**Katrina's Secrets** Ray Nagin,2011 C. Ray Nagin was Mayor of New Orleans when Hurricane Katrina hit. He weighs in on the chaotic days leading up to and following the biggest natural and man-made disaster in America's history. He delivers exacting detail on the city's relief effort, and exposes secrets that have been glossed over or spun out.

*Historic Storms of New England* Sidney Perley,1891

*What Stands in a Storm* Kim Cross,Kimberly Hisako Cross,2015-03-10 Immersive reporting and dramatic storytelling from the middle of the horrific superstorm of April 2011, a weather event that killed 348 people--Provided by publisher.

**Storm of the Century** Willie Drye,2019-08-01 In 1934, hundreds of jobless World War I veterans were sent to the remote Florida Keys to build a highway from Miami to Key West. The Roosevelt Administration was making a genuine effort to help these down-and-out vets, many of whom suffered from what is known today as post-traumatic stress disorder. But the attempt to help them turned into a tragedy. The supervisors in charge of the veterans misunderstood the danger posed by hurricanes in the low-lying Florida Keys. In late August 1935, a small, stealthy tropical storm crossed the Bahamas, causing little damage. When it entered the Straits of Florida, however, it exploded into one of the most powerful hurricanes on record. But US Weather Bureau forecasters could only guess at its exact position, and their

calculations were well off the mark. The hurricane that struck the Upper Florida Keys on the evening of September 2, 1935 is still the most powerful hurricane to make landfall in the US. Supervisors waited too long to call for an evacuation train from Miami to move the vets out of harm's way. The train was slammed by the storm surge soon after it reached Islamorada. Only the 160-ton locomotive was left upright on the tracks. About 400 veterans were left unprotected in flimsy work camps. Around 260 of them were killed. This is their story, with newly discovered photos and stories of some of the heroes of the Labor Day 1935 calamity.

*Hurricane Camille* Hearn, Philip D., 2009-10-20  
Nominated Best Nonfiction Book for 2004 --  
Mississippi Institute of Arts and Letters On  
August 17, 1969, Hurricane Camille roared out of the Gulf of Mexico and smashed into Mississippi's twenty-six miles of coastline. Winds were clocked at more than 200 miles per hour, tidal waves surged to nearly 35 feet, and the barometric pressure of 26.85 inches neared an all-time low. Survivors of the killer storm date events as BC and AC--Before Camille and After Camille. The history of Hurricane Camille is told here through the eyes and the memories of those who survived the traumatic winds and tides. Their firsthand accounts, compiled a decade after the storm and archived at the University of Southern Mississippi, form the core of this book. Property damage exceeded \$1.5 billion, \$48.6 billion in today's dollars. Fashionable beachfront homes, holiday hotels, marinas, night clubs, and souvenir shops were devastated. The death toll in the

state's three coastal counties--Harrison, Hancock, and Jackson--reached 131, with another 41 persons never found. The rampaging storm then moved north through Tennessee, Kentucky, West Virginia, and Virginia and sparked flash floods that killed more than 100 in Virginia before moving into the Atlantic. Camille is one of only three Category 5 hurricanes ever to hit the U.S. mainland. Along the Coast today, vacant lots, slabs of concrete, and mysterious staircases and driveways leading to nowhere are Camille's eerie reminders. The ruins that remain, however, are overshadowed by the dazzle and fun at the dozen casinos and high-rise hotels that dominate the modern beachfront. Once more the seashore is thriving. Rambling homes, the neon lights of motels and family restaurants, and the nets and masts of shrimp boats mark the skyline. For the Mississippi Coast, a historic retreat between New Orleans on the west and Mobile on the east--these are the best of times. This gripping story of the Coast's most devastating storm recounts what happened on a terrifying night more than three decades ago. It reminds, too, what can happen again.

**What Stands in a Storm** Kim Cross, 2016-03 Enter the eye of the storm in this gripping real-life thriller—A Perfect Storm on land—that chronicles America's biggest tornado outbreak since the beginning of recorded weather: a horrific three-day superstorm with 358 separate tornadoes touching down in twenty-one states and destroying entire towns. April 27, 2011 was the climax of a three-day superstorm that unleashed terror from Arkansas to New York. Entire communities were

flattened, whole neighborhoods erased. Tornadoes left scars across the land so wide they could be seen from space. But from terrible destruction emerged everyday heroes—neighbors and strangers who rescued each other from hell on earth.

“Armchair storm chasers will find much to savor in this grippingly detailed, real-time chronicle of nature gone awry” (Kirkus Reviews) set in Alabama, the heart of Dixie Alley where there are more tornado fatalities than anywhere else in the US. With powerful emotion and captivating detail, journalist Kim Cross expertly weaves together science and heartrending human stories. For some, it’s a story of survival; for others it’s the story of their last hours. Cross’s immersive reporting and dramatic storytelling catapult you to the center of the very worst hit areas, where thousands of ordinary people witnessed the sky falling around them. Yet from the disaster rises a redemptive message that’s just as real: in times of trouble, the things that tear our world apart reveal what holds us together.

The Storm Ivor van Heerden, Mike Bryan, 2006-05-18  
The ultimate inside story of the Katrina tragedy—from the cofounder of the LSU Hurricane Center After warning for years about the looming threat of catastrophic flooding in New Orleans, Ivor van Heerden was one of the highest-profile media experts during the Katrina disaster. Over the following eighteen months, he was even more prominent as he challenged the official version of those events and campaigned for an engineering plan that would protect all of southeastern Louisiana, once and for all. In The Storm, van

Heerden lays out in full detail the stunning incompetence among the bureaucrats, the politicians, and the Army Corps of Engineers that culminated in the catastrophe that crippled, perhaps forever, a great American city.

**Sudden Sea** R. A. Scotti,2008-12-14 The massive destruction wreaked by the Hurricane of 1938 dwarfed that of the Chicago Fire, the San Francisco Earthquake, and the Mississippi floods of 1927, making the storm the worst natural disaster in U.S. history. Now, R.A. Scotti tells the story.

The Test of Time, My Life and Life After the Storm, a New Horizon Ernestine Williams,2017-08-03 This book was written to share my many trials and to give my audience an inside view of the amazing things that God did for me. I experienced some things that I never thought that I would. I pray that each and everyone of you take something from this.

Storm Warning Nancy Mathis,2008-03-04 Veteran journalist Mathis has produced a compulsively readable account of one of the most terrible tornadoes in history--a mile-wide F5 twister--and the extraordinary people who kept it from becoming the deadliest.

**Eyes in a Storm** Jessica McNew,2003-05 Discusses the massive tornado of April, 1998 that barreled across central Alabama.

**A Full Description of the Great Tornado in Chester County, Pa** Richard Darlington,1877

**Through a Night of Horrors** Casey Edward Greene,Shelly Henley Kelly,2002 In this work, witnesses to this deadly disaster describe, in

many never-before-published accounts, their encounters with this monstrous storm.

*The Great Sea Island Storm of 1893* Bill Marscher, Fran Marscher, 2004 *The Great Sea Island Storm of 1893* details human courage and perseverance in the face of the second most fatal hurricane in US history.

**Hurricane Audrey** Post, Cathy Cagle, 2007-04-30 This narrative re-creates Hurricane Audrey through the eyes of the survivors in a combination of suspense, family drama, and the struggle for life over death. In the midnight hours of June 27, 1957, the hurricane exploded in intensity and speed, slamming into the sleeping coast at dawn 12 hours ahead of its predicted landfall. Many unsuspecting residents woke that morning to find water already inside their homes. Their ordeal transports the reader back to 1957 with a new appreciation and understanding of how Cameron Parish residents clung to life during the category-four storm.

The Forgotten Storm Wallace Akin, 2004-06-01 The amazing true story of the deadliest tornado in American history, as told by a survivor.

Lowcountry Hurricanes Walter J. Fraser, 2006 An illustrated history describes in detail the most notable storms that have altered lives and landscapes along the Georgia-South Carolina seaboard over the past three hundred years, in a volume that draws on eyewitness accounts to examine the dramatic impact of the storms on the coastal lowcountry and its environs.
