Wild Storm Richard Castle, 2014-05-13 Derrick Storm, the guy the CIA calls on when it wants something investigated domestically, is thirty-three thousand feet in the air, returning from a rock climbing vacation in the Swiss Alps, when the plane spirals into a nose-dive. Storm uses his climbing gear to tether himself to the wing and heroically save the plane and all the people on board. Sadly, Storm is not available to come to the aid of the three other planes that have crashed under similar circumstances, killing everyone on board. Interestingly, many of the victims are powerful people in politics, business and religious groups. The always elusive Jedidiah Jones, leader of the National Clandestine Service that has no name, calls on Storm to investigate. Storm determines that an unknown extremist has secured enough of the rare earth element promethium to create a laser with the power to shoot down planes from the ground. The problem swiftly becomes a global one as four more planes crash in the Arabia Desert. Details, intuition and courage lead Storm to Monaco, Panama City and Egypt as he meets beautiful women, rides angry camels and rescues innocent victims in his valiant effort to track down the maniacal mind behind the terrorism.

Tuxedo Bob Rob, Susan Hegel, 2002-10-07 Tuxedo Bob is a musically talented young man with a unique sense of humor, and an extraordinarily optimistic view of life. His classic black tuxedo illustrates his dedication to good manners and respectful behavior. His instinctive ability to make decisions based on what is right instead of what is convenient astounds the most hardened skeptic. His honesty bewilders the agents, bigots, producers, mobsters, and pessimists who come into his life; the kindness of his heart inspires his friends. Any situation in life is better when experienced in formal attire. Orville Fledsper Armed with a number of his fathers axioms and some off beat songs, Tuxedo Bob travels beyond the horizon of his hometown to seek employment as a songwriter. His demeanor makes him seem naive, but his special way of dealing with the obstacles and situations he encounters on his twenty-three year journey from New York to Las Vegas and Hollywood will make you laugh, and will warm your heart. You will never forget Tuxedo Bob. As an added bonus to this edition, and for your enjoyment, the authors have included all of Tuxedo Bobs song lyrics, and the complete version of his musical screenplay, THE MIRROR OF MR. MOORE. Tuxedo Park Jennet Conant, 2013-10-15 A New York Times bestseller! The untold story of the eccentric Wall Street tycoon and the circle of scientific geniuses who helped build the atomic bomb and defeat the Nazis—changing the course of history. Legendary financier, philanthropist, and society figure Alfred Lee Loomis gathered the most visionary scientific minds of the twentieth century—Albert Einstein, Werner Heisenberg, Niels Bohr, Enrico Fermi, and others—at his state-of-the-art laboratory in Tuxedo Park, New York, in the late 1930s. He established a top-secret defense laboratory at MIT and personally bankrolled pioneering research into new, high-powered radar detection systems that helped defeat the German Air Force and U-boats. With Ernest Lawrence, the Nobel Prize-winning physicist, he pushed Franklin Delano Roosevelt to fund research in nuclear fission, which led to the development of the atomic bomb. Jennet Conant, the granddaughter of James Bryant Conant, one of the leading scientific advisers of World War II, enjoyed unprecedented access to Loomis' papers, as well as to people intimately involved in his life and work. She pierces through Loomis' obsessive secrecy and illuminates his role in assuring the Allied victory.

Ensley and Tuxedo Junction David B. Fleming, Mary Allison Haynie, 2011-01-17 With dreams of building a vast steel production operation, Memphis planter Enoch Ensley founded a city in the wooded valley at the heart of Jefferson County, Alabama. He named the city Ensley, after himself, and established the Ensley Land Company to acquire and develop 4,000 acres for industrial facilities and a town. As field workers left their farms to work in steel mills and businesses sprang up on the valley floor, Ensley became a diverse place of hopes and desires. A strong community of churches, businesses, civic clubs, and neighborhoods developed around the factories and railroads. Jazz music was the social thread of Ensley's African American community, known as Tuxedo Junction. Musicians such as Erskine Hawkins famously mastered the style. The annexation of Ensley into Birmingham established the "Magic City" as the largest and wealthiest in Alabama and the heart of the Southern steel manufacturing economy.

Tuxedo Park Jennet Conant, 2003 Wall Street legend Alfred Lee Loomis, who once owned Hilton Head Island, was devoted to his hobby of science experiments in his mansion. During World War II, Loomis played a key role in the development of radar and the atomic bomb.

Tuxedo Tales Martha Muetzel, 2011-11 Retired from a career as a country barn cat, eighteen year old Tuxedo recalls her past adventures in delightful short tales from catching a thief to a garden rescue. Whimsical and clever, the cat's own stories are further enriched with those told to her by other animals she refers to as four-leggeds. Descriptive details acquaint the reader with country life and nature and draw scenes of the shoeing of the horse, the fiesty squirrel in the pine boughs, the frolicking maple leaves in autumn, and the desperate cat in the frozen woodland. More deeply, the thoughts and emotions expressed by the simple four-leggeds draw laughter and perhaps a tear from young readers and adults alike.

But with the help of the teenaged boy next door, he begins to learn how to survive in the woods, and just in time. A winter storm of unprecedented magnitude is bearing down on them, and it will take everything they have to make it out alive.

OCD Treatment Through Storytelling Allen H. Weg, 2011-01-13 Storytelling and metaphor are among the most effective and useful tools therapists can use to better identify with their clients, clearly explain a disorder to family members, and introduce new treatment options. Based on years of clinical work with clients with OCD and their families, OCD Treatment Through Storytelling contains dozens of stories that therapists can adapt and employ in their own practices to explain hard-to-grasp aspects of OCD and its most effective treatment, Exposure and Response Prevention. Through Allen Weg's engaging narratives, an experience at Toronto's CN Tower becomes a lesson about OCD treatment; a popular science fiction film is a parable on how clients can overcome fears and phobias. Entertaining and accessible, these stories—some autobiographical, some universal—each illuminate a feeling, a strategy, a dynamic, or an intervention relevant to OCD or its treatment. Stories become methods of instruction and engagement

in treatment, creating a solid foundation upon which to build understanding, empathy and support for those with OCD and their families. OCD Treatment Through Storytelling is a unique and useful resource for all mental health professionals who provide therapeutic services to persons with OCD and their families, and will be of interest to anyone wishing to better understand the OCD experience.

A Storm Too Soon (Young Readers Edition) Michael J. Tougias, Mike Tougias, 2016-05-24 An adaptation for young readers of A storm too soon: a true story of disaster, survival, and an incredible rescue--Jacket.

What Stands in a Storm Kim Cross, 2016-03 Enter the eye of the storm in this gripping real-life thriller—A Perfect Storm on land—that chronicles America's biggest tornado outbreak since the beginning of recorded weather: a horrific three-day superstorm with 358 separate tornadoes touching

down in twenty-one states and destroying entire towns. April 27, 2011 was the climax of a three-day superstorm that unleashed terror from Arkansas to New York. Entire communities were flattened, whole neighborhoods erased. Tornadoes left scars across the land so wide they could be seen from space. But from terrible destruction emerged everyday heroes—neighbors and strangers who rescued each other from hell on earth. “Armchair storm chasers will find much to savor in this grippingly detailed, real-time chronicle of nature gone awry” (Kirkus Reviews) set in Alabama, the heart of Dixie Alley where there are more tornado fatalities than anywhere else in the US. With powerful emotion and captivating detail, journalist Kim Cross expertly weaves together science and heartrending human stories. For some, it’s a story of survival; for others it’s the story of their last hours. Cross’s immersive reporting and dramatic storytelling catapult you to the center of the very worst hit areas, where thousands of ordinary people witnessed the sky falling around them. Yet from the disaster rises a redemptive message that’s just as real: in times of trouble, the things that tear our world apart reveal what holds us together.
