Bombay Stories Matt Reeck,Aftab Ahmad,2012-11-16 Freshly arrived in 1930s Bombay, Manto saw the city like no one else, an ethnic melting pot that became ever more varied as migrant workers flooded in. It was to be Manto's favourite city. His edgy, moving stories, often peopled with prostitutes and criminals, remain startling and provocative even a hundred years after his birth – in searching out those forgotten by humanity, Manto wrote about what it means to be human. At his centenary, Bombay Stories brings together Manto's work from his years in that city for the first time. Matt Reeck and Aftab Ahmad's contemporary, nuanced translation captures the idiom and the essence of Urdu's most celebrated short-story writer's work. Censored, banned, demonized and ostracized: Saadat Hasan Manto's short stories were considered obscene and downright dangerous during his lifetime and for years after. They still haven't lost their power to shock and enthrall.

From Hittite to Homer Mary R. Bachvarova,2016-03-10 This book provides a groundbreaking reassessment of the prehistory of Homeric epic. It argues that in the Early Iron Age bilingual poets transmitted to the Greeks a set of narrative traditions closely related to the one found at Bronze-Age Hattusa, the Hittite capital. Key drivers for Near Eastern influence on the developing Homeric tradition were the shared practices of supralocal festivals and venerating divinized ancestors, and a shared interest in creating narratives about a legendary past using a few specific storylines: theogonies, genealogies connecting local polities, long-distance travel, destruction of a famous city because it refuses to release captives, and trying to overcome death when confronted with the loss of a dear companion. Professor Bachvarova concludes by providing a fresh explanation of the origins and significance of the Greco-Anatolian legend of Troy, thereby offering a new solution to the long-debated question of the historicity of the Trojan War.

Gods, Heroes and their Story Tellers V. Hari Saravanan,2014 We can hear Urumula Naganna's drum roll during the rendition of the Sri Akammagaru Kaviya. An oral tradition which is as old as the hills is captured in the book Gods, Heroes and their Storytellers. Do you know the story of how the Madiga community came to inherit the right to skin cattle carcass and produce leather articles? How are contemporary Folk Oral Literatures connected to the Ramayana and the

Mahabharata? There are many such stories and tradition bearers who doggedly go on in spite of the onslaught of the digital media. The author here has tried his best in keeping these traditions alive by not only telling the stories but also by living with the story tellers themselves. The rich details give us a window to a world which is not only very far away for our everyday mundane existence but also makes us retrospect on what we are missing out. Each of the tradition bearers are different and so are their stories and the region to which they belong. These are not merely stories but a way of life for these oral narrators who are fast disappearing in today's consumerist landscape. The need of the hour is to keep alive these traditions and the tradition bearers.

"The Story of Apollonius, King of Tyre" Stelios Panayotakis, 2012-12-06 The anonymous Latin Story of Apollonius, King of Tyre (*Historia Apollonii regis Tyri*) is a romance of adventure, possibly of Greek origins, with Christian elements in its plot. Well known for its important afterlife, including Shakespeare's *Pericles*, the Story of Apollonius is commonly viewed as a Christianised folktale of a sub-literary character. This literary and philological commentary interprets the text within the framework of ancient prose fiction, Christian literary tradition, and pagan culture, and discusses in detail its language, style, and narrative technique.

Divine Stories Andy Rotman, 2008-08-05 The *Divyavadana* is an enormous compendium of Indian Buddhist narratives written in Sanskrit from the early centuries of the Common Era, whose stories have since spread throughout Asia, as both narrative and narrative art, leaving an indelible mark on Buddhist thought and practice. The stories in the collection were frequently used in the education of both monastics and laity in premodern Asia, exerting a powerful influence as moral exempla and legal precedent, and they were considered by many to be the word of the Buddha himself. These stories were likewise canonical in their influence on Buddhist art. Representations of these stories can be found across Asia, from Kizil in China to Sanchi in India to Borobudur in Indonesia. It is not hyperbole to say that these are some of the most influential stories in the history of Buddhism. The stories presented here, among the first texts to be inscribed by Buddhists, highlight the moral economy of karma, illustrating how gestures of faith, especially offerings, can bring the reward of future happiness and ultimately liberation.

Ashéninka Stories of Change Ronald James Anderson, 2000 Modern economic and technological changes are accelerating the rate of social change in indigenous cultures around the world. The Ashéninka of the Amazon jungle region of east-central Peru confront change from two perspectives: the individual and the sociohistorical. All Ashéninka recall through their stories the four centuries of change since their earliest contacts with Spanish speakers. For the Ashéninka, all learning is situated in a complex blend of factors: history, beliefs, motives, practices, and persons. Children learn some skills in a guided manner, similar to apprenticeship, in which an adult consciously aids the child. They learn other skills in a nonguided manner; the child organizes the learning activities, which take the form of dramatic play, solitary experimentation, and collaborative learning with peers. As with learning traditional Ashéninka culture, the learning of a new culture is situated in its own complex blend of factors. Increasing contact with Spanish-speakers and increasing dependence on the market

economy prompt the Ashéninka to give more value to learning Spanish, to organizing into villages, and to giving their children a school education. Anderson's methodology in studying social change and its effects on education are applicable in many other parts of the world.

Crossing the Boundaries of Life Karl S. Matlin,2022-05-10 The difficulty of reconciling chemical mechanisms with the functions of whole living systems has plagued biologists since the development of cell theory in the nineteenth century. As Karl Matlin argues in *Crossing the Boundaries of Life*, it is no coincidence that this longstanding knot of scientific inquiry was loosened most meaningfully by the work of a cytologist, the Nobel laureate Günter Blobel. In 1975, using an experimental setup that did not contain any cells at all, Blobel was able to synthesize proteins to theorize how proteins in the cell communicate spatially, an idea he called signal hypothesis. Over the next 20 years, Blobel and other scientists were able to dissect this process into its precise molecular details. For elaborating his signal concept into a process he termed membrane topogenesis—the idea that each protein in the cell is synthesized with an address that directs the protein to its correct destination within the cell—Blobel was awarded the Nobel Prize in Physiology or Medicine in 1999. Matlin argues that Blobel's investigative strategy and its subsequent application addressed the fundamental unresolved dilemma that had bedeviled biology from its very beginning, allowing biology to overcome the barrier that had long blocked progress toward mechanistic explanations of life. *Crossing the Boundaries of Life* thus uses Blobel's research and life story to shed light on the importance of cell biology for twentieth-century science, illustrating how it propelled the development of adjacent disciplines like biochemistry and molecular biology--

Hammīra Aditya Malik,2021-06-08 This book is about the legendary Rajput chieftain Hammira Chauhan, the king of the impregnable fortress of Ranthambore in southern Rajasthan who died in 1301 CE after a monumental battle against Alauddin Khalji, the sultan of Delhi. This singular event reverberates through time to the point of creating a historical and cultural region that crystallizes through copious texts composed in different genres and languages (Persian, Sanskrit, Hindi, Rajasthani, English) in shifting religious and political contexts, medieval as well as modern. The main poetical-historical work composed in Sanskrit, the Hammira-Mahakavya (‘great poem’) by the Jaina poet Nayachandra Suri (15th century), is propelled by a dream in which the dead king urges the poet to write about his deeds. Can history with its preoccupation for the factual, begin in a dream? What does it mean to think about history and time via the imagination? Is time, whether past, present or future linked to imagination? Do imagination, time, and history arise together? What are the implications of thinking of history as something that appears in our experience? What does it mean to write a history as a historical being in whom diverse temporalities intertwine in the here and now?

Puyo Runa Norman E. Whitten,Dorothea Scott Whitten,2022-08-15 The Andean nation of Ecuador derives much of its revenue from petroleum that is extracted from its vast Upper Amazonian rain forest, which is home to ten indigenous nationalities.
