Ageing with Smartphones in Urban Italy Shireen Walton,2021-05-06 'Who am I at this (st)age? Where am I and where should I be, and how and where should I live?' These questions, which individuals ask themselves throughout their lives, are among the central themes of this book, which presents an anthropological account of the everyday experiences of age and ageing in an inner-city neighbourhood in Milan, and in places and spaces beyond. Ageing with Smartphones in Urban Italy explores ageing and digital technologies amidst a backdrop of rapid global technological innovation, including mHealth (mobile health) and smart cities, and a number of wider socio-economic and technological transformations that have brought about significant changes in how people live, work and retire, and how they communicate and care for each other. Based on 16 months of urban digital ethnographic research in Milan, the smartphone is shown to be a 'constant companion' in, of and for contemporary life. It accompanies people throughout the day and night, and through individual and collective experiences of movement, change and rupture. Smartphone practices tap into and reflect the moral anxieties of the present moment, while posing questions related to life values and purpose, identities and belonging, privacy and sociability. Through her extensive investigation, Shireen Walton argues that ageing with smartphones in this contemporary urban Italian context is about living with ambiguity, change and contradiction, as well as developing curiosities about a changing world, our changing selves, and changing relationships with and to others. Ageing with smartphones is about figuring out how best to live together, differently.

This book reveals the fundamental role played by the wooden house in the formation of urban Sweden and Swedish history.

Populism and (Pop) Music Manuela Caiani,Enrico Padoan,2023-01-06 This book launches a proposal: to fill some empirical and theoretical gaps that presently exists in populism studies by looking at the potential nexus between populist phenomena and popular culture. It provides a detailed account of the multiple mechanisms linking the production of pop music (as a form of popular culture) to the rise and reproduction of populism. The authors use a case study of Italy to interrogate these mechanisms because of its long-lasting populist phenomena and the contextual importance of pop music. The book's mixed-methods strategy assesses three different aspects of the potential relationship between pop music and populist politics: the cultural opportunity structure generated and reproduced by the production of music, the strategies political actors use to exploit music for political purposes, and, crucially, the ways fans and ordinary citizens understand the relationship between pop music and politics, and subsequent debates and identities. Moving from the case study, the book in its last chapter offers a more general understanding of the associations between pop music and populism.

Paper Trails Cameron Blevins,2021-03-04 A groundbreaking history of how the US Post made the nineteenth-century American West. There were five times as many post offices in the United States in 1899 than there are McDonald's restaurants today. During an era of supposedly limited federal government, the United States operated the most expansive national postal system in the world. In this cutting-edge interpretation of the late nineteenth-century United States, Cameron Blevins argues that the US Post wove together two of the era's defining projects: western expansion and the growth of state power. Between the 1860s and the early 1900s, the western United States underwent a truly dramatic reorganization of people, land, capital, and resources. It had taken Anglo-Americans the better part of two hundred years to occupy the eastern half of the continent, yet they occupied the West within a single generation. As millions of settlers moved into the region, they relied on letters and newspapers, magazines and pamphlets, petitions and money orders to stay connected to the wider world. Paper Trails maps the spread of the US Post using a dataset of more than 100,000 post offices, revealing a new picture of the federal government in the West. The western postal network bore little resemblance to the civil service bureaucracies typically associated with government institutions. Instead, the US Post grafted public mail service onto private businesses, contracting with stagecoach companies to carry the mail and paying local merchants to distribute letters from their stores. These arrangements allowed the US Post to rapidly spin out a vast and ephemeral web of postal infrastructure to thousands of distant places. The postal network's sprawling geography and localized operations forces a reconsideration of the American state, its history, and the ways in which it exercised power.

I'M Only A Child Wanda Montanelli,2020-08-17 Child brides sold as objects, with a rite of marriage or a simple exchange of money, to people of adult age, suffer real abuse, an act which aids paedophilia. The stories told in this book are true, they took place in Africa, India, Yemen, Niger, Pakistan, Syria, Mexico; places where, due to poverty, war, famine, it becomes customary for parents to sell their daughters to adult suitors in exchange for money. The social denouncement aims of the #maipiùsposebambine [no more child brides] inquiry are empowered by the author's collaboration, through the Osservatorio Onerpo [National and European monitoring centre for the safeguarding of equal opportunities] of which she is vice president, with the Girls Not Brides organisation, which, with a significant global partnership programme, plans to totally abolish forced marriage by 2030. Child brides sold as objects, with a rite of marriage or a simple exchange of money, to people of adult age, suffer real abuse, an act which aids paedophilia. The parties responsible are the families, which oblige their daughters to enter into forced marriages, and the men, who "buy" a child: as a wife-slave-sexual object. The stories told in this book are true, they took place in Africa, India, Yemen, Niger, Pakistan, Syria, Mexico; places where, due to poverty, war, famine, it becomes customary for parents to sell their daughters to adult suitors in exchange for money. The psychological and physical effects are devastating for girls torn from childhood and forced into marriage: from serious diseases like HIV, medical conditions caused by teenage pregnancies, psychiatric disorders, through to a high incidence of childbirth related deaths of both mother and baby. The social denouncement aims of the #maipiùsposebambine [no more child brides] inquiry uphold the belief that joint efforts to combat the phenomenon of child marriage will further the development of an awareness by all the stakeholders: family, schools, governmental institutions. To actively contribute towards solving this serious problem the author collaborates, through the

Sikh Nationalism and Identity in a Global Age Giorgio Shani,2007-12-06 Sikh Nationalism and Identity in a Global Age examines the construction of a Sikh national identity in post-colonial India and the diaspora and explores the reasons for the failure of the movement for an independent Sikh state: Khalistan. Based on a decade of research, it is argued that the failure of the movement to bring about a sovereign, Sikh state should not be interpreted as resulting from the weakness of the 'communal' ties which bind members of the Sikh 'nation' together, but points to the transformation of national identity under conditions of globalization. Globalization is perceived to have severed the link between nation and state and, through the proliferation and development of Information and Communications Technologies (ICTs), has facilitated the articulation of a transnational 'diasporic' Sikh identity. It is argued that this 'diasporic' identity potentially challenges the conventional narratives of international relations and makes the imagination of a post-Westphalian community possible. Theoretically innovative and interdisciplinary in approach, it will be primarily of interest to students of South Asian studies, political science and international relations, as well as to many others trying to come to terms with the continued importance of religious and cultural identities in times of rapid political, economic, social and cultural change.

Post-Industrial Urban Greenspace Jennifer Foster,L. Anders Sandberg,2017-10-02 Post-industrial urban spaces typically include abandoned factories, disused rail lines, old pits and quarries, and de-commissioned landfills. In these places, different visions compete for dominance with respect to current and future land uses. Neighbours often view such urban greenspace as polluted, unkempt and weedy, harbouring undesirable biophysical features and people. These are spaces that often become the focus of some form of revitalization, reinvestment and restoration. From the perspective of civic authorities and urban planners, transforming post-industrial landscapes into disciplined and tended greenspace creates the urban conditions and signals of popular contemporary taste that attract investors, gentrifiers, and tourists. But post-industrial spaces are also places where unique and unpredictable human and ecological associations can emerge spontaneously. Such places may contain considerable ecological integrity and biodiversity and host human populations who find a home and respite in such ecologies. They also tell stories of an industrial and urban past that should be acknowledged, understood and (if suitable) celebrated. This volume explores the environmental justice and injustice dimensions of emerging urban post-industrial landscapes, including the ecological politics, cultural representations and aesthetics of these spaces. This bookw as published as a special issue of Local Environment.

Responding to Suicide Association of Catholic Mental Health Ministers,2020-11-20 Winner of the Resource of the Year award and a first-place award in resources for ministry from the Association of Catholic Publishers and a third-place award in pastoral ministry books from the Catholic Media Association. Many pastoral leaders feel ill-equipped to respond to the turmoil of those who face the death by suicide of a loved one. Responding to Suicide is the first book written for Catholic leaders that takes a holistic approach to understanding suicide and ministering effectively in its aftermath. More than a dozen leading mental health practitioners, Catholic theologians, and pastoral care experts share how best to respond to suicide as leaders in parishes, schools, healthcare systems, and other Church settings. The book offers a cross-disciplinary approach that provides basic information about the central role of mental health in suicide and clarifies Church teaching about suicide, funerals and burials for those who have died by suicide, and their afterlife. The National Center for Health Statistics and the Centers for Disease Control and Prevention report that suicide was the tenth most common cause of death among Americans of all ages in 2017 and the second leading cause of death among fifteen to twenty-four year-olds. Death by suicide is usually sudden, often violent, and frequently comes at the end of a long and difficult struggle with a mental illness. Heaped on top of that is a social stigma that leaves loved ones in shock and often burdened with shame. Responding to Suicide addresses common concerns of the bereaved following a suicide: skepticism that Catholic leaders will understand; fear that the Church teaches that their loved one is in hell; and belief that they will find little if any support in the Church. More than a dozen contributors from across the spectrum of Catholic life provide rich guidance rooted in firsthand experience of suicide loss. Contributors include Deacon Ed Shoener, Bishop John P. Dolan, Msgr. Charles Pope, Leticia Adams, Archbishop Wilton Gregory, Msgr. Stephen Rossetti, and clinical experts in the field of mental health and suicide. They share personal stories of loss, grief, hope, and healing, and clear up misconceptions about Church teaching. They offer practical takeaways for pastoral leaders: dos and don'ts when talking about suicide guidance for preaching and planning funerals information on the role of mental illnesses in suicide resource lists for those who grieve as well as for your own professional development suggested protocols for ministering to a school or parish community following a suicide ideas about forming parish outreach ministries to the bereaved that address the needs of suicide loss
