The House of the Vampire George Sylvester Viereck,2013-06-30 The first known gay vampire novel and one of the first psychic vampire stories.A young writer comes under the powerful influence of a mysterious older master, who seems to have left a trail of ruined proteges in his wake. The story is as much about the nature of artistic creation as it is a chilling vampire tale. Originally published in 1907, The House of the Vampire is notable as one of the first psychic vampire stories, as well as the first known gay (actually, bisexual) vampire story. In this early vampire story, we get a look at the inner workings of the immortal mind. Desire is at the heart of a dark quest that ends with an unexpected turn of events. Known as the first gay vampire story, the tale is also one of the first to concentrate on the mind and soul of the creature.

The House of the Vampire George Sylvester Viereck,2019-02-15 “The House of the Vampire” is a 1907 vampire story by George S. Viereck about a young writer who falls under the powerful influence of a old and mysterious master. However, the writer is not the first of his underlings, as the young man finds out in the most terrible of ways. George Sylvester Viereck (1884 – 1962) was a German-American writer and poet. Other notable works by this author include: “Nineveh and Other Poems” (1907), “Confessions of a Barbarian” (1910), and “The Candle and the Flame” (1912). This chilling tale of lust and terror will appeal to fans of vampire fiction, and it is not to be missed by the discerning collector of vintage literature of this ilk. Many vintage books such as this are increasingly scarce and expensive. It is with this in mind that we are republishing this volume now in an affordable, modern, high-quality edition complete with the original text and artwork.

Aleister Crowley and the Temptation of Politics Marco Pasi,2014-09-11 Aleister Crowley (1875-1947) is one of the most famous and significant authors in the history of western esotericism. Crowley has been long ignored by scholars of religion whilst the stories of magical and sexual practice which circulate about him continue to attract popular interest. Aleister Crowley and the Temptation of Politics looks at the man behind the myth - by setting him firmly within the politics of his time - and the development of his ideas through his extensive and extraordinarily varied writings. Crowley was a rationalist, sympathetic to the values of the Enlightenment, but also a romantic and a reactionary. His search for an alternative way to express his religious feelings led him to elaborate his own vision of social and political change. Crowley's complex politics led to his involvement with many key individuals, organisations and groups of his day - the secret service of various countries, the German Nazi party, Russian political activists, journalists and politicians of various persuasions, as well as other writers - both in Europe and America. Aleister Crowley and the Temptation of Politics presents a life of ideas, an examination of a man shaped by and shaping the politics of his times.

Wizard Marc J. Seifer,1996 A biography of the Croatian immigrant who has been called the patron saint of electricity.

Pragmatic Conservatism Robert J. Lacey,2016-08-05 This book is a study of pragmatic conservatism, an underappreciated tradition in modern American political thought, whose origins can be located in the ideas of Edmund Burke. Beginning with an exegesis of Burke's thought, it goes on to show how three twentieth-century thinkers who are not generally recognized as conservatives—Walter Lippmann, Reinhold Niebuhr, and Peter Viereck—carried on the Burkean tradition and adapted it to American democracy. Pragmatic conservatives posit that people, sinful by nature, require guidance from traditions that embody enduring truths wrought by past experience. Yet they also welcome incremental reform driven by established elites, judiciously departing from precedent when necessary. Mindful that truth is never absolute, they eschew ideology and caution against both bold political enterprises and stubborn apologies for the status quo. The book concludes by contrasting this more nuanced brand of conservatism with the radical version that emerged in the wake of the post-war Buckley revolution.

Insidious Foes Francis MacDonnell,1995-11-02 Nazi Germany's efforts to weaken the United States by subversion failed miserably. Bungling spies were captured and half-hearted efforts at sabotage came to nothing. Yet anyone who lived through WWII remembers the chilling posters warning Americans that Enemy Agents Have Big Ears and Loose Lips Sink Ships. Even Superman joined the struggle against these insidious foes. In 1940, polls showed that 71% of Americans believed a Nazi Fifth Column had penetrated the country. Almost half were convinced that spies, saboteurs, dupes, and rumor-mongers lurked in their own neighborhoods and work-places. These fears extended to the White House and Congress. In this book, Francis MacDonnell explains the origins and consequences of America's Fifth Column panic, arguing that conviction and expedience encouraged President Roosevelt, the FBI, Congressmen, Churchill's government, and Hollywood to legitimate and exacerbate American's fears. Gravely weakening the isolationists, fostering Congress's role in rooting out Un-American activities, and instigating the creation of the modern intelligence establishment, the Fifth Column scare did far more than sell movie tickets, comic books, and pulp fiction. Insidious Foes traces the panic from its origins in the minds of reasonable Americans who saw the vulnerability of their open society in an age of encroaching totalitarianism.

Aleister Crowley: The Biography Tobias Churton,2012-01-01 In early 20th-century England, Aleister Crowley (1875-1947) was considered the wickedest man in the world. Today he's seen as a prophet, a master of the occult, and a spiritual pioneer—and his reputation just keeps on growing. This new biography, written with the cooperation of leading Crowley scholars and including new revelations from Crowley's grandson, displays the full scope of the man's many achievements as poet, explorer, spiritualist, wartime spy, and a thinker as significant as Jung, Freud, or Einstein.

The International ,1917

Conservatism Revisited Peter Viereck,2017-07-05 Peter Viereck, poet and historian, is one of the principle theoreticians of conservatism in modern American political thought. In this classic work, Viereck undertakes a penetrating and unorthodox analysis of that quintessential conservative, Prince Metternich, and offers evidence that cultural and political conservatism may perhaps be best adapted to sustain a free and reasonable society.According to Viereck's definition, conservatism is not the enemy of economic reform or social progress, nor is it the oppressive instrument of the privileged few. Although conservatism has been attacked from the left and often discredited by exploitation from the right, it remains the historic name for a point of view vital to contemporary society and culture. Divided into three parts, the book opens with a survey of conservatism in its cultural context of classicism and humanism. Rejecting the blind alley of reaction, Viereck calls for a

discriminating set of principles that include preservation through reform, self-expression through self-restraint, a fruitful nostalgia for the permanent beneath the flux, and a preference for historical continuity over violent rupture.Viereck locates our idea of Western political unity in Metternich's Concert of Europe whose goal was a cosmopolitan Europe united in peace. This ideal was opposed by both the violent nationalism that resulted in Nazism and the socialist internationalism that became a tool of Soviet Russian expansionism. While not ignoring the extremely negative aspects of Metternich's legacy, Viereck focuses on his attempts to tame the bellicosity of European nationalism and his little-known efforts to reform and modernize the Hapsburg Empire.

The House of the Vampire George Sylvester Viereck,2021-05 George Sylvester Viereck (born December 31, 1884 in Munich, died March 18, 1962) was a German-American poet, writer, and propagandist. Viereck's father, Louis, born out of wedlock to German actress Edwina Viereck, was reputed to be a son of Kaiser Wilhelm I, although another relative of the Hohenzollern family assumed legal paternity. Louis in the 1870s joined the Marxist socialist movement, and in 1896 emigrated to the United States, followed by his American born wife Laura and 12-year-old George Sylvester in 1897. George Sylvester Viereck in 1904, with the help of literary critic Ludwig Lewisohn published his first collection of poems, followed in 1907 by Nineveh and Other Poems which won Viereck national fame. A number of these are written in the style of the Uranian male love poetry of the time. He graduated from the College of the City of New York in 1906. In the 1920s, Nikola Tesla became a close friend of Viereck. According to Tesla, Viereck was the greatest contemporary American poet. Tesla occasionally attended dinner parties held by Viereck and his wife, and wrote a poem which he dedicated to his friend Viereck. It was called Fragments of Olympian Gossip in which Tesla ridiculed the scientific establishment of the day. Viereck turned into a Germanophile between 1907 and 1912. In 1908 he published the best-selling Confessions of a Barbarian. He lectured at the University of Berlin on American poetry in 1911. Notably, he conducted an interview with Adolf Hitler in 1923 which offered hints of what was to come. He founded two publications, The International and The Fatherland, which argued the German cause during World War I. Viereck became a well-known Nazi apologist, was indicted for a violation of the Foreign Agents Registration Act in 1941, when he set up his publishing house, Flanders Hall, and was imprisoned from 1942 to 1947. Viereck's memoir of life in prison, Men into Beasts, was published as a paperback original by Fawcett Publications' Gold Medal Book line of paperback originals in 1952. The book is a general memoir of discomfort, loss of dignity, and brutality in prison life, but the front matter and backcover text focuses on the situational homosexuality and male rape described in the book (witnessed, not experienced, by Viereck). The book, while a memoir, is thus the first original title of 1950s gay pulp fiction, an emerging genre in that decade. Viereck also published one of the first known gay vampire novels The House of the Vampire (1907). Not only is this one of the first known gay vampire stories, but it is also one of the first psychic vampire stories - where a vampire feeds off of more than just blood.

Yeah, reviewing a books **Viereck&sorty** could accumulate your near contacts listings. This is just one of the solutions for you to be successful. As understood, carrying out does not recommend that you have fantastic points.
