*Everything Under* Daisy Johnson, 2018-10-23 SHORTLISTED FOR THE 2018 MAN BOOKER PRIZE An eerie, watery reimagining of the Oedipus myth set on the canals of Oxford, from the author of *Fen* The dictionary doesn't contain every word. Gretel, a lexicographer by trade, knows this better than most. She grew up on a houseboat with her mother, wandering the canals of Oxford and speaking a private language of their own invention. Her mother disappeared when Gretel was a teen, abandoning her to foster care, and Gretel has tried to move on, spending her days updating dictionary entries. One phone call from her mother is all it takes for the past to come rushing back. To find her, Gretel will have to recover buried memories of her final, fateful winter on the canals. A runaway boy had found community and shelter with them, and all three were haunted by their past and stalked by an ominous creature lurking in the canal: the bonak. Everything and nothing at once, the bonak was Gretel's name for the thing she feared most. And now that she's searching for her mother, she'll have to face it. In this electrifying reinterpretation of a classical myth, Daisy Johnson explores questions of fate and free will, gender fluidity, and fractured family relationships. *Everything Under*—a debut novel whose surreal, watery landscape will resonate with fans of *Fen*—is a daring, moving story that will leave you unsettled and unstrung.

**Over, Under & Through** Tana Hoban, 1987 Photographs demonstrate the spatial concepts expressed in twelve words such as around, across, between, against, and behind.

**Over and Under the Snow** Kate Messner, 2012-12-07 Over the snow, the world is hushed and white. But under the snow exists a secret kingdom of squirrels and snow hares, bears and bullfrogs, and many other animals that live through the winter safe and warm, awake and busy, under the snow. Discover the wonder and activity that lies beneath winter's snowy landscape in this magical book.

Black Under Ashanti Anderson, 2021-09-28 The poem from which *BLACK UNDER* derives its title opens with a resounding declaration: I am black and black underneath. These words are an anthem that reverberates throughout Ashanti Anderson's debut short collection. We feel them as we navigate her poems' linguistic risks and shifts and trumpets, as we straddle scales that tip us toward trauma's still-bloody knife in one turn then into cutting wit and shrewd humor in the next. We hear them amplified through Anderson's dynamic voice, which sings of anguish and atrocities and also of discovery and beauty. *BLACK UNDER* layers outward perception with internal truth to offer an almost-telescopic examination of the redundancies--and incongruences--of marginalization and hypervisibility. Anderson torques the contradictions of oppression, giving her speakers the breathing room to discover their own agency. In these pages, declarations are reclamations, and joy is not an aspiration but a birthright.

*Under the Snow* Melissa Stewart, 2020-08-04 A cozy look at the amazing ways animals behave and interact with their environments on a snowy day. When snow falls, we go home where it is warm and safe. But what about all those animals out there in the forests and fields? What do they do when snow blankets the ground? Award-winning science writer Melissa Stewart offers a lyrical tour of a variety of habitats, providing young readers with vivid glimpses of animals as they live out the winter beneath the snow and ice. Constance R. Bergum's glowing watercolors perfectly capture the wonder and magic that can happen under the snow.

**Ursula, Under** Ingrid Hill, 2004-01-01 Ursula Wong, a racially mixed child, falls down a mine shaft and rescue efforts go on against a background of stories about her remarkable ancestors.

A first novel. Original.

**Decision Making Under Risk and Uncertainty** J. Geweke, 2012-12-06 As desired, the information demand correspondence is single valued at equilibrium prices. Hence no planner is needed to assign information allocations to individuals. Proposition 4. For any given information price system  $p \in P(F^*)$ , almost every  $A \in \mathcal{A}$  demands a unique combined information structure (although traders may be indifferent among partial information sales from different information allocations, etc.). In particular, the aggregate excess demand correspondence for net combined information trades is a continuous function. Proof Uniqueness fails only if an agent can obtain the same expected utility from two or more net combined information allocations. If this happens, appropriate slight perturbations of personal probability vectors destroy the equality unless the utility functions and wealth allocations were independent across states. Yet, when utilities and wealths don't depend on states in  $S$ , no information to distinguish the states is desired, so that the demand for such information structures must equal zero. To show the second claim, recall that if the correspondence is single valued for almost every agent, then its integral is also single valued. Finally, note that an upper hemicontinuous (by Proposition 2) correspondence which is single valued everywhere is, in fact, a continuous function. [] REFERENCES Allen, Beth (1986a). **Structures Under Shock and Impact** X Norman Jones, C. A. Brebbia, 2008 This text examines the interaction between blast pressure and surface or underground structures, whether the blast is from civilian, military, dust and natural explosions, or any other source.

*Under Pressure* Rashawn Hughes, 2011-02-25 Quentin 'QB' Banks has always been a fighter, even though it always seems as if he is holding on to life by a mere thread. After serving time in prison, QB returns to his Queens, New York neighborhood and begins working as the Director of U-Turn, an at-risk community center for teenagers. Nicknamed 'OG' (Original Gangster), QB is respected by all, especially two of the center's teenagers, Torry and Chase. When someone tries to gun down QB, Chase and Torry's lives change forever. QB fights to suppress his

feelings for revenge, while Torry is faced with a new challenge he doesn't think he can endure. Chase, on the other hand, carries a secret that can destroy them all. Will QB retaliate against his enemies? Will Torry overcome his internal demons? Will Chase come clean, tell the truth, and prevent others from getting hurt? Only time will tell when you're Under Pressure!

**Culture and Cultural Politics Under Reza Shah** Bianca Devos, Christoph Werner, 2013-08-22 Culture and Cultural Politics Under Reza Shah presents a collection of innovative research on the interaction of culture and politics accompanying the vigorous modernization programme of the first Pahlavi ruler. Examining a broad spectrum of this multifaceted interaction it makes an important contribution to the cultural history of the 1920s and 1930s in Iran, when, under the rule of Reza Shah Pahlavi, dramatic changes took place inside Iranian society. With special reference to the practical implementation of specific reform endeavours, the various contributions critically analyze different facets of the relationship between cultural politics, individual reformers and the everyday life of modernist Iranians. Interpreting culture in its broadest sense, this book brings together contributions from different disciplines such as literary history, social history, ethnomusicology, art history, and Middle Eastern politics. In this way, it combines for the first time the cultural history of Iran's modernity with the politics of the Reza Shah period. Challenging a limited understanding of authoritarian rule under Reza Shah, this book is a useful contribution to existing literature for students and scholars of Middle Eastern History, Iranian History and Iranian Culture.

**Under-Rewarded Efforts** Santiago Levy Algazi, 2018-07-11 Why has an economy that has done so many things right failed to grow fast? Under-Rewarded Efforts traces Mexico's disappointing growth to flawed microeconomic policies that have suppressed productivity growth and nullified the expected benefits of the country's reform efforts. Fast growth will not occur doing more of the same or focusing on issues that may be key bottlenecks to productivity growth elsewhere, but not in Mexico. It will only result from inclusive institutions that effectively protect workers against risks, redistribute towards those in need, and simultaneously align entrepreneurs' and workers' incentives to raise productivity.
