Elizabeth Larson,Richard Larson

Undefined Madeleine Rheinheimer, 2016-11-10 Undefined was created to change the belief that one must look a certain way in order to fit the mold of perfection. After all, perfection is overrated, and can never be defined by a certain image or standard. This story is for all the girls and boys, young and old, who are tired of comparing themselves to the standards. This story is for everyone who is ready to embrace their unique existence, and color outside the lines. This story is for those of you who are undefined.

PHILOSOPHY OF LOVE Adrian Gabriel Dumitru, His love Her fantasy ... understanding what love is about As a man, but also as a woman, we try to define the undefined from a love story. Dreaming about love and being in love ... the path from the fantasy to the love story itself ... is just a matter of luck ... or maybe where you find yourself, on the timeline of your own life. Maybe is the perfect time for you to explore what love is about, or maybe other things are important at the moment ... and the love story can only be a future "project". Exploring what love is about ... in our minds, as a fantasy ... or in the real life, as a real love story ... is depending only and only if we are ready or not. But what is the difference between fantasy and reality, when even the Bible is saying that everything we see is just an illusion? Well ... i believe that the fantasy is only the beginning of defining what we want ... and the love story is the "experiment" itself. Is it too much to name a love story ... an "experiment"? Well ... exploring ... as a fantasy or as reality is letting your soul understand what love is about. And ... sometimes is even a life lesson. The moment when you jump into the fairy tale ... the real fantasy ... and you understand the meaning of love ... the fact that love is about giving and not about receiving ... that is the moment when you also understand what life is about. Accepting your partner, just as he / she is ... just as accepting all the people from our lives is the moment of awakening. And also you should know that this path is leading you to point when your thinking will be totally redefined. Life itself ... is about love. Seeing what love is about ... is understanding the meaning of life. If the "love chapter" started for you ... even if it's just a fantasy or reality ... you should be happy. The awakening will come to you!

The Zen of International Relations S. Chan, P. Mandaville, 2001-10-15 The new millennium can only be a time of true globalization if different histories and systems of understanding the world are appreciated. The authors unveil significant studies to do with epistemological debates in International Relations, and give detailed middle and far-eastern examples of how different cultures have used story-telling as a means of understanding what is outside and around. Especially provocative is the Chinese idea of the West as an 'Other', as atypical and, indeed, inscrutable, to the extent of not needing scrutiny at all.

The Short Story in South Africa Rebecca Fasselt, Corinne Sandwith, 2022-03-25 This book considers the key critical interventions on short story writing in South Africa written in English since the year 2000. The short story genre, whilst often marginalised in national literary canons, has been central to the trajectory of literary history in South Africa. In recent years, the short story has undergone a significant renaissance, with new collections and young writers making a significant impact on the contemporary literary scene, and subgenres such as speculative fiction, erotic fiction, flash fiction and queer fiction expanding rapidly in popularity. This book examines the role of the short story genre in reflecting or championing new developments in South African writing and the ways in which traditional boundaries and definitions of the short story in South Africa have been reimagined in the present. Drawing together a range of critical interventions, including scholarly articles, interviews and personal reflective pieces, the volume traces some of the aesthetic and thematic continuities and discontinuities in the genre and sheds new light on questions of literary form. Finally, the book considers the place of the short story in twenty-first century writing and interrogates the ways in

which the short story form may contribute to, or recast ideas of, the post-apartheid or post-transitional. The perfect guide to contemporary short story writing in South Africa, this book will be essential reading for researchers of African literature.

Sons Of God Zen Garcia,2018-08-27 What do the fallen angels have to do with the powers, principalities, ancient aliens, and the ?strong delusion? referenced by Paul in Thessalonians 2:10? The lie that leads to damnation concerns the current perpetuation of the ancient alien myth, which claims that the Annunaki and Nephilim are the creators and benefactors of humanity. Those whom accept this premise will unwittingly volunteer their allegiance to the fallen angels. Unless one understands who the fallen angels were, are, and how they were responsible for the introduction of evil upon the world stage, one might also be caught up in the lie that causes the hearts of men to fail, and the most elect to be deceived. In Sons of God, Garcia seeks to help readers recognize the realities of our ancient past so that, in remembering the story, they can realize who they are and why they are they here.

The Angel Chronicles GD Thompson Sr.,2010-04-22 Disguised as fiction, The Angel Chronicles takes you to a world undiscoveredthe real world and a world of personal discovery. It chronicles the life of Rene Thomas Colby. Just a man or so he thought. Until he discovers how to start believing and understanding his feelings for what he feels at the deepest reaches of his heart. He battles problems of the mind, fears, and doubts to discover what he doubted was his truth and the truth of so many. Through his trials and tribulations, he discovers the one thing he had lost for so longhis heart. On his journey of self-discovery, he finds out there is another like him, only she doesn't realize the journey in which she is partaking. It becomes a battle to aid her into coming out of the darkness as he is attempting. He realizes a mission. If she could only open up to the truth and gather the knowledge, he tries to give her. She too might really enjoy her purpose and, that she actually has purpose and her existence accounts for something in the multitudes of what is abnormal. In addition, just how important she really is to the others who are a lot like her but do not realize it yet. Can Rene find the strength to understand his feelings? Will Rene seek to fight for those who really need him? Can Rene bring her out of the darkness while he too stands in that darkness? Can he find a way to understand its limits, walk out of that darkness, and be the abnormal thing he knows deep down he is? Can he find the strength to admit it and believe it without doubting his heart again? After all, why are humans, humans? The reason is simple. That is what they want to be known as with their presence on earth. However, if they have a concept of angels or aliens, then they must be aware that they were once part of the angels or aliens somewhere. What the supposed humans do not realize is that they were from another planet as well. This is something Rene understands or remembers which many do not. Unfortunately.

The Modern Regime Hippolyte Taine,1894

Law, Interpretation and Reality P.J. Nerhot,2013-04-17 PATRICKNERHOT Since the two operations overlap each other so much, speaking about fact and interpretation in legal science separately would undoubtedly be highly artificial. To speak about fact in law already brings in the operation we call interpretation. Equally, to speak about interpretation is to deal with the method of identifying reality and therefore, in large part, to enter the area of the question of fact. By way of example, Bernard Jackson's text, which we have placed in section 11 of the first part of this volume, could no doubt just as well have found a home in section I. This work is aimed at analyzing this interpretation of the operation of identifying fact on the one hand and identifying the meaning of a text on the other. All philosophies of law recognize themselves in the analysis they propose for this interpretation, and we too shall seek in this volume to furnish a few elements of use for this analysis. We wish however to make it clear that our endeavour is addressed not only to legal philosophers: the nature of the interpretive act in legal science is a matter of interest to the legal practitioner too. He

will find in these pages, we believe, elements that will serve him in reflection on his daily work.
