To Catch A Dream David Koulack,1991-01-01 To Catch a Dream is a behind the scenes look at the exciting world of sleep and dream research. It provides an intimate glimpse into our nocturnal creative activities as well as tentative answers to age-old questions about dream recall and dream recall failure, the relationship of daytime events to dream content and the possible adaptive function that dreams may have in helping us to cope with stress in our daily lives. -- From product description.

Children of the Damned John Michael Osborne,2009-12-29 Paul Jameson, a newly hired high school guidance counselor, and his daughter, Monica, moved to West Highland, Georgia. The suburb of Atlanta was held in the grip of three teens who called themselves the Evil Trinity. The Evil Trinity seemingly possessed psychic and paranormal powers that allowed them to find out personal things, bad things that people wanted no one to know, including a shameful event three adults covered up. Can Paul discover the secret before it costs him his life and the life of his daughter?

Volcanic Successions Modern and Ancient R. Cas,J. Wright,2012-12-06 One of our aims in the book is to provide geologists with a sound basis for making their own well founded interpretations. For that reason we cover not only concepts about processes, and the nature of the products, but also methods and approaches that may be useful in analysing both modern and ancient successions. Most importantly, we treat the diversity of products in volcanic terrains as facies, and we use the method of facies analysis and interpretation as a means of constructing facies models for different volcanic settings. These models will, we hope, be useful as norms for comparison for workers in ancient terrains. The idea for this book came into being between 1981 and 1982 when J. V. W. came to Monash University to take up a Monash Postdoctoral Fellowship. During this period a short course on facies analysis in modern and ancient successions was put together, integrating J.V.W.'s extensive volcanological experience in numerous modern volcanic terrains with R.A.F.C.'s extensive sedimentological and volcanological experience in older volcanic and associated sedimentary successions in the Palaeozoic and Precambrian of Australia. The enthusiastic response from the participants to the first short course, taught in May 1982, and to subsequent annual re-runs, encouraged us to develop the short course notes into this book. The idea for both the short course and the book arose because we felt that there was no single source available that comprehensively attempted to address the problems of analysing, interpreting and understanding the complexity of processes, products and stratigraphy in volcanic terrains.

Sipping Saltwater Steve Hoppe,2017-10-01 Helps readers identify what they are thirsting for and how only Jesus can provide lasting satisfaction. A unique angle on the problem of idolatry and how it affects Christians, particularly in our contemporary culture of numerous hidden idols. The uniqueness of this book comes in the metaphor of sipping saltwater. Even as Christians, we 'sip' on idols such as money, relationships, careers, sex, food, human approval...the list is endless. These things promise to satisfy us-to quench our thirst. In the end, however, they fail to do so and leave us thirstier than we were before drinking them. To make matters worse, we are left with devastating hangovers-the negative consequences of our idolatry. This book enables readers to identify their own source(s) of saltwater and explains how to quench their thirst with Jesus' living water-the only drink that will ever truly satisfy us both now and for eternity. It inspires readers to go on in the Christian life as they started-by making Jesus the centre of our lives and giving our worship to him.

Food Fundamentals Margaret McWilliams,2006 This clear, concise book helps learners develop a strong basic understanding of food preparation and science within the context of societal concerns related to health and food safety.A three-part organization covers Today's Food Scene, Food Preparation, and Food in the Context of Life. Individual chapters discuss food safety, HACCP, BSE, biotechnology, GMO, sweeteners and fat substitutes, the labeling of trans fats, and much more.Essential for all students majoring in food science, dietetics, and nutrition; the book's knowledge base will help prepare individuals to function effectively in their future careers.

Not Half Way, Not Your Way, But God's Way John Beresky,2018-07-24 Regarding faith, a playwright once said, 'Men still have faith, but today men do not have faith in God. Men have faith in the doctor.' That playwright lived to be ninety-five years old. We need to learn from God's people who lived long. Ask yourself this question: what did Noah or Abraham or Moses or Joshua do to achieve health and longevity? I'm sure they did nothing halfway or their way, but they did things God's way.

Sovereignty at the Edge Cathryn H. Clayton,2020-03-17 How have conceptions and practices of sovereignty shaped how Chineseness is imagined? This ethnography addresses this question through the example of Macau, a southern Chinese city that was a Portuguese colony from the 1550s until 1999. As the Portuguese administration prepared to transfer Macau to Chinese control, it mounted a campaign to convince the city's residents, 95 percent of whom identified as Chinese, that they possessed a "unique cultural identity" that made them different from other Chinese, and that resulted from the existence of a Portuguese state on Chinese soil. This attempt sparked reflections on the meaning of Portuguese governance that challenged not only conventional definitions of sovereignty but also conventional notions of Chineseness as a subjectivity common to all Chinese people around the world. Various stories about sovereignty and Chineseness and their interrelationship were told in Macau in the 1990s. This book is about those stories and how they informed the lives of Macau residents in ways that allowed different relationships among sovereignty, subjectivity, and culture to become thinkable, while also providing a

sense of why, at times, it may not be desirable to think them.
