Paradise Lost Annotated John Milton,2020-07-10 *Paradise Lost* is an epic poem in blank verse by the 17th-century English poet John Milton. It was originally published in 1667 in ten books; a second edition followed in 1674, redivided into twelve books (in the manner of the division of Virgil's *Aeneid*) with minor revisions throughout and a note on the versification. The poem concerns the Judeo-Christian story of the Fall of Man; the temptation of Adam and Eve by the fallen angel Satan and their expulsion from the Garden of Eden. Milton's purpose, stated in Book I, is justify the ways of God to men and elucidate the conflict between God's eternal foresight and free will. It is considered by critics to be Milton's 'major work', and helped solidify his reputation as one of the greatest English poets of his time. The poem concerns the Biblical story of the Fall of Man: the temptation of Adam and Eve by the fallen angel Satan and their expulsion from the Garden of Eden. Milton's purpose, stated in Book I, is to 'justify the ways of God to men'.

Running to Extremes Lisa Tamati,2013 Lisa Tamati takes on some of the world's most extreme ultramarathons in an inspiring look at the reality of a long-distance runner Lisa Tamati gets asked one question more than any other: why do you do it? Here she attempts to answer that question and many more about ultramarathon running. In the past few years, Lisa has taken part in some of the most grueling races on earth. Not content with having run the Badwater Ultramarathon once, she's been back and done it a second time. She's also completed the Gobi March and a race in the Egyptian Sahara. However, none of these could have prepared her for her greatest challenge to date—La Ultra, a 138-mile, nonstop race over the two Himalayan mountain passes. This book tells the stories behind these races and provides plenty of advice for runners of all levels and distances. Filled with training tips, gear lists, information on nutrition and supplements, advice on mental preparation and, most importantly, a focus on how to keep healthy while training and racing, it will inspire and motivate runners and nonrunners alike.

Wordplay and Powerplay in Latin Poetry Phillip Mitsis, Ioannis Ziogas,2016-07-28 The political allegiances of major Roman poets have been notoriously difficult to pin down, in part because they often shift the onus of political interpretation from themselves to their readers. By the same token, it is often difficult to assess their authorial powerplays in the etymologies, puns, anagrams, telestichs, and acronyms that feature prominently in their poetry. It is the premise of this volume that the contexts of composition, performance, and reception play a critical role in constructing poetic voices as either politically favorable or dissenting, and however much the individual scholars in this volume disagree among themselves, their readings try to do justice collectively to poetry's power to shape political realities. The book is aimed not only at scholars of Roman poetry, politics, and philosophy, but also at those working in later literary and political traditions influenced by Rome's greatest poets.

Shadows of Doubt Brendan O'Flaherty, Rajiv Sethi,2019-04-15 *Shadows of Doubt* reveals how deeply stereotypes distort our interactions, shape crime, and deform the criminal justice system. If you're a robber, how do you choose your victims? As a police officer, how afraid are you of the young man you're about to arrest? As a judge, do you think the suspect in front of you will show up in court if released from pretrial detention? As a juror, does the defendant seem guilty to you? Your answers may depend on the stereotypes you hold, and the stereotypes you believe others hold. In this provocative, pioneering book, economists Brendan O'Flaherty and Rajiv Sethi explore how stereotypes can shape the ways crimes unfold and how they contaminate the justice system through far more insidious, pervasive, and surprising paths than we have previously imagined. Crime and punishment occur under extreme uncertainty. Offenders, victims, police officers, judges, and jurors make high-stakes decisions with limited information, under severe time pressure. With compelling stories and extensive data on how people act as they try to commit, prevent, or punish crimes, O'Flaherty and Sethi reveal the extent to which we rely on stereotypes as shortcuts in our decision making. Sometimes it's simple: Robbers tend to target those they stereotype as being more compliant. Other interactions display a complex and sometimes tragic interplay of assumptions: "If he thinks I'm dangerous, he might shoot. I'll shoot first." *Shadows of Doubt* shows how deeply stereotypes are implicated in the most controversial criminal justice issues of our time, and how a clearer understanding of their effects can guide us toward a more just society.
