The Dragon's Teeth Benjamin Lai, 2016-07-14 An in-depth look at the past, present, and future of China's military. When Mao Zedong proclaimed the People's Republic of China in 1949, China was a poor and wrecked society after years of continuous wars. For centuries, in fact, China had been seen as a sort of plunder-zone to be invaded, and then a backwater until the late 1980s—when domestic policy brought about monumental changes. The result is that China has grown to be the second largest economy in the world, and its military has grown proportionately. Successive decades of economic growth have transformed China—in addition to the weapons revolution during the computer age—so that the People's Liberation Army (PLA) has become a modern fighting force. No longer having to rely on massed infantry attacks, it now features a formidable arsenal, including nuclear submarines, ICBMs, stealth fighters, and modern battle tanks. Perhaps ominously for other maritime powers, the Chinese have also focused on beyond-the-horizon missile technology, as well as anti-aircraft systems, and have explored the possibilities of cyber-warfare. What is today's PLA really like? What are its traditions and histories, and how is it armed and equipped? How does it recruit and train? This book describes some of the lesser-known battles and wars the Chinese have undertaken and the development of their key weapons systems. The United States, having opened the door to drone warfare, has had an attentive audience for such technologies in Beijing. The last chapter provides thoughts on how the Chinese view matters of security. It is not yet known whether foreign powers can still enforce their territorial wills on China—but future attempts will meet an increased challenge.

The Dragon Chronicles Real Dragon, 2015-02-27 The Dragon Chronicles is a product of the author's fascination for dragons, the Chinese Astrology in particular. He came up with this concept and weaves around a story that is based on his childhood, an interesting and wonderful journey that he treasures even in adult life. In this book, youngsters are taken to a unique and mystifying world where dragons thrive. A symbolic depiction of true human characters, in which social structures are based on interactions, positions and roles, this creation brings to life the magnificent elements of relationships. With a myriad of insightful lessons about family life, values and friendships, this literary masterpiece will take readers on an exciting journey like no other. This is the second book in the Dragon series. The book will examine the Baby Dragons, examine the compassionate and romantic relationship between Bear and Smoker Dragon, and examine the adventures of Real Dragon and the Cat Dragons.

The Samsara Xi Yangmei, 2020-01-01 Reincarnation is the meaning of circulation. It originates from the Buddhist scripture, and matures in the profound. The Three Realms had different emotions. There were sentient beings such as Heaven, Man, Xiu Luo, Hell, Ghost and Other living things, some of which ignored Xiu Luo and became the Five Interests. It is said that all living beings are attracted to the turning of life and death in the Three Realms and Six Daos because of greed, displeasure, and idiocy. It is just like the turning of wheels, never-ending, so it is called reincarnation. The city diaosi, Yang Zhengdong, had coincidentally obtained an Immortal Cultivation Methods and even acquired the art of reincarnation. From now on, it would be hard to defeat the Six Paths Reincarnation!

Legends in Chu and Han Long Zhu, 2019-11-15 The young instructor of the special forces, Long Tian Yu, had participated in protecting a treasure unearthed from the Mystical Royal Tomb, and accidentally went through time and space, arriving at the end of the Qin Dynasty. At this time, the Great Qin Empire was already in a state of turmoil, with dragons and snakes rising from the ground, metal horses rising from the ground, and wolves smoking everywhere.

Martial Sovereign of Myriad Realms Chen Yi, 2021-08-19 There were powerful cultivators here, and their strengths ruled over everything. Countries, sects, and other great powers ruled over a region, but this was only the corner of the Three Realms. Above this world, there were even Divine level experts running rampant through the heavens and the earth. And he would be able to see the trash Ye Feng, who was unable to awaken his Martial Veins, fuse with the various heavenly martial arts and rise all the way up to the top. He would be the supreme existence of ten thousand realms!

Martial arts become gods Yu Chun Hua, Tianyang is one of the many small countries on the mainland, hundreds of miles away from the periphery of the Mountain of Warcraft, and it is not outstanding in southeastern conference. However, Tianyang has many mines in China. Most of the royal Qin family are diligent and love the people, and there are also many businessmen among the people. Therefore, the economy is prosperous and the country is richer than the neighboring small countries. Unfortunately, Tianyang's military strength is not too strong, which makes neighboring countries swallow saliva, especially in places with strong martial arts like Shenlong Mainland, and wars are not uncommon. Therefore, in this year, the sworn enemy Qing Shuguo launched the seventh war in the history of the two countries
