Miri Rodriguez, MIRIANIS RODRIGUEZ

Upcycle This Book Gavin Wade, 2017-02-17 Upcycle this book. Rewrite it as a manifesto. Steal and take and copy and change this book. Upcycle these twenty-three texts just as I have upcycled so many other texts and responded to many sets of existing conditions. Or unlike I have. Treat these words as existing conditions. Some of them are artworks. Some of them upcycle artworks by others. Some are barely texts at all. . . . Often the words are a script to be performed. Its useful to read words out loud in public. Gavin Wade is pragmatic utopian, an artist, artist-curator, artist-writer and one of the founding directors of Eastside Projects in Birmingham, UK. He has curated numerous exhibitions as well as written and published a number of books such as *Has Man a Function in Universe?* (Book Works, 2008). *Upcycle This Book* was co-published by Book Works and Stroom den Haag in an edition of 1,000.

**The Upcycle** William McDonough, Michael Braungart, 2013-04-16 Tackles resource scarcity and sustainability and describes how everyday objects from chairs to cars and factories are being redesigned to sustain and promote life.

*Upcycle Your Congregation* Sarah Lammert, 2018 Enhancing the quality of congregational life doesn't always require huge outlays of time and treasure. There are many ways we can "upcycle" the things we already do in our churches, with resources we already have. These nine engaging essays from Unitarian Universalist leaders in the field show creative ways to transform the main ingredients of our congregations into something relevant,

innovative, and new.

**The Old Green Chair** Traudi Allen, 2012-07-11 Who would have thought a chair could be so wise? The Old Green Chair tells in story form how solutions to seemingly impossible problems are there for the finding. The second in THE HOUSE SERIES OF PICTURE BOOKS FOR CHILDREN, this charming story shows that when it seems things couldn't get any worse, life can take a turn that could hardly be better.

**Trash to Treasure** Pam Scheunemann, 2013-10-14 Shares step-by-step instructions for recycling trash into useful handmade objects, providing information to creative youngsters about how to repurpose fabric, paper, metal, glass and ceramics to make items ranging from bottle-top pop art collages to felt-covered tin can organizers. Original.

**#Upcycle Your Job** Anna Meller, 2019-03-29 Women make up the majority of university graduates. They enter the workplace in equal numbers with men. But many workplaces still operate with cultures developed over a century ago to reflect a predominantly male workforce and vastly differing social expectations. So all too often as women become parents they are forced to fix things in the only way they can - by downgrading their job expectations or dropping out of the corporate world. Anna Meller believes it's high time we #Upcycled our jobs and careers to fit today's lifestyles and meet women's changed expectations. Her PROPEL model offers ambitious working mothers new possibilities for progressing their corporate careers. In this book, Anna

leads you through an evidence-based six step process that supports you in finding the balance you need. Practical exercises enable you to craft a working arrangement that meets your employer's expectations as well as your own aspirations, and to develop the key skills you need to maintain it.

**Upcycling** Danny Seo, 2011-08-23 Renowned environmental lifestyle expert and Today Show regular Danny Seo shares 100 of his most inspiring projects for creative transformation. Have neglected items around your house? They can be the source for exciting craft possibilities! Turn your old leather belts into a cool doormat (or even a briefcase!); worn-out paperbacks into gorgeous bud vases; tennis balls into a quaint country swing; chopsticks into a handsome trivet, and many more. With full-color photos throughout to guide and inspire, Danny shows that it's easy to be crafty, and fun to be budget- and eco-conscious.

**Cradle to Cradle** William McDonough, Michael Braungart, 2010-03-01 A manifesto for a radically different philosophy and practice of manufacture and environmentalism Reduce, reuse, recycle urge environmentalists; in other words, do more with less in order to minimize damage. But as this provocative, visionary book argues, this approach perpetuates a one-way, cradle to grave manufacturing model that dates to the Industrial Revolution and casts off as much as 90 percent of the materials it uses as waste, much of it toxic. Why not challenge the notion that human industry must inevitably damage the natural world? In fact, why not take nature itself as our model? A

tree produces thousands of blossoms in order to create another tree, yet we do not consider its abundance wasteful but safe, beautiful, and highly effective; hence, waste equals food is the first principle the book sets forth. Products might be designed so that, after their useful life, they provide nourishment for something new—either as biological nutrients that safely re-enter the environment or as technical nutrients that circulate within closed-loop industrial cycles, without being downcycled into low-grade uses (as most recyclables now are). Elaborating their principles from experience (re)designing everything from carpeting to corporate campuses, William McDonough and Michael Braungart make an exciting and viable case for change.

This book takes readers on a journey through the multidimensional relationship between individuals and clothing. significant contributions to existing literature. *Upcycled Chic and Modern Hacks* Liz Bauwens, Alexandra Campbell, 2015-03-12 In an age when we can buy the same bookcase in Sweden, Singapore, and San Francisco, adding individuality to our surroundings is increasingly important. It creates a sense of place, a feel of home. Upcycling sums up today's approach to interiors. It means re-using or re-styling things in an innovative and contemporary way, transforming an older piece of furniture from junk to fabulous. The same idea can even be applied to mass-market modern furniture—through hacking, you can give it a brand new use or an entirely different look. Both upcycling and hacking are about re-purposing, taking an inexpensive item and re-working it into something special and unique. It's not just about making the most of your budget, although upcycling and hacks will save you money. It's about having a home that reflects your style and individuality. Sometimes it's just a question of looking at that old thing in a different way, such as hanging an empty picture frame on the wall, using a piece of outdoor furniture inside, adding different doors to chain-store fittings, or combining traditional and modern

in quirky, individualistic ways.

**Retrash** Nathan Devine, 2014 Retrash will inspire you with creative and innovative ideas on reusing second hand materials. Recycling and upcycling come together through the work of 82 designers and artists from 20 countries around the world.

**Brand Storytelling** Miri Rodriguez, MIRIANIS RODRIGUEZ, 2020-03-03 WINNER: Independent Press Award 2021 - Marketing & Public Relations category WINNER: NYC Big Book Award 2020 - Sales and Marketing category WINNER: The Stevie Awards 2020 - 'Book of the Year' Silver award, Women in Business category Written by the award-winning storyteller Miri Rodriguez at Microsoft, this actionable guide goes beyond content strategy and, instead, demonstrates how to leverage brand storytelling in the marketing mix to strengthen brand engagement and achieve long-term growth, with advice from brands like Expedia, Coca Cola, McDonalds, Adobe and Google. Despite understanding essential storytelling techniques, brands continue to explain how their product or service can help the customer, rather than showcasing how the customer's life has changed as a result of them. Brand Storytelling gets back to the heart of brand loyalty, consumer behaviour and engagement as a business strategy: using storytelling to trigger the emotions that humans are driven by. It provides a step by step guide to assess, dismantle, and rebuild a brand story, shifting the brand from a 'hero' to 'sidekick' mentality, and positioning the customer as a key influencer to motivate the audience.

Simplifying where to begin, how to benchmark success and ensure a consistent brand voice throughout every department, this book clearly shows how readers can align an emotive connection with the customer's personal values, experiences and aspirations, and how that will enable brand leaders, employees and influencers to celebrate and strengthen brand engagement for the long-term, rather than simply trying to win it. Clarifying why machine-learning, AI and automation only tell one side of the story, this book will inspire you with cutting edge interviews and case studies from leading brands like Expedia, Coca Cola, McDonalds, Adobe and Google, to tap into authentic brand loyalty and human connection.
