Resonate Nancy Duarte,2013-07-02 Reveals the underlying story form of all great presentations that will not only create impact, but will move people to action Presentations are meant to inform, inspire, and persuade audiences. So why then do so many audiences leave feeling like they've wasted their time? All too often, presentations don't resonate with the audience and move them to transformative action. Just as the author's first book helped presenters become visual communicators, Resonate helps you make a strong connection with your audience and lead them to purposeful action. The author's approach is simple: building a presentation today is a bit like writing a documentary. Using this approach, you'll convey your content with passion, persuasion, and impact. Author has a proven track record, including having created the slides in Al Gore's Oscar-winning An Inconvenient Truth Focuses on content development methodologies that are not only fundamental but will move people to action Upends the usual paradigm by making the audience the hero and the presenter the mentor Shows how to use story techniques of conflict and resolution Presentations don't have to be boring ordeals. You can

make them fun, exciting, and full of meaning. Leave your audiences energized and ready to take action with Resonate.

Visual Storytelling Morgan Sandler,2018 Visual Storytelling covers all major components of creating powerful images including lighting, camera functions, composition and storytelling. Images carry emotional weight and Visual Storytelling teaches readers how to harness these emotions to maximize the emotion of the story, while minimizing the amount of dialogue necessary. What makes Visual Storytelling unique is that it not only covers the theoretical concepts of filmmaking but also the technical elements necessary to achieve the emotional outcome. This combination of theory and practice helps to create well informed and skilled filmmakers.
