Art History for Filmmakers Gillian

McIver, 2017-03-23 Since cinema's earliest days, literary adaptation has provided the movies with stories; and so we use literary terms like metaphor, metonymy and synecdoche to describe visual things. But there is another way of looking at film, and that is through its relationship with the visual arts – mainly painting, the oldest of the art forms. *Art History for Filmmakers* is an inspiring guide to how images from art can be used by filmmakers to establish period detail, and to teach composition, color theory and lighting. The book looks at the key moments in the development of the Western painting, and how these became part of the Western visual culture from which cinema emerges, before exploring how paintings can be representative of different genres, such as horror, sex, violence, realism and fantasy, and how the images in these paintings connect with cinema. Insightful case studies explore the links between art and cinema through the work of seven high-profile filmmakers, including Peter Greenaway, Peter Webber, Jack Cardiff, Martin Scorsese, Guillermo del Toro, Quentin Tarantino and Stan Douglas. A range of practical exercises are included in the text, which can be carried out singly or in small teams. Featuring stunning full-color images, *Art History for Filmmakers* provides budding filmmakers with a practical guide to how images from art can help to develop their understanding of the visual language of film.

Art in Story Marianne Saccardi, 2007 *Art in Story* focuses on art of the ancient world, of the East

and Africa, of the Middle Ages, and the Renaissance.

I Am An Artist Marta Altés, 2014-12-04 Meet the boy who can't stop creating art! He loves colours, shapes, textures and EVERYTHING inspires him: his socks, the contents of the fridge, even his cat gets a new coat (of paint!). But there's just one problem: his mum isn't quite so enthusiastic. In fact, she seems a little cross! But this boy has a plan to make his mum smile. He's about to create his finest piece yet and on a very grand scale . . . Funny, irreverent and perfect for creative children and adults, *I Am An Artist* by Marta Altés is a sharp, silly, fabulous book which shows that art is EVERYWHERE!

The Story of Art Ernst Hans Gombrich, 1995 Renowned not only as the best concise introduction to art history, but also as a classic of art historical literature, this book reflects the vast knowledge, insights, and expertise of one of this century's greatest art historians and thinkers. Extensively illustrated, it treats the history of art -- both chronologically and geographically -- as a continuous unfolding story. Offers a vivid, enthusiastic, and interpretive narrative written in direct, straightforward language -- with technical terms always explained when they are introduced. KEY TOPICS: Focuses on the most significant works of Western art. Considers each work of art in its context: shows how art reflects the historical setting, the artist's intentions, and the values of that civilization, and how each artist built upon, or sometimes reacted against, the style of his/her predecessors. Contains

chronological charts, maps, and notes on art books. Illustrates all works that are discussed. Features a new design--with each illustration appearing on the same spread as the narrative that discusses it.

Drawing on Walls Matthew Burgess, 2020-07-21

Burgess describes Haring discovering Robert Henri's The Art Spirit in college ("He felt as if the book was speaking directly to him"), encountering the large paintings of Pierre Alechinsky (he was "blown away"), and recognizing a common impulse in dancers at the West Village's

Paradise Garage ("For Keith, drawing and painting were like dancing. He called it 'mind-to-hand flow'"). Cochran uses a thick black line to suggest Haring's creations, and renders figures in a Haring-esque style without seeming gimmicky. Of interest to young readers are Haring's frequent efforts to involve children in mural-making projects. The story, including a respectful acknowledgement of Haring's death from AIDS, makes the subject seem immediate and real—and presents a compelling vision of answering the call to create. —Starred Review, Publishers Weekly I would love to be a teacher because I love children and I think that not enough people respect children or understand how important they are. I have done many projects with children of all ages. —Keith Haring Truly devoted to the idea of public art, Haring created murals wherever he went. From Matthew Burgess, the much-acclaimed author of *Enormous Smallness*, comes *Drawing on Walls: A Story of Keith Haring*. Often seen drawing in white chalk on the matte black paper of unused advertising space in the subway, Haring's iconic pop art and graffiti-like style transformed the New York City underground in the 1980s. A member of the LGBTQ community, Haring died tragically at the age of thirty-one from AIDS-related complications. Illustrated in paint by Josh Cochran, himself a specialist in bright, dense, conceptual drawings, this honest, celebratory book honors Haring's life and art, along with his very special connection with kids.

The Visual Story Bruce Block, 2013-04-02 If you can't make it to one of Bruce Block's legendary

visual storytelling seminars, then you need his book! Now in full color for the first time, this best-seller offers a clear view of the relationship between the story/script structure and the visual structure of a film, video, animated piece, or video game. You'll learn how to structure your visuals as carefully as a writer structures a story or a composer structures music. Understanding visual structure allows you to communicate moods and emotions, and most importantly, reveals the critical relationship between story structure and visual structure. The concepts in this book will benefit writers, directors, photographers, production designers, art directors, and editors who are always confronted by the same visual problems that have faced every picture maker in the past, present, and future.

Stories of Art and Artists Diana Secker Tesdell, 2014-10-28 *Stories of Art and Artists* gathers two centuries of classic stories from around the world. From Nathaniel Hawthorne's "The Artist of the Beautiful" and Albert Camus's "The Artist at Work" to Bernard Malamud's "Rembrandt's Hat" and Aimee Bender's "The Color Master," the tales collected here range from haunting fables about the power of art to vivid portraits of those who create. Writers have long been fascinated by the idea of artistic genius, the relationship between portraits and their subjects, the inspirational role of muses, and the effects on artists of ambition, failure, and success. Art forms featured in these pages include sculpture, pottery, architecture, miniatures, landscapes,

portraits, and abstract painting, illumined in brilliant stories by such great writers as Honoré de Balzac, Hermann Hesse, Franz Kafka, Marguerite Yourcenar, John Berger, William Boyd, Doris Lessing, Valerie Martin, Julian Barnes, Orhan Pamuk, and A. S. Byatt. Their dazzling literary evocations of the visual arts—using one art form to reflect on another—make *Stories of Art and Artists* an irresistible gift for lovers of art of all kinds.

Radiant Child Javaka Steptoe, 2016-11-08 Winner of the Randolph Caldecott Medal and the Coretta Scott King Illustrator Award Jean-Michel Basquiat and his unique, collage-style paintings rocketed to fame in the 1980s as a cultural phenomenon unlike anything the art world had ever seen. But before that, he was a little boy who saw art everywhere: in poetry books and museums, in games and in the words that we speak, and in the pulsing energy of New York City. Now, award-winning illustrator Javaka Steptoe's vivid text and bold artwork echoing Basquiat's own introduce young readers to the powerful message that art doesn't always have to be neat or clean--and definitely not inside the lines--to be beautiful.

The Art of Eric Carle Eric Carle, 2021-03-09

Carle is one of the most beloved illustrators of children's books. This retrospective is more than just an appreciation of his art, however. The book also contains an insightful autobiography illustrated with personal photographs, an anecdotal essay by his longtime editor, a photographic essay on how Carle creates his collages, and writings by Carle and his colleagues. Still, it is the artwork in the oversize volume that seizes the imagination. More than 60 of his full-color collage pictures are handsomely reproduced and serve as a statement of Carle's impressive talent. - Booklist

Tell Me Your Story. 100 Years of Storytelling in African-American Art, 2020 'Tell Me Your Story' starts with the Harlem Renaissance. Harlem in the 1920s saw a flurry of activity by African American authors, musicians and theatre makers, resulting in a vibrant visual arts scene. Black culture is currently enjoying another renaissance, and African American artists are more visible than ever in the United States. The exhibition places contemporary artists in the context of their predecessors. 'Tell Me Your Story' focuses on five chronological periods: the Harlem Renaissance, Post Harlem Renaissance, Civil Rights, Black Renaissance and the Bloom Generation. The artists in each of these distinct

periods shared one common characteristic: the need to express themselves and safeguard the vital African tradition of storytelling.00The exhibition is being organised as part of Kunsthall KAdE's 2020 trilogy on the United States, inspired by the upcoming presidential election on 3 November. This is a key moment in a politically and socially polarised nation. Over the course of the elections KAdE will be holding a presentation exploring the role of artists in the current US environment. The summer period will see the launch of an exhibition on Art Activism in New York during the 1980s, another decade shaped by politically engaged artists.00Exhibition: Kunsthall KAdE, Amersfoort, The Netherlands (08.02.-17.05.2020).

Learning to Look Joshua C. Taylor, 2014-12-10
Sometimes seeing is more difficult for the student of art than believing. Taylor, in a book that has sold more than 300,000 copies since its original publication in 1957, has helped two generations of art students learn to look. This handy guide to the visual arts is designed to provide a comprehensive view of art, moving from the analytic study of specific works to a consideration of broad principles and technical matters. Forty-four carefully selected illustrations afford an excellent sampling of the

wide range of experience awaiting the explorer. The second edition of *Learning to Look* includes a new chapter on twentieth-century art. Taylor's thoughtful discussion of pure forms and our responses to them gives the reader a few useful starting points for looking at art that does not reproduce nature and for understanding the distance between contemporary figurative art and reality.
