lesbians and gay men at midlife, career development, intergenerational conflict in Asian Americans, and loss in late life – and offer detailed strategies for the development and enhancement of self-esteem. Also included is an example of an 8-week self-esteem enhancement program.

Sorting Out the Mixed Economy Amy C. Offner, 2019-09-17 The untold story of how welfare and development programs in the United States and Latin America produced the instruments of their own destruction In the years after 1945, a flood of U.S. advisors swept into Latin America with dreams of building a new economic order and lifting the Third World out of poverty. These businessmen, economists, community workers, and architects went south with the gospel of the New Deal on their lips, but Latin American realities soon revealed unexpected possibilities within the New Deal itself. In Colombia, Latin Americans and U.S. advisors ended up decentralizing the state, privatizing public functions, and launching austere social welfare programs. By the 1960s, they had remade the country’s housing projects, river valleys, and universities. They had also generated new lessons for the United States itself. When the Johnson administration launched the War on Poverty,

U.S. social movements, business associations, and government agencies all promised to repatriate the lessons of development, and they did so by multiplying the uses of austerity and for-profit contracting within their own welfare state. A decade later, ascendant right-wing movements seeking to dismantle the midcentury state did not need to reach for entirely new ideas: they redeployed policies already at hand. In this groundbreaking book, Amy Offner brings readers to Colombia and back, showing the entanglement of American societies and the contradictory promises of midcentury statebuilding. The untold story of how the road from the New Deal to the Great Society ran through Latin America, *Sorting Out the Mixed Economy* also offers a surprising new account of the origins of neoliberalism.

A Step-by-Step ABA Curriculum for Young Learners with Autism Spectrum Disorders (Age 3-10)
Lindsay Hilsen, 2013-01-15 This curriculum uses the proven principles of applied behavior analysis (ABA) as a way to monitor the progress of children on the autism spectrum and make sure they reach their full potential. It gives adults a clear outline on what to teach and how to teach it, in order to ensure children are reaching developmental goals at this crucial stage. The book's three sections, Assessment, Curriculum and Mastered, each include built-in data collection, which is reproduced on the accompanying online downloadable content so it can be printed off. All three sections cover ten pivotal areas of progress for this age group, including reading, writing, math, conversation and social skills. The Assessment section records the child's initial level of learning and then tracks their progress over time. The Curriculum section provides the lesson plans for the skills which need to be developed, and the Mastered section is a tool for checking that learnt skills are being retained over time. It is also possible to record whether the child has adapted to using the skills in a variety of settings. This curriculum provides everything that an adult working with a child with an autism

spectrum disorder would need to ensure a thorough and appropriate ABA program for the young learner.

Word Sorts and More Kathy Ganske, 2018-01-01 Tens of thousands of teachers have used this skillfully crafted book to build children's word knowledge with engaging categorization activities organized by spelling stages. Featuring rich classroom examples, the revised and expanded second edition gives increased attention to teaching English learners (ELs), among other enhancements. In a large-size format for easy photocopying, the volume includes over 200 reproducible word, picture, and letter sorts, plus additional reproducible forms and activities in the appendices. Purchasers get access to a companion website where they can download and print the reproducible appendix materials. The website also features supplemental PowerPoint assessment slides and 16 pages of Spanish-English cognate sorts. New to This Edition: *Greatly expanded content on teaching ELs, including a chapter showcasing researcher perspectives as well as supplemental online resources. *Cutting-edge SAIL (survey, analyze, interpret, link) framework for small-group lesson planning, complete with a detailed sample lesson and script. *Additional user-friendly tools: student performance records and the No-Nonsense Word Recognition Assessment. *Firsthand teacher perspectives now get a full chapter; many are new. See also Ganske's *Word Journeys, Second Edition: Assessment-Guided Phonics, Spelling, and Vocabulary Instruction*, which provides a comprehensive framework for assessing and building word knowledge, and *Mindful of Words, Second Edition: Spelling and Vocabulary Explorations, Grades 4-8*, which presents word study activities for the intermediate and middle grades.

Plastic sorting at recycling centres Lizzi Andersen, Kenneth Sandberg, Per Lundqvist, Jens Thulin, Janus Kirkeby, Trine Lund Neidel, Asbjørn Weidling, 2015-03-09 This is a guideline for plastic

sorting at recycling centres. The aim is to give assistance to the choices made by the management of recycling centres in order to collect plastic of better quality and in greater quantities. In the guideline, the potential plastic categories are listed and described, also with respect to potential content of hazardous substances. Issues to take into account when choosing how to organise the collection of plastic at the recycling centre are described. A separate chapter looks at how the public could be assisted with the sorting of plastics at the recycling centres. The guideline is part of the Nordic Prime Ministers' overall green growth initiative: "The Nordic Region – leading in green growth" - read more in the web magazine "Green Growth the Nordic Way" at www.nordicway.org or at www.norden.org/greengrowth
