**The Matt Urban Story** Matt Urban, Charles Conrad, 1989 A unique narration by Lt. Colonel Matt Urban (Medal of Honor Recipient) emotionally involves readers in World War II battles on three continents & his final battle ending with a bullet through Urban's neck. Urban's book is different: Larger easy-reader print for old soldiers. Story action is on the right pages; photos & facts on the left do not interrupt reader progress. Also, a veteran can create a personal war diary on special lined pages. Readers hit the beach as thousands of sevicemen invade Africa. They share experiences with Do or Die orders, Kill or Be Killed actions, meet & defeat German Field Marshall Erwin Rommel, the Desert Fox. We join the 9th Division Invasion of Sicily & Urban's miraculous Silent March to outflank German forces. Urban goes AWOL from an English hospital. He hobbles to the Normandy front & leads his troops on the break-out at St. Lo. This earned Urban's Medal of Honor recommendation. Thousands of soldiers had individual battles to win, & their collective effort brought victory according to Urban. He also believes the collapse of Communism is the result of victories of World War II, Korea, Vietnam & current military preparedness.

**Stories in Stone** David B. Williams, 2019-08-19 Most people do not think to observe geology from the sidewalks of a major city, but all David B. Williams has to do is look at building stone in any urban center to find a range of rocks equal to any assembled by plate tectonics. In Stories in Stone, he takes you on explorations to find 3.5-billion-year-old rock that looks like swirled pink-and-black taffy, a gas station made of petrified wood, and a Florida fort that has withstood three hundred years of attacks and hurricanes, despite being made of a stone that has the consistency of a granola bar. Williams also weaves in the cultural history of stone, explaining why a white fossil-rich limestone from Indiana became the only building stone used in all fifty states; how in 1825, the construction of the

Bunker Hill Monument led to America's first commercial railroad; and why when the same kind of marble used by Michelangelo clad a Chicago skyscraper it warped so much after nineteen years that all 44,000 panels of it had to be replaced. This love letter to building stone brings to life the geology you can see in the structures of every city.

**Clayton, Missouri** Mary Delach Leonard, Melinda Leonard, 2012 In 1878, Ralph Clayton and his neighbors Martin Franklin and Cyrene Hanley donated 104 acres of farmland so that St. Louis County could build a courthouse and county seat. The townsfolk who pushed to incorporate Clayton, Missouri, in 1913 had little reason to suspect that their rural outpost of small frame buildings and plank sidewalks would later be recognized as a progressive metropolitan hub—one carefully buffered from quiet tree-lined neighborhoods and gorgeous parks. Clayton, Missouri: An Urban Story reveals the making of a city and the people who built it as a community. This lavishly illustrated book tells Clayton's story through historical anecdotes and the voices of residents, timelines, and pullout sections on key facts and figures, plus stunning photographs of modern street scenes and nostalgic images of the city's past. Also highlighted are important city leaders and residents who looked to the future at critical moments. Their efforts helped yield the Clayton of 2013, where magnificent steel and glass high-rises reach to the sky within blocks of historically splendid homes, many of them designed by noted architects of the twentieth century.

A Detroit Story Claire W. Herbert, 2021-03-16 Bringing to the fore a wealth of original research, A Detroit Story examines how the informal reclamation of abandoned property has been shaping Detroit for decades. Claire Herbert lived in the city for almost five years to get a ground-view sense of how this process molds urban areas. She participated in community meetings and tax foreclosure protests, interviewed various groups, followed scrappers through abandoned buildings, and visited squatted

houses and gardens. Herbert found that new residents with more privilege often have their back-to-the-earth practices formalized by local policies, whereas longtime, more disempowered residents, usually representing communities of color, have their practices labeled as illegal and illegitimate. She teases out how these divergent treatments reproduce long-standing inequalities in race, class, and property ownership.

**China's Urban Billion** Tom Miller, 2012-11-22 By 2030, China's cities will be home to 1 billion people - one in every eight people on earth. What kind of lives will China's urban billion lead? And what will China's cities be like? Over the past thirty years, China's urban population expanded by 500 million people, and is on track to swell by a further 300 million by 2030. Hundreds of millions of these new urban residents are rural migrants, who lead second-class lives without access to urban benefits. Even those lucky citizens who live in modern tower blocks must put up with clogged roads, polluted skies and cityscapes of unremitting ugliness. The rapid expansion of urban China is astonishing, but new policies are urgently needed to create healthier cities. Combining on-the-ground reportage and up-to-date research, this pivotal book explains why China has failed to reap many of the economic and social benefits of urbanization, and suggests how these problems can be resolved. If its leaders get urbanization right, China will surpass the United States and cement its position as the world's largest economy. But if they get it wrong, China could spend the next twenty years languishing in middle-income torpor, its cities pockmarked by giant slums.

**Slayer: an urban fantasy fae assassin story** Thea Atkinson, Her orders are to assassinate her mentor, but will the fae general teach her one last deadly lesson? Kelliope has been indentured to the Shadow Sidhe for centuries because her natal magics allow her to be a malleable vessel temporarily charged with power. As slayer kindred, she has been born and bred to kill. She lives only so long as

she obeys. But she is keeping a traitorous secret. And the Shadow Sidhe are not masters to be betrayed. When she receives orders that her next target is her own mentor, she soon discovers there's more at stake than the loss of a foster father. *The Story of Us* TIM. URBAN,2022-06-07 There's a concerning trend happening in the modern world right now: we're becoming more polarised, more tribal, worse at cooperating, and communicating. Or, said more succinctly, if modern society is like a human, that human seems to be getting younger and less mature each year that goes by. To make matters worse, any attempt at fixing our fractured society is labelled as radioactive. How did we get here, and why is it so hard to talk to each other about these issues? Tim Urban, the mind behind the popular blog Wait But Why, has spent years pondering this conundrum, and he's come to believe that the problems we face today, and their underlying causes, aren't actually that mysterious. The problem is that the language we use to talk about society is outdated and loaded with polarising baggage - if we can't think and talk clearly about our minds, our communities, and our societies, then we can't solve our problems. In *The Story of Us*, Urban forges a way through this impasse via a bold new language - full of new terms, enlightening graphs, and hilarious comics - that can help us think and talk better about who we are

and what ails us. A masterclass in scientific clarity and humour, *The Story of Us* helps untangle our tribal, Us versus Them instincts from those that encourage us to be more collaborative and open-minded, offering tools for a more peaceful future.

**A Detroit Story** Claire W. Herbert, 2021-03-16 Bringing to the fore a wealth of original research, *A Detroit Story* examines how the informal reclamation of abandoned property has been shaping Detroit for decades. **Urban Stories** Alexandru Cristian, 2019-10-12 I'm a chronicler of a world that doesn't exist. A gray world that has nothing spectacular in it. In the people's opinion, the city is their permanent nightmare. If the city is a nightmare, then I don't understand the phenomenon of rapid urbanization. Anyway, I'm not a sociologist, I'm an unknown journalist. My name doesn't matter, but you can call me Abel. There's no biblical connotation, it's the first name that came out of my way. I'm writing a few modest newspapers. I earn my money by composing commercials for different nonsense that are hardly sold. I missed myself as a writer. I'm a lost destiny, in my opinion. In my friends' opinion, I'd be a good journalist. I declare myself chronicler of common facts that can change the world. No one has ever thought about how a simple pillar can change destiny or how a newspaper stand can give rise to

something special. I'm trying with my clear lack of talent on the following pages to introduce you to some stories about the city's life. I confess you something; I hope to remain between us... I sent them to the newspaper, no one published them, I went to a prestigious publishing house, the people there said I had no academic language, I tried a smaller publisher, but I was given the understanding that I should bring some money from home, I tried my luck on bad magazines, where I was replicated to write too elevated. In short, no one wanted to publish me. So I finally found a possibility to share them with you. I hope you don't crisp me too harshly. I sincerely want my little urban stories to be known over time by the inhabitants of any great city in the world. Don't worry, I don't write chronicles about the life of the great city. I'm not a discreet citizen, because I like to talk about everything that's going on around me. The magic of metropolis is the fantasy of the man who wants to forget his story. I'm glad I live in a big city, so I forget the story of my life, a story I didn't write, I didn't manage to live it. That's why in the city I dissolve myself and disappear into every cement fiber, and from me remains something hard to explain. Probably nothing...I wrote these lines to free myself. I believe that when we are in love, angry, tired, the city with its diverse vastness calms us down and rests us. I want to share with you several events in a city that exists, Bucharest. But it's my Bucharest that I see just the way I feel. I wish I could match the words exactly as I wish, to tell you a story of this indescribable city. A simple story...

**Tina's Story** Tina's Story, 2016-02-02 Mila was a cold hearted bad chick, who only cared about herself. Her man was Dred, a powerful boss who ran half the city, his charm, wisdom and silent power helped him to reach the upper echelon of society. Mila was his Queen who wanted nothing more than to take his throne for herself. Mila found out she had lost Dred's love and knew that she had to get rid of his side piece, Tessa. There was no way she could let another woman turn his head and undermine

all of her devious plans. When Mila had her goons kidnap Tessa off the streets she thought she had solved her little problem. She didn't realize that Tessa's sister, Tina, was a forced to be reckoned with. Tina soon finds out that her sister is missing. A calculated and beautiful threat, Tina terrorizes the streets stopping at nothing to try and get her sister back safely. This story a polished action packed tale of passion, revenge and deceit. Make yourself comfortable because this is definitely a page turner. Don't Believe me? Read it

*Be Afraid, Be Very Afraid: The Book of Scary Urban Legends* Jan Harold Brunvand,2004-10-15 An anthology of the most chilling urban legends of all time collected by the maestro himself. Urban legends are those strange, but seemingly credible tales that always happen to a friend of a friend. For the first time, Professor Jan Harold Brunvand, who has achieved almost legendary status (Choice), has collected the creepiest, most terrifying urban legends, many that have spooked you since your

childhood and others that you believe really did occur—even if it was one town over to some poor hapless coed who left a party early only to be followed by a man who just got loose from a mental hospital. From the classic hook-man story told around many a campfire to Saved by a Cell Phone, these spine-tingling urban legends will give you goose bumps, even when you know they can't be true. Still, you'll continue to check the backseat of your car at gas stations and look under your bed at night before praying for sleep.

Big City Cool Morton Jerry Weiss, Helen S. Weiss, 2002 A collection of short stories shares the experiences and emotions of young people growing up in big cities across America.

*Chaotic Endeavors* Aubry J, 2020-09-18 Chocolate? Check. Tall? Check. Fine? Check. Has his own money? Check. Smart? Check. Knows how to please a woman? Double Check. Chance Douglass knows a two things, tattoos and women and that's all he cares about. He had one motto, never get attached, let them know from jump they weren't anything but sex partner and if they stepped out of line? They had to go. He lives his life to the fullest and if you expect an apology then your barking up the wrong six foot three-inch-tall tree. So, moving to a new town to open another successful tattoo shop seemed like a no brainer. Even if the move is temporary, he was still down for a little fun. That is until he sees her. At the airport, but he was busy handling business and could stop. Then the bar but someone from his past needed her more. So, when the third time presented itself? All bets were off, any and everything was possible. Everything done has a reason, every move has to be thought out before executed. List all possible results before going through with any plan. Be logical, set days for certain things. Never do the unexpected. Queen McDaniel has done the exact same thing for the last twenty years, and that's play chess. But now its time to retire and move on with her life and her friends just want her to have a little fun. Be open, explore, if it sounds like a bad idea then do it, date a little and if

push comes to shove don't say no. Chance has something that she wants, and his price is fairly reasonable. Four dates. That's all he wants, and she can walk away a very happy woman. What neither of them expected was to constant interference of life. Her mother can't back off and let her make her own decisions and his brother's cant stay off the women that they love bad side. Every time they turn around something or someone is pulling them back. This unsuspecting duo are in for it, but nothing in life that's worth it is never easy.

The Truth Never Stands in the Way of a Good Story Jan Harold Brunvand, 2000 Here he [the author] looks in detail at a dozen rampant and long-lived examples of this vigorous category of contemporary folklore, tracing their histories, variations, sources, and meanings.--Jacket.

**Too Good to Be True: The Colossal Book of Urban Legends** Jan Harold Brunvand, 2011-02-07 If you enjoy these too-good-to-be-true tales, Brunvand's new book will give you hours of pleasure.—Chicago Tribune A fabulously entertaining book from the ultimate authority on those almost believable tales that always happen to a friend of a friend. Alligators in the sewers? A pet in the microwave? A tragic misunderstanding of the function of cruise control? No, it didn't really happen to your friend's sister's neighbor: it's an urban legend. And no matter how savvy you think you are, you are sure to find in this collection of over 200 tales at least one story you would have sworn was true. Jan Harold Brunvand has been collecting and studying this modern folklore for over twenty years. In *Too Good to Be True* he captures the best stories in their best retellings, along with their latest variations and examples of how the stories have changed as they move from person to person and place to place. To help you find your favorite, Brunvand has arranged the tales thematically. *Bringing Up Baby* is full of episodes of child-rearing gone wrong, including the grisly tale of the drugged out baby-sitter who mistakes the kid for a turkey. *Funny Business* showcases stories of

infamous lapses in customer service, such as the story of the shockingly expensive chocolate chip cookie recipe. And *The Criminal Mind* features both brilliant --if they were real --scams, as well as the purported antics of the less mentally gifted. Whether you want to become an expert debunker or just have plenty of laughs, this book will surprise and entertain you. Illustrated throughout. Informative and entertaining....
