StarChild T. M. Tsuru, 2011-08-24 Beaten down, dominated by brutal masters - and at times threatened with their own extermination- the LionWrestler people have long rallied to StarMaker, who they believe will one day send them a Liberator -One promised to free them from their captors, reverse the course of human history, and give birth to a New LionWrestler nation. And so it is to their utmost concern -if not alarm- when a young rabble-rouser ...a man of the streets ...a guy they call StarChild ...bursts forth with the outrageous claim to be none-other than the One they have waited for all these years! Breaking all the stereotypes of their Promised Liberator, StarChild carries no sword, commands no army, is rumored to hang out with all the wrong people and speaks unlike any other: his message strangely compelling, if not dangerous! StarMaker's purpose, says StarChild, is all about restoring the Connection that can empower individuals to enjoy Life as fully integrated, complete, and indestructible human beings. The true hope for the LionWrestlers -indeed for any nation- is for its people to realign their innermost control centers to the deeply caring guidance of StarMaker. The LionWrestler's ultimate freedom -their rebirth as a New Humanity, says StarChild, will rest on two foundations: his own bid to destroy the power of death on its own turf, and their own willingness to find nourishment in his ultimate act of sacrifice. Will the whole story end with the brutal execution of an innocent man or -as StarChild claims- will this become the beginning of

a whole new play on the stage of human history?

Institutional Economics Revisited Shigeto Tsuru, 1997-07-24 Shigeto Tsuru is one of Japan's most respected senior economists. In these lectures, he provides a reappraisal of institutionalism as a school of thought and discusses its relevance for the issues which the economic profession today must tackle. Tsuru reconsiders Marxian political economy as an 'institutionalist school', which provides a context for the following discussion of J. M. Keynes, Joseph Schumpeter and Thorstein Veblen. He goes on to present the four key elements of modern institutionalism - i.e., the open-system character of the economy; the problem of planning; the evolutionary process of modern economics; and the normative character of economics - by way of an examination of three present-day institutionalists, Gunnar Myrdal, John K. Galbraith, and K. William Kapp. Tsuru concludes with an evaluation of modern institutionalism and the future of institutional economics.

Japan's Capitalism Shigeto Tsuru, 1996-07-13 An authoritative account of Japan's economic reconstruction after World War II.

The Political Economy of the Environment Shigeto Tsuru, 2013-12-17 The first authoritative study of Japan's environmental problems by the acclaimed environmental economist, placing environmental issues within a socioeconomic context. In providing an historical account of environmental disruption in

Japan, the author takes a number of key cases of industrial pollution in the pre-war and post-war periods and illustrates the effectiveness of taking into account socioeconomic affairs. Finally, he proposes a set of concrete countermeasures against environmental problems, applicable to all developed countries today, aimed at achieving a new 'quality of life'. First published in 2000, this title is part of the Bloomsbury Academic Collections series.

The Selected Essays of Shigeto Tsuru: The economic development of modern Japan Shigeto Tsuru, 1994 Japan's emergence as a modern state in the middle of the 19th century was, in itself, a unique socio-political event. However, the accompanying economic development was certainly no less unique since it was achieved without tariff autonomy and with practically no injection of foreign capital. A major portion of this work discusses how this was accomplished.

Deathdestroyer T. M. Tsuru, 2011-07-01 From the midst of three cultures dominated by military occupation, political intrigue and revolutionary undercurrents there appears a solitary figure named StarChild. Claiming to be a human avatar with origins predating even the Big Bang, StarChild teaches that the only true 'fix' for a broken humanity is for everyday people to realign the control centers of their lives to the deeply caring guidance of StarMaker -his sender. Their ultimate freedom –their rebirth as a new humanity, says StarChild, will pivot on two foundations: His own ability to

destroy the power of death on its own turf, and the Earthlings' willingness to wrap their lives around the ultimate gift of his own life. Will the whole story end with the brutal execution of an innocent man or –as StarChild claims- will this become the beginning of a whole new play on the stage of human history?

The Selected Essays of Shigeto Tsuru: Economic theory and capitalist society Shigeto Tsuru, 1994 This is a collection of Shigeto Tsuru's most important essays written in the fields of general economic theory, development and environmental economics, and Marxist political economy. Looking Like the Enemy Jerry García,2014-02-27 At the beginning of the twentieth century, thousands of Japanese citizens sought new opportunities abroad. By 1910, nearly ten thousand had settled in Mexico. Over time, they found work, put down roots, and raised families. But until now, very little has been written about their lives. *Looking Like the Enemy* is the first English-language history of the Japanese experience in Mexico. Japanese citizens were initially lured to Mexico with promises of cheap and productive land in Chiapas. Many of the promises were false, and the immigrants were forced to fan out across the country, especially to the lands along the US border. As Jerry García reveals, they were victims of discrimination based on “difference,” but they also displayed “markers of whiteness” that linked them positively to Europeans and Americans, who were perceived as powerful and socially advanced. And, García reports, many Mexicans looked favorably on the Japanese as hardworking and family-centered. The book delves deeply into the experiences of the Japanese on both sides of the border during World War II,

illuminating the similarities and differences in their treatment. Although some Japanese Mexicans were eventually interned (at the urging of the US government), in general the fear and vitriol that Japanese Americans encountered never reached the same levels in Mexico. *Looking Like the Enemy* is an ambitious study of a tumultuous half-century in Mexico. It is a significant contribution to our understanding of the immigrant experience in the Western Hemisphere and to the burgeoning field of borderlands studies.
