In 'Mayumi's Kitchen', her first book in English, she shares her repertoire of healthy, delicious recipes, starting with a 10-day meal plan for

L'occio Zuanne Papadopoli,2007 In the closing years of the seventeenth century an aged Cretan refugee called Zuanne Papadopoli, who had fled from his homeland at the time of its conquest by the Ottomans, sat down in his adopted city of Padua to write his memoirs ... Historians and literary scholars working on the Venetian period of Cretan history owe a debt of gratitude to the antiquarian and Chania lawyer Ioannis Skoulas, who had the good fortune to locate Papadopoli's manuscript in the Museo Correr in Venice and subsequently made it known to the community of scholars. Written during the author's years of exile on the Italian mainland, the text, known by its title L'Occio ... contains a mass of detail on everyday life in the city and district of Candia, the modern Iraklio, before the Ottoman invasion. In a direct and engaging manner the writer describes the manners and customs of this time and gives a lively description of various aspects of life in Candia at the end of the period of Venetian rule.--Preface, p. [9].

Paris Patrice L. R HIGONNET,2009-06-30 In an original and evocative journey through modern Paris from the mid-eighteenth century to World War II, Patrice Higonnet offers a delightful cultural portrait of a multifaceted, continually changing city. In examining the myths and countermyths of Paris that have been created and re-created over time, Higonnet reveals a magical urban alchemy in which each era absorbs the myths and perceptions of Paris past, adapts them to the cultural imperatives of its own time, and feeds them back into the city, creating a new environment. Paris was central to the modern world in ways internal and external, genuine and imagined, progressive and decadent. Higonnet explores Paris as the capital of revolution, science, empire, literature, and art, describing such incarnations as Belle Epoque Paris, the Commune, the surrealists' city, and Paris as viewed through American eyes. He also evokes the more visceral Paris of alienation, crime, material excess, and sensual pleasure. Insightful, informative, and gracefully written, Paris illuminates the intersection of collective and individual imaginations in a perpetually shifting urban dynamic. In describing his Paris of the real and of the imagination, Higonnet sheds brilliant new light on this endlessly intriguing city.

Crampton Hodnet Barbara Pym,2013-08-01 Miss Morrow is content in her position as spinster companion to Miss Doggett, even if her employer and the woman's social circle regard her as a piece of furniture. Stephen Latimer, the new cleric and Miss Doggett's dashing new tenant, upsets the balance for Miss Morrow by proposing the long discounted possibility of marriage.

The Syntax of Apollonius Dyscolus Apollonius (Dyscolus),1981-01-01 Apollonius Dyscolus was the first formal syntactician in Graeco-Roman linguistics. He considered the nature of language to be logical and rule-governed, and assumed an underlying structure for all levels of language. It might be said that from

the work of his predecessors, he extracted syntax. This volume contains an English translation of [?] mainly [?] Uhlig's 1910 edition of *De Constructione Libri Quattor* (*Peri Suntaxeos*), with commentary, an introduction, and an article on Apollonius Dyscolus and the Origins of Deep Structure.

The Tangled Ways of Zeus Alan H. Sommerstein, 2010-05-13 A collection of studies written over the last twenty years by the distinguished classicist Alan Sommerstein about various aspects of ancient Greek tragedy (and, in some cases, other related genres). It complements his recent collection of studies in Greek comedy, *Talking about Laughter* (OUP, 2009).

Feminine Sentences Janet Wolff, 2018-03-08 This new book integrates material drawn from a variety of sources - feminist theory, cultural and literary analysis, sociology and art history - in an original discussion of women's relationship to modern and post-modern culture. The essays in the book challenge the continuing separation of sociological from textual analysis in cultural (and feminist) theory and enquiry. They address critically the question of women's writing, exploring the idea that women may begin to define their own lives and construct their identities in a patriarchal culture through the very process of writing. They also present a cogent defence of a feminist cultural politics, including a politics of the body.

Grammatical Theory and Philosophy of Language in Antiquity Pierre Swiggers, Alfons Wouters, 2002 This collective volume contains studies in the field of ancient grammar, poetics and philosophy of language. The contributions, written by specialists in the field, focus on central themes in the historiography of ancient linguistics, such as the status of grammar as a discipline in Antiquity, the relationship between poetics and grammatical theory, the constitution and development of the word class system, the descriptive format of grammars, the nature and description of specific word classes, the development of grammatical argumentation. In addition, several methodological issues in the study of ancient grammar and philosophy of language are dealt with: the problem of continuity vs. discontinuity in the history of linguistic thought, the role of schoolroom activities in the development of grammatical description and theory-formation, and problems concerning tradition, influence and originality in ancient linguistics. The volume is rounded off with extensive indices of proper names, concepts and technical terms.

The Contradictions of Culture Elizabeth Wilson, 2001-03-08 In this book, one of the most accomplished and thoughtful cultural commentators of the day, considers the contradictory nature of cultural relations. Elizabeth Wilson explores these themes through an examination of fashion, feminism, consumer culture, representation and postmodernism. Debates within feminism on the nature and effects of pornography are used to illustrate a particular kind of cultural contradiction. Wilson recognizes that postmodernism permitted the reappropriation of subjects that were not previously considered worthy of attention, or opposed to the idea of emancipation, chief among these was fashion. She shows that the association of an interest in this culturally significant subject with a revisionist project raises doubt

Lexique. Lexicologie. Lexicographie. Pierre Swiggers, Alfons Wouters, 2003 A joke, one might think, knowing that ancient grammar famously lacked a syntactic component. Not so, say the scholars: the very absence of the category syntax calls for theoretical and historical analysis, and a scratch at the surface reveals that ancient grammarians did indeed recognize and deal with various aspects of syntax. The 16 papers, five of them in English and the others in German or French, look at syntactic description and reflection in antiquity, Alexandrian grammarians and syntax, virtues and vices of speech, and the Latin and Byzantine heritage. Reflections on Biography Paula R. Backscheider, 2013-09 *Reflections on Biography* is intended for all readers of biography--lifelong or occasional, critical or casual--and is written by an award-winning biographer, Paula R. Backscheider. The author examines biography from many angles and gives a tour of the decisions biographers make and some of the implications of those choices. Its aim is to increase the pleasure of reading biographies, to add new, enjoyable dimensions even as it increases readers' insights into the art of writing them. The book concludes with observations about the form's future directions and challenges. In this second edition, Backscheider provides a new Introduction that describes innovative forms of biography and new theoretical directions.

History of the Surrealist Movement Gérard Durozoi, 2002 Tracing the movement from its origins in the 1920s to its decline in the 1950s and 1960s, Durozoi tells the history of Surrealism through its activities, publications, and reviews, demonstrating its close ties to some of the most explosive political, as well as creative, debates of the twentieth century. Unlike other histories, which focus mainly on the pre-World War II years of the movement in Paris, Durozoi covers both a wider chronological and geographic range, treating in detail the postwar years and Surrealism's colonization of Latin America, the United States, Japan, Czechoslovakia, Belgium, Italy, and North Africa. Drawing on documentary and visual evidence--including 1,000 photos, many of them in color--he illuminates all the intellectual and artistic aspects of the movement, from literature and philosophy to painting, photography, and film. All the Surrealist stars and their most important works are here--Aragon, Borges, Breton, Buñuel, Cocteau, Crevel, Dalí, Desnos, Ernst, Man Ray, Soupault, and many more--for all of whom Durozoi has provided brief biographical notes in addition to featuring them in the main text.

The Spectacular Modern Woman Liz Conor, 2004-07-16 Liz Conor explores the role of media technology in the emergence of the 'modern woman' in the 1920s. At once liberating & confining, the media images of women set standards of appearance that were closely tied to ideas about the roles a woman could fulfill, from city girl to mannequin to flapper.
