Wet Dream's Do Come True... W. Jenkins, 2013-09-09 I had my first wet dream last night; I woke up in the middle of the night pumping sperm into my mattress. I don't remember a dream or anything either. Just waking up shooting my stuff, I was 9. It was a total shock and I thought what the hell as I woke up and then realized what was happening. At first I thought I was peeing the bed but then realized the pump pump pump just like when coming from jacking off. It felt exactly the same as when jacking off but without the ahhhhhhh orgasm feeling. But then I had a huge wet spot in the bed. I took my t-shirts and wiped up as much as I could then put another over it so I wouldn't be laying n the wet. I probably should wash the sheets but I don't want to tell my parents I came in my bed. Think its ok until Saturday when the sheets get washed. Last night had an AWESOME wet dream about this hot chick, but I have one almost every night about so female. In my dream's I was in an elevator with her (and I didn't know her) and I forgot to press my button at my low floor, so I went up to the high floor with her. We talked for a bit and flirted, and she got off. Next thing I know I'm in my bedroom and she's knocking on the door, I answer it and she's topless, and wants to come in. Then we fuck and I eat her out, and I remember vividly she had a nice pussy. Then she let me cum all over her face. It was awesome. Woke up with a boner...If you like this read thru my life in this book and I will have some flash back stories that I have made my wet dream cum true to this day and time...I am still have wet dreams and work on them to cum true. I have bedded 10,000 woman and I do not care what people think I love sex and that just that and the more type woman I can have clean sex with the better, just no kids. Theories abound as to why we dream, how we dream, and what meaning we can assign to our dreams. Many people believe that dreams can provide insights into our lives and feelings, but the trouble is, they're notoriously difficult to remember.

Premature Ejeculation | Premature Ejection | Early Ejaculation | Early Discharge We came to know at this moment when a man should not think ejaculation as a disease named premature ejaculation. Now question arises here who is the real patient of premature ejaculation and what the premature ejaculation is in reality. When many men make sexual relation with women, they ejaculate semen while inserting the penis into the vagina. Some men ejaculate semen as they touch the penis with the vagina and many men ejaculate during foreplay. Such kinds of men can be called the patient of premature ejaculation in true meaning. Ejaculation is the release of semen from the penis during an orgasm. When ejaculation occurs faster than you or your partner would like, it's known as premature ejaculation (PE). PE is also known as: rapid ejaculation premature climax early ejaculation Premature Ejeculation | Premature Ejection | Early Ejaculation | Early Discharge | Pre ejection | Premature Evacuation | Prejaculation | Pre ejaculation | premature ejakulation | premature ijaculation | delay ejection | premature ejuculation | ejaculating too soon | premature ejectulation | What is premature ejaculation? At present, mostly young men and people of all the ages are aware about it. Premature ejaculation means emission of semen soon. Often, this problem takes birth in young age but in this present age, old men also have been suffering from this age. Every man wants sexual intercourse for long time. There is a feeling in the mind of a man that if he ejaculates soon, the woman will not get great sexual pleasure during sexual intercourse. Because of this reason, a man becomes the victim of inferior complexity. Several kinds of doubts and misconceptions take birth in the mind of a man if he is the victim of premature ejaculation. causes of premature ejaculation (PE) or early discharge (ED) There are two causes of premature ejaculation:- 1. Semen of some men ejaculates before inserting the penis into the vagina. It is the first reason. 2. Semen of many men ejaculates just after inserting the penis into the vagina. This is the second reason of premature ejaculation Accumulation of heterogeneous liquid is the cause of early ejaculation. A person becomes the patient of early ejaculation when this polluted liquid produce disease in the nervous system of the body. A person who thinks about sex and makes sexual relation in an unnatural way becomes the patient of early ejaculation. Many people think about sex very much and involve in unnatural sex because of which they become the victim of early ejaculation. Excessive weakness of the body may be the cause of this disease. Masturbation may be the cause of early ejaculation. If the penis of a man is very weak, he can become the victim of this disease. Several other kinds of diseases as gonorrhea, intestinal worms and constipation may be the cause of early ejaculation. Any accident or injury on the genital region becomes the reason of early ejaculation. What are the causes of premature ejaculation? Causes of premature ejaculation:- Constant thinking about sexual intercourse and premature ejaculation is closely attached. When a man touches the age of puberty, he starts to think about a girl or about sexual relation with the girl by watching a girl on television screen or in his locality. He thinks that he touches her body, presses her breast if the girl is present here. In this way, several kinds of salacious ideas strike in his mind. The penis of the boy becomes erect as he thinks about it and he holds the penis with his

hand. This is the first ladder of the origin of the disease named premature ejaculation. When the boy lost in the dreams of the girl embraces her lips, presses her breast and kisses her in his imagination, he keeps on masturbating with hands gently but as he makes sexual relation with the girl in his imagination, he masturbates rapidly and in this way, he ejaculates. This thing clears that a man has full control over the ejaculation of semen. He ejaculates on the time when he wants to ejaculate or desires for ejaculation. Many young men make sexual relation with aged women who are too much sexually excited. Such kinds of women excite the young men very much during foreplay and the men ejaculates just after inserting the penis into the vagina or while inserting the penis into the vagina. In this way, they become cool soon. If the penis of such kinds of man gets erection again, they become unable to have control over the excitement of the penis. The same condition happens with them after marriage too. When they make sexual relation with their wives on the first time after marriage, they ejaculate soon and this thing creates several kinds of problems. Besides it, there is another condition too. Sometimes, a man loves a woman very much and he has to remain far from her because of any reason but he keeps on absorbing in her memories and kisses or presses her breast in his imagination. He keeps on thinking about her and the penis of the man becomes erect but this erection of penis disappears as stops to thinking about the girl or other sex things. At this moment, he ejaculates his semen and this is point from where a man becomes the victim of premature ejaculation mentally. Above-mentioned men are the men who became the patient of this disease because of their thinking. On the contrary, some men never think about women and make sexual relation in their imagination but they ejaculate semen as they touch the body of women. To know is very essential for such kinds of men that body of man is not a machine, which keeps on working without break. Human body wants relaxation too. a man ejaculates at that time because the body does not want to do excessive hard work viz process of stroking may not prolong its period. However, here we should not understand that ejaculation is associated with exhaustion. This is the process of change inside the body, which wants to provide relief to the body. Mostly men are older to their wives at the time of marriage. For example if the wife is 20 years old, the age of her husband will be 32-32 years. Besides it, many men father of many children marry to the younger girls. Result of it is that attracting and charming body of the women excited them very much at the time of sexual intercourse. In this way, they ejaculate semen before inserting the penis into the vagina. This thing happens with them regularly. A man of this kind absorbs into the lap of sleeping but his wife keeps on agonizing whole night. Sometimes, some men who have a lack of self-confidence keep on suspecting on their wives. Mostly such kinds of men live far from their wives in the matter of work. If the wife of such kind a man has good habit and behaves well with others, suspicion of the husband increases very much. The man keeps on disturbing about the character of his wife. In this stage, when he is making sexual relation with his wife, suspicions keep on striking in his mind continuously. In this way, he cannot establish sexual relation properly and become the victim of premature ejaculation. Many men have watched a woman in nude condition while bathing or changing clothes. At this time, sexual excitement increases very much in them. They start to think about sexual relation. A man of this kind cannot make sexual intercourse with the woman to whom he observed. In this case, he makes sexual relation with his wife but at this time, the exciting scene of the woman keeps on stimulating him continuously. This thing reacts on the body and nerves of the man. The result of it is that that a man ejaculates semen as he inserts his penis into the vagina. Every one knows that shame and shyness of a woman disappears after making sexual relation with once or twice with a man. After that a woman, start to play with the penis of the man without hesitation. She holds and fondles the penis of the man. This activity of the woman excited a man very much because penis of a man is very sensitive

organ of the body. if a man is the victim of this disease, he should say to his wife not to play with his penis by telling her the cause behind this thing. Rational women understand the feelings of a man because they know that this kind of activity will affect the activity of sexual intercourse. In this way, neither man nor woman will get the real sexual pleasure. Nevertheless, some women keep on involving in such kinds of activities in spite of knowing the fact. They forget the thing told by their husbands. At this condition, a man should establish sexual relation cunningly. It is clear that as a man presses the breast of the woman as the woman plays or fondles with the penis of the man because she takes great pleasure in this job as the man takes in pressing the breast. The man should make sexual relation in a way that the hands of the woman may not reach to the penis of the man. The hands of the woman may press between the both hands of the man under the waist of the woman. A man should act in a way that the woman may forget to touch the penis of the man. The most beneficial thing for a man is that many women play with the penis but they do not the technique. They hold, fondle, pat to the penis and touch the testicles. In these kinds of activities, the man faces no problem. The problem creates when a woman touches nude glans of the penis or kisses to the penis with her lips. If a husband remains far from his wife for long time because of any work or other reasons, he does not make sexual relation with his wife during this period. However, when he makes sexual relation after returning, he is very much excited at that time. He ejaculates semen after three or four strokes by inserting the penis into the vagina. This condition can take birth repeatedly because of stopped sexual excitement. The man should not fear with this condition otherwise, this fear can sit in his mind. A man becomes exhausted because of excessive burden of work or angry boss. He returns his home with dejection in his mind. He tells nothing if his wife asks him anything. Pressure of these things produces depression in his mind. When he sleeps with his wife at night, the wife wants to make sexual relation with him. The man gets ready to make sexual relation but outwardly not inwardly. The result of it is that his penis does not gets full erection and he ejaculates after three four strokes. If this thing happens regularly, the man becomes the victim of premature ejaculation. Sometimes, foreplay before the sexual intercourse becomes the cause of premature ejaculation. Sexual excitement of a man becomes so high by kissing or sucking the lips of the woman that he ejaculates semen before inserting the penis into the vagina. Besides it, a man becomes the victim of ejaculation soon if he sucks the vagina or licks the labia majora of the woman with his tongue because these are the most sensitive organs of a woman and any kind of touch of these organs brings the stage of climax for both man and woman. However, this stage makes a man the victim of premature ejaculation. Many men want to adopt different kinds of sex techniques by watching pornographic movie or picture. They become very much sexually excited by observing the nudes scenes of the picture or movie. They ejaculate semen without penetrating penis into the vagina. Besides it, many men make sexual relation before a mirror and observe their sexual intercourse in the mirror. Nude body of the woman excite men very much and the ejaculate their semen without sexual intercourse. Many men become excessive sexually excited by seeing the body of a woman in too much electric light. Sex organs of a woman are very salacious and too much electric light enhances their attractiveness. In this stage, when a man touches, fondles and presses the breast of the woman, he loses control over his sexual excitement completely. He penetrates his penis into the vagina hurriedly and ejaculates soon. Such kind of men who ejaculate soon, they should adopt opposite sexual techniques while making sexual relation. In this technique, the woman sits on the thighs of the man and starts the process of stroking on the penis with her vagina. in this stage, vagina of the woman, excited labia majora, pinky labia minora, excited clitoris, opening and contracting of the vagina makes a man very mcuh sexually excited and the man ejaculates after three of four strokes. This

kind of technique should be done either in dim light or in darkness because too much electric light can be dangerous in this technique. Often, many young men have misconceptions about the size of the penis. Such kinds of men think that their penis is very small after seeing the long and thick penis in any magazine or movie. They become worried by thinking that how they will satisfy their wives during sexual intercourse. This thinking creates a feeling of inferior complexity and their self-confidence reduces. It is necessary to tell something to such kinds of men that the penis as they watch in movie are made long and thick with the help of technology. They should not create any kind of misconception in their mind about the size of the penis. Length and thickness of the penis of a man are not related to the sexual intercourse by any way. Women, who were got married against their wish, do not have good relation with their husbands. They show no interest in sexual relation with their husband and give no support to their husbands when their husbands make sexual relation with them. The husbands has to make sexual relation one sided because of which he becomes the victim of premature ejaculation. If a woman has been suffering from vaginismus, sexual relation with such kind of woman never proves successful. As a man inserts his penis into the vagina of woman, she starts to scream because of pain. The man draws out his penis from the vagina because of fear. If he tries to make sexual relation with the woman, the same thing takes birth again. At this condition, excitement of a man becomes cool and he ejaculates his semen without sexual intercourse. Pain in the vagina can be because of mental and physical reason. In many cases, a man starts to make sexual relation without sex knowledge. He penetrates his penis into the vagina of the woman without arousing a woman for sexual intercourse. When a man starts the process of stroking without arousing a woman, the woman starts to cry because of pain because the vagina is not wet at that time and this thing becomes the cause of pain. Many men affect very much because of any scent or fragrance. A man of this kind becomes restless because of the fragrance. Several men and women use different kinds of fragrances before establishing sexual relation. If a woman becomes too much excited after the use of fragrance, there is no need to be worried in this situation but if a man becomes too much sexually excited after the use of fragrance or scent, he ejaculates before starting the process of stroking. We can say that fragrance and scent can become an obstacle in the sexual pleasure or orgasm. As sexual excitement increases because of fragrance and scent as sexual excitement reduces or ends completely because of any kind of odor or bad smell. This bad odor may be of anything as odor of the mouth, sweating of the body, clothes or bed smell of the secretion of the vagina. In this situation, the penis of the man does not get full erection and early ejaculation becomes necessary. If a man smells bad, the woman does not feel sexual urge and a kind of hate takes birth in her mind towards her husband. Vagina of the woman becomes tight in this situation and if a man makes sexual relation with her, he ejaculates soon. If both husband and wife have tasted the flavor of homosexuality before marriage, they show no interest towards opposite sex. Neither a man gets sexual pleasure nor he provides sexual pleasure to the woman. It is happens because they are too much interested in homosexuality. They show no interest in the sexual relation with opposite sex. If both husband and wife establish sexual relation against their wish, the woman becomes cool and the man ejaculate soon. If a married couple gets child after one year of marriage, they neither take great sexual pleasure nor do they involve in sexual intercourse. They fear lest the child should wake up when they are making sexual relation. In this situation, they want to end sexual intercourse soon. They do not put off their clothes completely before making sexual relation. The result of it is that sexual excitement cannot be produced properly and they start sexual intercourse. Both husband and wife remains keep on paying attention towards child whether the child is sleeping or not. Vagina of the woman does not become wet properly. In the lack of sexual excitement, a man does not penetrate his penis into the deepness of

the vagina. Sometimes, the penis of the man does not get full erection. This is the reason that the man becomes ejaculate semen without satisfying his wife during sexual intercourse. Sperm Wars Robin Baker,2006-01-03 This classic work on the rules of sex -- updated for a new generation -- is still as provocative as the day it was published, providing simple explanations for any and all questions about what happens in the bedroom. Sex isn't as complicated as we make it. In *Sperm Wars*, evolutionary biologist Robin Baker argues that every question about human sexuality can be explained by one simple thing: sperm warfare. In the interest of promoting competition between sperm to fertilize the same egg, evolution has built men to conquer and monopolize women while women are built to seek the best genetic input on offer from potential sexual partners. Baker reveals, through a series of provocative fictional scene, the far-reaching implications of sperm competition. 10% of children are not fathered by their fathers; over 99% of a man's sperm exists simply to fight off all other men's sperm; and a woman is far more likely to conceive through a casual fling than through sex with her regular partner. From infidelity, to homosexuality, to the female orgasm, *Sperm Wars* turns on every light in the bedroom. Now with new material reflecting the latest research on sperm warfare, this milestone of popular science will still surprise, entertain, and even shock.

Fundamentals Of Aquatic Toxicology Gary M. Rand,1995-10-05 This text is divided into three parts. The first part describes basic toxicological concepts and methodologies used in aquatic toxicity testing, including the philosophies underlying testing strategies now required to meet and support regulatory standards. The second part of the book discusses various factors that affect transport, transformation, ultimate distribution, and accumulation of chemicals in the aquatic environment, along with the use of modelling to predict fate.; The final section of the book reviews types of effects or endpoints evaluated in field studies and the use of structure-activity relationships in aquatic toxicology to predict biological activity and physio-chemical properties of a chemical. This section also contains an extensive background of environmental legislation in the USA and within the European Community, and an introduction to hazard/risk assessment with case studies.

The Devil's Sperm Is Cold Marco Vassi,2014-04-01 "Her mouth went dry. From one standpoint, the job wasn't much, but from another, it was like salvation. In her state of confusion and fatigue, the job seemed heaven-sent, and Lou like an angel. He watched her carefully. 'Frankly,' he went on, 'if you want to sell your talent and your time, you must be aware I'm interested in more than your literary skills.' He had paused for a long moment and then added, 'Perhaps we can continue this interview at my apartment later.' Her face flushed. Not only because of the openness of his request, but because she felt a strange tingle of excitement." Who is this man? Is he the face of the devil, or the taunt of temptation?

Sperm Wars Robin Baker,2005-12-13 This controversial new view of human sexuality has stimulated heated debate around the world by suggesting that much of our sexual behavior is driven by imperatives hard-wired into us through an evolutionary competition the author calls the sperm war. Robin Baker contends that sex, for humans, is a battleground upon which an unconscious evolutionary conflict takes place.

Salvation of the Soul and Islamic Devotion M. A. Quasem,2023-05-31 First Published in 1983, *Salvation of the Soul and Islamic Devotion* demonstrates that salvation is a central concept of the religion of Islam, even though its

meaning, causes and results according to Islam may differ from what is taught by Christianity and other world religions. The first chapter of the book presents the Islamic doctrine of salvation as set forth in the Quran and prophetic tradition. The meaning of salvation is explored, and the means to it on both human and divine sides are considered with special emphasis upon Islamic devotions. The remaining eight chapters deal with both obligatory and supererogatory devotions prescribed by Islam, concentrating on the methods of their correct performance, on which salvation is largely dependent. The material used in this book has been derived entirely from the original Islamic sources written in Arabic. Efforts are made to make the book useful to both Muslim and non-Muslim readers of English interested in the Islamic theory of salvation and acts of devotion.
