3rd Symposium of Ubiquitous Computing and Ambient Intelligence 2008 Juan Manuel Corchado Rodríguez, Dante Tapia, Jose Bravo, 2008-09-16

The Symposium on Ubiquitous Computing and Ambient Intelligence (UCAmI) began as a workshop held in 2003 in San Sebastián (Spain) under the Spanish Artificial Intelligence Conference. This event gathered 32 attendees and 18 papers were presented. The second edition, already as a Symposium, took place in Granada (Spain) under the first Spanish Computer Science Conference (CEDI). Later, in 2006, a second workshop was celebrated in Ciudad Real and, in 2007; the second Symposium was organized in Zaragoza by the CEDI conference. Now we continue to work on the organization of this event in Salamanca, a beautiful Spanish city. The European Community and the Sixth and Seventh Framework Programs encourage researchers to explore the generic scope of the Aml vision. In fact, some researchers have a crucial role in this vision. Emile Aarts from Philips describes Ambient Intelligence as the integration of technology into our environment, so that people can freely and interactively utilize it. This idea agrees with the proposal of Mark Weiser regarding the Ubiquitous Computing paradigm.

Queen's University Hilda Neatby, 1978 In this account of the first seventy-six years of Queen's University at Kingston, Hilda Neatby traces the

development of Queen's from its inauspicious beginnings as a struggling Presbyterian Bible college to the period when the university had become a permanent national institution. The story is one of early setbacks, resulting from financial crises, divisions within the Presbyterian Church, and internal conflict, followed by periods of recovery in which Queen's College (as it was then known) demonstrated a remarkable vitality and will to survive. Not until the principalship (1877-1902) of George Monro Grant, the passionate advocate of a national outreach for Queen's, did the college achieve the position it has since held as one of Canada's major universities.

The Siege of Heaven Tony Gosling, 2022-01-03 Some say the arrival of the internet has made it impossible for governments and corporations to keep secrets from or otherwise bamboozle the public, but the truth is just the opposite. As the ownership of the mainstream media consolidates, so the new media barons have a much tighter grip on what is published, while journalists are removed ever further from the process. Tony Gosling worked as a reporter for the BBC and saw these changes taking place within the corporation, witnessing the organization turn from a positive force into a mouthpiece of an increasingly corrupt state and the tiny elite group that has controlled humanity for centuries. Never before seen in print, these articles reveal the hidden wiring of the Western Establishment. They point to the elusive positive side of what Tony sees as an inevitable, orchestrated WWII and economic collapse. Each one offers, too, a vision of social justice where people and communities can properly fulfill their potential. Tony includes many reference articles, including a hidden history chronology from the dawn of time and into the future. In the spirit of the short-lived 60s and 70s cultural freedom, drawing on Hendrix's All Along The Watchtower for inspiration, this volume is an accessible idiots guide for the cataclysms to come.

The Sixth Station Linda Stasi, 2013-12-01 Some say Demiel ben Yusef is the world's most dangerous terrorist, personally responsible for bombings and riots that have claimed the lives of thousands. Others insist he is a man of peace, a miracle worker, and possibly even the Son of God. His trial in New York City for crimes against humanity attracts scores of protestors, as well as media and religious leaders from around the world. Cynical reporter Alessandra Russo heads to the UN hoping for a piece of the action, but soon becomes entangled in controversy and suspicion when ben Yusef singles her out for attention among all other reporters. As Alessandra begins digging into ben Yusef's past, she is already in more danger than she knows—and when she is falsely accused of murder during her investigation, she is forced to flee New York. On the run from unknown enemies, Alessandra finds herself on the trail of a global conspiracy and a story that could shake the world to its foundations. Is Demiel ben Yusef the Second Coming or the Antichrist? The truth may lie in the secret history of the Holy Family, a group of Templars who defied the church, and a mysterious relic stained with the sacred blood of Christ Himself.
