Settling the Storm: A Guide to Facilitating Grief Groups Sandra L. Washington D.D., 2011-04-23

Technically, there are two types of grief groups. The informative/supportive grief groups' purpose is to promote grief education and awareness. It covers grief and bereavement in a more didactic fashion. The second type of grief group is therapeutic in nature. It is personal growth oriented groups focusing on facilitating the individual participant's own personal loss process. Though many commonalities exist between these two types of groups each has its own unique dynamics and concerns. This book focuses on the second type of group, sometimes referred to as Grief Recovery Groups. I prefer the term "Grief Management." I learned a long time ago that there is no recovery from grief precipitated by the loss of a beloved, but we can overcome. *Settling the Storm* is particularly designed for all who are currently leading a group, who are thinking about facilitating a grief group in the future or would like to learn some additional skills or ideas in creating a grief group within a small gathering of people. It was created and organized to help Facilitators plan and facilitate grief groups. It takes off by inviting you to self assess readiness to lead griever's on the journey through grief, reviews the typical characteristics of effective Facilitators, and accentuates the vital skills necessary for ensuring positive outcomes. The next

chapter moves you on to a refresher glance at the anatomy of grief and bereavement by considering elements that influence grief; explores the categories of grief and discusses issues relative to grief of the elderly. The third section focuses on the essentials for group preparation and helps you organize your thoughts and ideas about groups. The practical aspects of goals and objectives, and other information are included to provide you with an adequate blueprint for the implementation of your first group session. The "Content of the Session" provides you with some thoughts and suggestions on what to do in your grief groups. In addition, setting up group guidelines, structuring cathartic activities and evaluating the group process are also covered. You will be given tried and proven methodologies used to promote the emotional and spiritual well-being of grieving group members and fundamental tools needed for ensuring the best possible results. A grief group curriculum that can be used as a model is integrated into the overall presentation. Optional resources are appended.

The Storm Before the Storm Mike

Duncan, 2017-10-24 The creator of the award-winning podcast series The History of Rome and Revolutions brings to life the bloody battles, political machinations, and human drama that set the stage for the fall of the Roman Republic. The Roman Republic was one of the most remarkable achievements in the history of civilization. Beginning as a small city-state in central Italy, Rome gradually expanded into a wider world filled with petty tyrants, barbarian chieftains, and despotic kings. Through the centuries, Rome's model of cooperative and participatory government remained remarkably durable and unmatched in the history of the ancient world. In 146 BC, Rome finally emerged as the strongest power in the

Mediterranean. But the very success of the Republic proved to be its undoing. The republican system was unable to cope with the vast empire Rome now ruled: rising economic inequality disrupted traditional ways of life, endemic social and ethnic prejudice led to clashes over citizenship and voting rights, and rampant corruption and ruthless ambition sparked violent political clashes that cracked the once indestructible foundations of the Republic. Chronicling the years 146-78 BC, *The Storm Before the Storm* dives headlong into the first generation to face this treacherous new political environment. Abandoning the ancient principles of their forbearers, men like Marius, Sulla, and the Gracchi brothers set dangerous new precedents that would start the Republic on the road to destruction and provide a stark warning about what can happen to a civilization that has lost its way.
